

RENOWNED BAR ARTISTS — THE IVANOVs

Top vaudeville acts fair feature

Seven vaudeville acts have been lined up to form part of Old Home Week festivities. Each act will take part in afternoon and evening performances in the coliseum at the provincial exhibition grounds. Two outstanding Canadian acts are included. They are Chal and Sonny, an oriental balancing act, and the Great Jerry, billed as "king of the balance." American acts include Korengo and Co., who is known as the "world's fastest illusionist." According to a press release, Korengo's act is "one of Europe's favored and diversified magician illusionists." Featured in the world's fastest round barrel substitution tricks, almost instantaneously the man changes places with the

lady who is handcuffed and tied in a sack which is locked in a small round barrel. The man emerges with a lighted cigarette. This act includes making a lady disappear in a Chinese box and sawing a lady in half. Another featured act is The Ivanovs, "thrilling world-renowned casting bar artists." These daring artists who have been featured with world-famed circuses, work without a net. The Ivanovs present an act composed of daring stunts, equilibrium with exciting comedy routines. Also appearing as part of the Ivanov act will be the Juggling Jesters. A sure favorite act with child-

ren and grown-ups is the Frisky Ponies. This act is one of the most entertaining of the circus world today.

The act consists of four beautiful miniature Arabian ponies, which perform outstanding feats. They show uncanny showmanship when their trainers put them through their paces. Rounding out the vaudeville program will be an elephant act. Details of this show are not yet available but those in charge of the vaudeville entertainment say it is an exciting and colorful act.

HOLD SAFETY CONTEST

OTTAWA (CP)—Nine provinces are taking part in a safety contest sponsored by the Canadian Construction Association for roadbuilding and heavy construction associations. The third annual contest began Monday and ends Aug. 29. Ontario will hold its contest from Aug. 23 to Sept. 3. Winner is the association having the lowest disabling injury frequency rate.

Demand repeated

JOHANNESBURG (AP)—The Rand Daily Mail today repeated its demand for a public commission of inquiry into its allegation of electric-shock torture and brutality in South African jails.

In an editorial, the newspaper claims Justice Minister Balthazar Vorster's threat to sue it for libel "would not do." In an earlier signed article, editor Laurance Gander described the South African government's violent reaction to the allegations as a "political hate campaign of unparalleled savagery."

He revealed the Mail had first decided to expose jail conditions in South Africa after receiving an unsigned letter which had been smuggled out of prison describing "conditions of utter degradation."

Restored arm still question

DENVER (AP)—Three-year-old Tina Gracia went home Wednesday, exactly four months after she lost her left arm in a train-automobile accident.

The tiny arm has been restored to Tina's little body, but surgeons said months may pass before it is known whether the operation was successful.

The restored arm has a pink color, showing good circulation, and the pulse is good, a Colorado General Hospital doctor said.

But it is the regeneration of nerves that will tell whether Tina will have normal use of the arm.

On the day of the accident, just north of Denver, 10 doctors took part in the five-hour operation to rejoin bone, veins and arteries.

In June the little girl underwent an additional nine hours of surgery to rejoin three principal nerves.

Florida bond, returned to her River Oaks mansion Wednesday night, expressing confidence she will be acquitted of charges that she and her nephew murdered her multi-millionaire husband.

Mrs. Mossier, 46, once prominent in Houston cafe society, and Melvin Powers, 28, were released on identical \$50,000 bonds earlier Wednesday after a six-day hearing involving the murder last year in Miami, Fla. of Jacques Mossier, 69. The stabbed-and-beaten body of the Houston and Miami financier was discovered June 30, 1964.

Compare Genuine SURGE with the very best imitation so far built!

An ancient trick of selling is to make a few changes here and there so that your product looks a little different . . . then . . . label it "NEW" and start making fantastic claims for this NEW product.

Surge equipment is constantly being improved . . . but . . . changes are made only when it can be shown that they actually improve milking operations, not just to provide new advertising copy.

The Surge milked its way to the very top of the Milking Machine Business . . . and . . . careful, honest tests convince us that Surge is still much better than the next best.

For a great many years, numerous highly skilled engineers have struggled to build a machine that would match the SURGE kind of cow milking. We urge you to compare that best imitation that these engineers have been able to build with the milk-getting, udder-protecting performance of a genuine SURGE milker.

Even if you have already invested in one of these IMITATIONS of the Surge . . . it will still pay you in increased production and improved udder health—to see your SURGE DEALER about switching to a SURGE.

See the SURGE in action "OLD HOME WEEK" at any of the following exhibition barns:
