

ANOTHER VICTORY.

**Mr. E Morrow Cured of Lumbago
Dodd's Pills**

Toronto, Nov 23.—The vast majority of Torontonians know and esteem Mr. E. Morrow, the able and popular agent for the Toronto Gas and Light Co.

For this reason the following statement made in writing by Mr. Morrow, possesses unusual significance.

"Two years ago I was attacked by Lumbago and urinary trouble which caused me intense suffering, I took several different remedies without any benefit. Then I began using Dodd's Kidney Pills, and was completely cured by them."

Lumbago is unusually prevalent this fall. All sufferers should know that Dodd's Kidney Pills are the only known cure for it. They never fail.

By the breaking of the ice on Leverett Pond, Brookline, Mass., Christmas day, three young girls who had been skating were drowned.

Keep Minard's Liniment in the House

The report that Don Carlos had contracted a loan in England is untrue. It is explained that he tried to do so but failed.

Dr. Chase Cures Catarrh after Operations Fail.

Toronto, March 16th, 1897. My boy aged fourteen, has been a sufferer from Catarrh, and lately we submitted him to an operation at the Central Hospital, since then we have resorted to Dr. Chase's Catarrh Cure, and one box of this medicine has made a permanent and complete cure.

H. G. FORD,
Foreman, Cowan Ave. Erie Hill.

The French Chamber of Deputies, has unanimously voted a credit of 66,000,000 francs (a little over \$13,000,000) to complete the new artillery.

Minard's Liniment is used by Physicians

The Dowager Lady Carew of Woodstown House, Waterford, Ireland, has just reached her one hundredth year. She is said to be the last survivor of Lady Richmond's famous Brussels Ball on the eve of Waterloo.

To all who find themselves with health gradually slipping away, Kidneys and Liver so disorganized that they are incapable of keeping the system free from poisonous waste material, Stomach Disorders, Bowels Congested, Head Aching, Back Pain, take Dr. Chase's Kidney-Liver Pills, the quick way they help you back to health with surprise.

For the first time in the history of the University of Upsala, now more than 400 years old, a woman has been admitted to a lectureship. Elsa Eekstrom is the woman who has this double honor, and she is now regularly lecturing before the law students of the university.

Minard's Liniment Lumberman's Friend

A serious wreck on the Great Northern Railway was averted near Austin, Texas, on Wednesday night last. An obstruction on the track was run into; but the train was proceeding slowly as the headlights had been extinguished by a bird flying against the glass.

I WAS CURED OF Rheumatic gout by MINARD'S LINIMENT.
Halifax, ANDREW KING.

I WAS CURED OF acute Bronchitis by MINARD'S LINIMENT.
Sussex, Lt.-Col. C. CREWE READ.

I WAS CURED OF acute Rheumatism by MINARD'S LINIMENT.
Markham, Ont. C. S. BILLING.

Ask for Minard's and take no other

Good health is worth more than anything else to you, and every bottle of Hood's Sarsaparilla contains good health.

Chronic Eczema Cured.

One of the most chronic cases of Eczema ever cured is the case of Miss Gracie Ella Alton, of Hartland, N. B. On a sworn statement Mr. Alton says: "I hereby certify that my daughter Gracie Ella was cured of Eczema of long standing by using four boxes of Dr. Chase's Ointment. William Thistle, druggist, of Hartland also certifies that he sold four boxes of Dr. Chase's Ointment which cured Gracie Ella."

A New Year's Gift free to every person buying fifty cents worth of goods.

Last :: Week

We sold hundreds of Xmas Presents. Why?—Because our prices were low and we had the new goods that suited the people. Young men bought rings for their best girl; old men bought Brooches, Clocks, Bracelets and Chinaware for their partners in life, Young women bought Watch Chains, Lockets and Fancy Goods for their beaus, mothers bought toys and dolls for the children, and many were made happy by visiting our store. This week we will give a New Year's Gift to every person buying fifty cents worth of goods from us.

Nature makes the cures after all.

Now and then she gets into a tight place and needs helping out.

Things get started in the wrong direction.

Something is needed to check disease and start the system in the right direction toward health.

Scott's Emulsion of Cod-liver Oil with hypophosphites can do just this.

It strengthens the nerves, feeds famished tissues, and makes rich blood.

See and \$1.00; all druggists.
SCOTT & BOWNE, Chemists, Toronto.

THE CYCLONE.

How This Wonderful and Destructive Air Fury is Formed.

To get an idea of a cyclone's formation imagine a large circular pan or tub with quite a large hole in the middle of the bottom. With this hole plugged, fill the vessel with water; then draw out the plug and watch. There is first a rush of water from all directions toward the hole and a turbulent effort to get through. Then the water surface above begins to sink and swirl, the particles gradually circling around and around and rushing, ever faster, toward the center. At last there is actually a hollow space through the center, around which all the water in the tub is whirling, sluggishly near the rim, but with more and more violent rapidity toward the middle until it rushes downward through the bottom. Now, if that water were air, you would be watching a little cyclone turned upside down, for the air rushes upward instead of downward.

In the cradle of cyclones during the summer months, when the land and the water grow hotter and hotter because of the longer days than nights, a layer of air, hot, light and full of vapor, is for a time held down by denser air above it. Restless, expanding, tumultuous, it moves about like a beast at bay until a thinner place in the air above is found. Then up it madly rushes and into the vacuum left behind the lower atmosphere hastens from all directions, pushing and twisting and pouring upward until it has fallen into a regular spinning around a common center.

The cyclone, once formed, rushes away from the tropics toward the pole, and begins its career of destruction, bruising, wrecking and sinking the luckless ships which happen to be in its path. More and more of the surrounding atmosphere is drawn into the whirl until the storm often covers an area nearly 1,000 miles in diameter. Sometimes it flings itself upon our Atlantic coast and tears fiercely through forests, fields and cities. Then again it sweeps away across the broad ocean and dashes itself upon the coasts of Europe. Once in awhile it so adroitly avoids the land that we never know it has passed until ships come in torn and broken.—St. Nicholas.

SLOW AND UNCOMFORTABLE.

SIR,—I am glad that this matter of train service is coming up again in a way that will leave no delusions with the railway authorities. Because we have put up with this, that or the other inconvenience, hardships or slight in the past is no reason why we must continue to do so always. We have been a long suffering community; and there is an end to endurance. Even Father Burke has struck the right chord and I hope he will keep hammering at it in his voracious until there is a change. Imagine anybody invoking the means and methods of a generation ago when we got the road built and the facilities and comforts of travel were what is now called antiquated. I was over in the other provinces much and there they don't know summer from winter in trains and travelling accommodation. Why should we? Just look at the stupidity of the authorities in taking trains off just in Christmas week! Yesterday I went West from town, lumbered all along to Summerside, had to wait there hours, then the conductor got a seat in the one small coach for the crowd Christmas visitors, lawyers, clergymen, judges, all jammed up in a small car as hot on a warm day; as a furnace—then lumbered along to Alberton where we arrived at dark—from day-light till dark going 80 miles in the middle of the festive season! One could hear the Judge say: "this is really terrible in our days." The lawyers complained, the ladies sickened, the clergymen practiced patience, and the general public, used as it is to such service felt nothing out of disgust. Then a Westerner would say, "well we're glad you're getting a dose of our medicine." You'll understand us better when we speak. The universal verdict was: The same train should run winter and summer, as on the mainland—they're wanted all the more in winter to keep the road open and avoid a lot of hardship and needless expense. They certainly should be continued through the festive season at time of general travel anyhow. Sir Louis will surely not see P. E. I. made a stepchild of while he is credited with political omnipotence by his friends. And Mr. Sharp was supposed to have had an eye to business and progress, quite unusual in superintendents. Let them show then, that they wish to put this province on a level with Nova Scotia and New Brunswick in railway facilities, and the rate of remuneration given competent officials. Sir Louis, in opposition, vowed his willingness and ability to do this. He is on trial now; therefore let this matter of railway improvement be kept before the public.

Pardon the length of this, Mr. Editor. I don't trouble you often, and seldom see the flagrant of a system as yesterday.

CHARLOTTETONIAN.

Dec 28th, 1898.

A QUESTION.

SIR,—I see that the Superintendent is asking for tenders for "cordwood." Is he going to give up burning the fences to fire his fast trains west? INQUISITIVE.

DON'T STARVE YOURSELF to cure Dyspepsia. Eat heartily and take Dr. Von Stan's Pineapple Tablets. They assist nature in performing her functions and in an imperceptible time disease and suffering vanish and old time good health, comfort and youthful buoyancy reign, and life puts on a new hopeful phase. 35 cents. Sold by Dr S W Dodd and Geo E Hughes.

INSOMNIA.

SOUTH AMERICAN NERVINE RESTORES REST AND HEALTH.

If the digestive organs refuse to do their work, indigestion and dyspepsia follow like lightning's flash—the nerves are shattered and then insomnia runs riot, and the patient is on the road to the mad-house or insane asylum. A well known Toronto newspaper man was a victim of nervous prostration and insomnia through overwork—retiring at night was more of a dread than a welcome to rest—prejudiced against medicines and remedies, he spurned the thought of resorting to what he called nostrums—he became almost incapacitated for work—he was recommended to try South American Nervine, procured a bottle and when half of it had been taken, he found himself improving—sleep was induced, the nerves grew quieter, the appetite returned—he continued to take the remedy until he had used six bottles, and at the end of that time the twenty pounds he had lost in worry and for want of rest was put on again—to-day he says, "I feel strong enough to do two days' work in one."

South American Nervine is without a peer in the cure of nervousness, indigestion and insomnia. A few doses will convince the most sceptical. It gives immediate relief and effects a cure in every case. Strong as this statement may seem it is absolutely true.

South American Rheumatic Cure is never baffled—relieves in six hours and cures after years of agony have been suffered.

South American Kidney Cure cures Bright's disease, diabetes and bladder troubles. A few doses will convince.

Sold by Dr. S. W. Dodd and F. J. D. H. 1515, D. 1555.

Looking Forward.

(For Business Men)

Christmas is past. New Years is nearly here. 1898 will soon be numbered among the years that are gone and 1899 will be a very present reality.

And you—you are making your plans for this coming year of 1899!

You want to do more business in 1899 than you did in 1898, you want to give the people better value for their money, and you want to make more money in the coming year than you have done in the past—at least we presume that you do. And we want to help you to do more business, to help you to give the people better value, and to help you to make more money during 1899 than you did in 1898, and in doing so we want to do more business, to give you value, and to make more money than in 1898.

The first and most important way in which we can help you to obtain this object is by newspaper advertising. Newspaper advertising is unquestionably the best and cheapest form of advertising for the average retail dealer, always provided that the advertisements are properly and carefully prepared, and are inserted in the best medium. The best medium is the paper that goes into the homes. THE DAILY EXAMINER—an evening paper—goes into the homes, and at a time, when the family, especially the women, who are the principal buyers, have time to read the paper, after the days work is finished.

We therefore draw your attention to the DAILY EXAMINER as an advertising medium—an advertising medium that will help your business. Our circulation books are open to all; the rates are very reasonable We think we are not wrong in saying that THE DAILY EXAMINER—as an advertising medium—is the best daily newspaper of P. E. Island. It will pay you to use the best.

Then as to THE WEEKLY EXAMINER. We don't claim that it has the largest circulation of any P. E. Island weekly, but we do claim and prove that it goes into over two thousand homes every week and that it circulates largely among the better class of farmers—the class who pay as they go—the ones who will make the best customers for you. It will pay you to cultivate the trade of the farmers of P. E. Island. Advertising in the Weekly Examiner is a good way to cultivate it.

THEN AS TO JOB PRINTING

You want your stationery and all your printing done nicely, and done at as small a cost as is consistent with good work. You will probably have more printing to do during the coming year than you have done during this one.

When giving your next order for any kind of Job Printing, let us quote you our prices and show you some samples. Then if we don't do your printing it will be our own fault.

If there is any other way in which we can help you we will be happy to do so. We are always pleased to give the benefit of our experience, either in matters pertaining to advertising or printing.

We are almost sure that we can help you to do more business during 1899 than you did in 1898. Won't you let us try?

The Examiner Pub. Co.,

Publishers of "THE EXAMINER"

The Leading Newspaper of P. E. Island

A PRESENT

—FROM OUR—

STOCK CANNOT FAIL TO PLEASE

Like two friends, are the foot and shoe which meet in perfect harmony. Such meetings are common in our experience.

Ladies' and Gents' Slippers in all styles, Overgaiters and leggings, Moccasins, Overshoes and Rubbers.

A nice line of skating boots in all the latest styles and colors. It's economy to buy where high quality is cheapest. We've always lower prices and better quality than you get elsewhere.
