

BUSINESS UPEI Hosts

My first prediction of the year came through when John Neville, Senior Business student, was nominated Athlete of the Month at UPEI for his golfing heroics in the intercollegiate tournament. The rumor on campus, originating from Ed Hilton's office, is that Ozzie, football, and John were tied at 3 votes each and Neville was called in to cast the deciding vote. The rest is history. He succeeds another fine golfer who won the award in Sept. of '77.

The next Business student to hit the spotlight in sports is Senior Kevin MacCardle, who drove a splendid and well thought out horse race. The intercollegiate horse race to decide a UPEI representative was divided into 3 sections with the top 2 finishers in each heat to have a race-off to decide the champion. Our congratulations go out to Kevin for a job well done. Incidentally, golfer Neville almost got lapped because he thought he was driving one of those ponies you find at the boat terminal.

A bit more on the serious side seems to be the student-professor ratio in the Business department. With 365 students and 8 full-time professors, one does not need to be a math

major to arrive at a 46 to 1 ratio. With such a large number of students it is quite difficult for the professor to get to know the student but so far they are doing a better than adequate job. This I feel is because we have 8 of the best professors possible but what is going to happen as the enrolment in Business continues to increase? We have 25% of university enrolment and 7% of the professors. Enough has been said on this matter.

For those Business students who are wondering just what the Business Society is doing for the students, then sit tight because just around the corner is the biggest and best Business student conference the Atlantic provinces has ever witnessed. We, the executive, have been planning this event since May and all our efforts are going to be shown on Oct. 26th - 28th. We will be looking for approximately 10 official delegates at \$15 registration fee, to attend all events which include a banquet, luncheon, wine and cheese party, tour of the industrial park, two super parties and 7 to 9 hours of the best lectures on small business in Atlantic Canada. If interested,

contact Freda in the office as quickly as possible. For the rest of the students, classes will be cancelled but for your own benefit the professors are going to request you attend the lectures. They are going to be interesting and informative so make a point of dropping in. Times and locations will be posted.

Business Bits: Marg and Vince are organizing intramurals; contact these people in the Gym...

Business faculty are at present trying to organize better program for the students (already best in Eastern Canada)... Emmet is still chasing frosh (females) in Kelley...top Business student has invested partial life savings in stock market...price of Business books to go on a 50% sale (from 11.59 p.m. to midnight on Oct. 16th). See you next week.
