Sheep Standards High At Prov. Exhibition

Six breeds of sheep were represented in various sections at the Provincial Exhibition with representing only a few farms, mostly within the Charlottetown area.

The quality of the entries, however, was of a very high standard, and the judging provided an interesting spectator event as the fluffy sheep were paraded in the show ring.

The entries of S. C. Stewart and Son of Charlottetown, R.R. 3, swept every top position in all nine sections of the Leicester Classes, and entries from this farm also swept seven of the eight sections, including male and female championships in the Shropshire Downs class.

The Stewart name continued on in the North Country Cheviot class with Winston J. Stewart of Charlottetown, R.R. 3, having four first place ribbons including champion female; and Allison Stewart, of Charlottetown, R.R. 3, with champion male and one other first; while W. Wilfred Stewart of Charlottetown, R.R. 3, had four first place honors.

Lincoln Boswall, of Charlottetown, R.R. 3, won male and female championships, and every other award in the classes for Border Cheviots.

In the Oxford Downs class, John R. Thompson, of Charlottetown, won the male and female championship awards, and six other first place ribbons.

Allison Stewart had the male and female champions in the Suffolk breeds, and won 6 other top honors.

Following are the results of the judging:

Wheat Stockpile Shows Increase In New Crop Year

OTTAWA (CP)—Canada began its new crop year Aug. 1 with a wheat carryover estimated at 490,656,000 bushels, the Dominion Bureau of Statistics has estimated.

The stockpile is about 100,000 bushels bigger than a year earlier. Atop this is expected a bumper 1963 crop with estimates ranging up to a record 750,000,000 bushels.

The carryover includes 64,700,000 bushels of wheat on farms, about 85 per cent of it on the Prairies. There was 232,099,000 bushels in country elevators with the rest in terminal elevators, mills or in transit.

While bigger than last year, the wheat carryover still is well below the average of 568,700,000 bushels for the 1953-62 period.

The stocks of other grains, with the previous year's figure and the 1953-62 average in brackets:

Oats 151,396,000 bushels (79,100,000; 126,600,000); barley 89,717,000 (57,800,000; 115,100,000); rye 4,178,000 (3,800,000); 12,500,000); flaxseed 4,275,000 (5,300,000; 5,100,000).

All five major grains add up to a total carryover of 740,200,000 bushels, 38 per cent higher than 537,000,000 bushels a year earlier, but 11 per cent below the 10-year average of 828,000,000 bushels.

CWL Member Has Criticism For Women

CALGARY (CP) — Women have done little to answer the late Pope John's call for Roman Catholic participation in social action, a member of the Catholic Women's League of Canada said here.

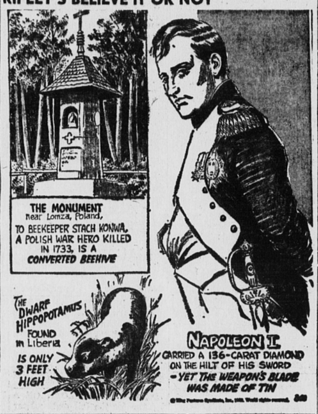
"I think that this is a problem that is very large, but it can be put into a few words," Mrs. P. C. Lomer of Hafford, Sask., told the 500 delegates and visitors.

"Our membership is not Christian enough. We are not the kind of Christians Christ wants us to be and if we are going to try to revitalize the world about us and revitalize the social order, we'll have to begin in our own ranks.

"There is only one thing they should be working for—the salvation of our souls and the souls of others. If the CWL is not going to do this, then I'm not interested in the Catholic Women's League."

She suggested that a program be drawn up and be made available to CL parish councils outlining Christian duties.

RIPLEY'S BELIEVE IT OR NOT



CONTRACT BRIDGE

1. You are declarer with the West hand at Four Spades. North leads the queen of diamonds. How would you play the hand?

West		East

2. You are declarer with the West hand at Six clubs. North leads the queen of diamonds. How would you play the hand?

West		East
♠A	N	♠J1094
♥AJ9	W E	♥852
♦AK	S	♦763

3. The aim is to play the hand in the safest way possible and not rely on luck any more than is necessary. Of course, you could win the diamond, draw trumps, and lead the jack of clubs and finesse. If South took the king, you would still have a chance of making the contract on a heart shift — provided South had the ace of hearts. But you would probably go down if North showed up with the ace of hearts.

However, there is a safer way of playing the hand that is almost foolproff. It overcomes those hands where South has the king of clubs and North the ace of hearts.

Duck the first diamond! Let's assume that West continues with a diamond. Take the king, draw trumps, cash the ace of clubs and ace of diamonds, discarding the jack of clubs, and then lead the queen of clubs.

If South covers with the king, you ruff and now have your tenth trick in the form of the ten of clubs. If South plays low on the queen of clubs, you discard a heart and once more are assured of ten tricks.

2. It would be wrong to try to avoid the loss of two heart tricks by finessing in that suit. The odds would strongly favor losing two heart tricks with this method of play.

There is a far better chance of making the contract by establishing an extra trick in spades. Win the diamond, cash the ace of spades, and enter dummy with a trump. Play the jack of spades and discard a heart if South follows low.

Take the heart or diamond return, play a trump to dummy and lead the ten of spades, discarding the jack of hearts if South follows low. This method of play will succeed if South was dealt the king or queen of spades. Of course, if South covers etiher the first or second spade lead from dummy you ruff high. The probability of making the slam winth this line of play is approximately 3 to 1.
