THE DAILY EXAMINER.

NOVEMBER 30, 1896.

AN INSULT TO THE SCHOOL BOARD.

THE Guardian of this morning says:

"A very serious danger threatened the city and our non-sectarian school system. Publicity and exposure of the scheme were of vital importance to defeat the deep-laid plot."

Why this insult to the gentlemen entrusted with the duty of maintaining the public schools of Charlottetown in accordance with the laws of the land? Are Archibald Kennedy, Thomas Handrahan Dr. Taylor, Mr. Blanchard, Mr. Duncan McLeod and Mr. J. B. Macdonald, not to speak of the Hon. Donald Farquharson, acting Leader of the Government, the men to do that which is contrary to the law—unless deterred by the Guardian? Why is it suggested that these gentlemen, or a majority of them, are willing to do in secret that which they dare not do after the people have been informed by the Guardian of their proposed action? We have always regarded the members of our School Board as men of honour. But the Guardian, apparently, holds them to be no better than scoundrels, ready to be false to their trust unless constrained by the mighty force of public opinion (led by the Guardian) to be true to it. It is easy to see why the Guardian calls attention to the inaction of the Patriot and THE EXAMINER. There are good Protestant subscriptions to be drawn away from its contemporaries at the beginning of the year. But why it should inflict a gratuitous insult upon the School Board is unexplainable except upon the hypothesis that it dominated by conceit and ignorance.

We have yet to learn that any proposition has been made which threatens our non-sectarian school system, and we are very sure that the Bishop of Charlottetown would be the last man in the Province to concoct "a deep laid plot" or to knowingly suggest any violation of the law by which the members of the Charlottetown School Board are bound.

SITUATION IN CUBA.

THE sensational telegrams about the Cuban rebellion are, of course, to be taken with a grain of salt. It is, however, certain that Weyler has retired from the field to his residence in Havana, and that his army of invasion remains in the field, threatening Maceo's little force. The Spanish authorities quote Weyler as affirming that the opening of 1897 will witness the crushing of Maceo. But why the delay? Three weeks ago, when Weyler set out from Havana at the head of his legions, we were told that the end was at hand. Maceo and his 6,000 Cubans were to be Spain's prisoners within the month. But, after two weeks of campaigning, Weyler withdrew from his force and granted his opponents another month and more of liberty. One begins to think that Weyler is a bit of a coward. With 35,000 men he has virtually surrounded 6,000, but has not attacked them; with months of preparation and all the recruits he has demanded he has entered on this one campaign only; and he now withdraws from it personally just as the enemy is reached. His troops may overcome Maceo, and Weyler may thus be saved from disgrace. But if some such result does not occur soon, the Spanish government must name Weyler's successor. He has been a total failure from the first, a slaughterer of helpless prisoners and pompous brawler and braggart. Now he leaves his superior force in the face of the enemy. One would suppose that his recall by the Spanish Government would be immediate. But the Premier of Spain, questioned on the point a few days ago, said that there was no truth in the report that General Weyler had been recalled, and that it was equally untrue that his recall was contemplated. On the contrary, he added, the Government has given General Weyler a free hand in the task of suppressing the insurrection, and the Ministers had confidence that he would be successful.

According to the latest estimates the cost of the Cuban war to Spain has been about $200,000,000 thus far. At least 120,000 men have been sent to the island, where in two years 25,000 have been lost through desertion and by death in battle or in the yellow fever hospitals.

—It may prove interesting to some of THE EXAMINER's subscribers to learn that the Newfoundland Government's guarantee on Union and Commercial Bank notes 80 p.c. and 20 p.c. respectively, will expire on 31st December next, and if they hold any they should send them to one of the Canadian banks in St. John's to be looked after.

—Another elderly and highly respected citizen has passed away in the person of Mrs. Moore, relict of the late Rev. F. W. Moore. Mrs. Moore was warmly esteemed for her christian and womanly virtues and graces. She was one of a large and prominent family in Charlottetown—a sister of Hons. Benjamin and Daniel Davies and an aunt of the Minister of Marine and Fisheries—and she leaves sons and daughters and a large circle of friends to cherish her memory. Her illness has been long and distressing. Death has afforded the relief and rest of Paradise.

—The opening of the Behring Sea Claims Commission witnessed some preliminary fencing between Hon. F. Peters, the senior British counsel, and Hon. Don. M. Dickinson, senior counsel for the United States. When the rules of procedure were taken up, both sides agreed on all but one. Mr. Peters wanted the Canadian claims dealt with singly, but to this Mr. Dickinson strongly objected, arguing that the British should put in all their claims, and then the United States would put in their defence at San Francisco. Mr. Peters replied that it might not be necessary to sit at San Francisco. The point was finally settled in favor of the British contention. Sixteen British claims, totalling $459,500, with interest added from the time of seizure, were filed, and ten more are to follow.

NEWS NOTES.

Thirty miners were recently killed by a colliery disaster at Zengorage, Russian Poland.

A musical bicycle has been invented in England, which grinds out tunes as the wheels turn.

Seventy persons have been drowned by the floods at Athens, and an immense tract of land is submerged.

Two battalions of troops and a quantity of war stores have been despatched from Barcelona to the Philippine islands.

A Constantinople despatch to the London News says that a fresh massacre with 500 victims is reported to have occurred near Diarbekir.

The tariff commission sits in Hamilton on Tuesday and Wednesday, 1st and 2nd; Dec in Brantford on Thursday, 3rd, and in London on Friday and Saturday, 4th and 5th.

A monster shark, recently washed ashore at Midian, B. C., was found to have two tails, three perfect eyes, and the rudiment of a fin or flipper hanging to the under jaw.

Frank Erne, of Buffalo, was given the decision over George Dixon, of Boston, after twenty round, on Friday evening. The fight was for the featherweight championship of the world.

Austria evidently has the bicycle craze. Twenty large factories turn out 30,000 machines a year, which are sold for 4,500,000 florins. The exportation of Austrian bicycles is steadily increasing.

A heavy storm prevailed at Trieste on Thursday. Vessels were prevented from entering or leaving the harbor during its prevalence, and many houses were unroofed or otherwise damaged.

During his visit to British Columbia Hon. Mr. Davies will hold a conference with the whalers and obtain their views on the subject of the suggested modification of the Behring sea regulations for which the United States is pressing.

A despatch to the London Telegraph from Johannesburg, South African Republic, says that the Langlaate Royal, one of the Barnate mines, announces its closing down, due to the cost of working it. This action has created a profound sensation.

There has been a constant exchange of telegraphic messages recently between the British consul at Manila and the Hong Kong government. As one of the result the British second class cruiser Pique has gone to the Philippine Islands.

The largest single shipment of apples ever taken from an American port left Boston on Friday on the steamer Scotsman for Liverpool, which has on board 21,609 barrels. This exceeds by over 3,000 barrels any previous shipment to leave that country.

Rinderpest is rapidly spreading throughout Africa. It started in Abyssinia, has travelled across the continent, and crossed the border of the Cape Colony. It is likely that all of the two million head of horned cattle in the colony will be destroyed within a year.

It is announced from Chicago that Col. Robert G. Ingersoll was prostrated at Freeport, Ill., a few nights ago with what appeared to be a stroke of paralysis, and was taken to Chicago. His condition is so serious that he has cancelled all his immediate lecture engagements.

Corea, Turkey and India are sending their women to America in large numbers to study medicine. In the Oriental countries it is desecration for a man to touch a woman not his wife, and thus an excellent field is opened to the women who are intelligent enough to equip themselves as doctors.

An anti-Masonic congress at Lyons, whose resolutions were a covert attack on political Free Masonary and Jewish intervention, ended in a serious rioting, lasting until midnight. The cavalry had to clear the streets and many persons were seriously injured, including M. Phierry, of the France libre.

One of the worst blizzards that the Northwest has experienced in recent years swept over that country on Thursday night. The gale was furious, but next morning it moderated and by the evening was quite spent. Trains on all the railroads were considerably delayed. The storm was also very severe in certain sections of the United States. In Montana the thermometer registered 20 to 25 below zero.

The North China Daily News announces that news has been received from Pekin that it is the intention of the emperor to appoint Li Hung Chang to the post of reorganizer of the whole imperial navy and that the programme is to build within five years time six large battle ships, twelve first-class armed cruisers and twenty second and third class fast cruisers. Further that Li was greatly struck with the torpedo destroyers he saw in England and the result will be that the government will be advised to buy a regular flotilla of those fast boats for the new Chinese navy. It is further asserted that Li received promise from bankers in England to provide this money in return for railway concession.

John E. Redmond, Irish leader and member of parliament for Watertord, arrived at New York a few days ago on the steamer Teutonic. Mr. Redmond will deliver a series of lectures in the principal cities of the United States on his experience in parliament. He was welcomed at the pier by a gathering of prominent Irishmen. When interviewed Mr. Redmond said: "The recent dynamite scare was to a great extent manufactured by the Scotland Yard people, who did not want other political prisoners to be released." Mr. Redmond stated that the condition of the five prisoners still in Portland prison is horrible. One of them, Flanigan, is insane. Mr. Redmond declared the liberal party in England was in a state of disintegration. He thought Harcourt would probably succeed Rosebery as leader of tha party.

WESTERN NEWS NOTES.

(From the Pioneer)

Mr. Peter Clark, son of Mr. John M. Clark, got one of his fingers very badly cut on Thursday while at work in the mill of Messrs. Clark & McFarlane.

Miss McMillan, of Charlottetown, assisted by four of her lady pupils and by the best musical talent available will give a recital in Market Hall on January, the 8th.

On Friday Mr. John McDougall, of O'Leary, shipped 175 lambs via the Northumberland for St. John. There were also 13 horses on board belonging to various parties.

With the approach of winter the markets are weakening. Pork during the last day or two has fallen to from 3½ to 3 cts; in fact, on Friday some of the buyers were refusing to take it, since they could not get clear of what they have on hand, and it was difficult to get clear of it even at these low figures. Oats, too, on Friday afternoon and Saturday were down to 25 cents for both kinds. On Saturday 17 cents were still being paid for McIntyre potatoes, but the demand is about done.

THE CUBAN REBELLION.

Political Offenders to be Sent to Prison—Weyler at Mariel.

Seventy-four Naingoes and eighty cattle thieves, and sundry political offenders will be despatched to the African prisons in a day or two. The new public trial of Julio Sangully will take on Dec. 21st. Four political offenders were arrested at Havana on Friday.

Captain General Weyler arrived safely at Mariel on Friday where he was received by the authorities, large crowds of people, etc. He immediately started for Artemisa and on arriving there visited the hospitals, found them in an improved sanitary state and the health of the troops was generally better. From Artemisa the captain general went on to Vuelta Abajo by train, leaving the cavalry and the brigadier general, Calixto Ruiz, to join him later.

A special train is on its way to Havana from Artemisa with 141 officers and 483 sick soldiers. A convoy of sick, consisting of two officers and 213 men, in carts, are on their way to Guanajay. Thirteen men who are seriously ill, have been left in the hospitals at Artemisa.

On Friday night shortly before leaving Havana, Captain General Weyler signed a decree ordering the redemption of the present gold bills by the issuance of 20,000,000 of silver bills. The gold bills will be exchanged by the Spanish banks for the new bill from Dec. 1st to 31st; after that date the gold in circulation will be declared equivalent to silver. The new bills are to be redeemable from and after January 1st, 1897, at the Spanish bank with coin. The government will make a deposit with the bank of one-third of the 20,000,000 in coin. It will also levy a duty of five per cent on the official valuation of merchandise imported into the island from all countries, the valuation to be fixed in accordance with article 132 of the established custom house law. The duties are to be payable in silver beginning with products deposited in the custom house on January 1st.

On Friday the Cubans of Tampa, Fla., held their annual mourning celebration to commemorate the execution of eight medical students, who were the victims of a vicious Spanish mob in Havana on November 27th, 1871.

The arrest of C. B. Pendleton, a press correspondent, by the Spanish authorities in Havana has created considerable excitement at Tampa, Fla. It is said by his friends that some time last month, while at a Cuban meeting in Key West, Pendleton, in making a speech, eulogized the American and Cuban flags as the representatives of liberty, while a Spanish flag which he also produced he identified with despotism. He held aloft the former and trod upon the other, tearing it to shreds. When he left for Havana he was cautioned, and his departure was made known to the Spanish government by the representative in Key West. This is probably the cause of his prosecution.

The crowds of people which were attracted to the windows of Beer Bros. on Saturday evening by the soft and beautiful light of their new reflectors, shows that they appreciate a good thing. Some firms have a faculty for doing things right when they go about it, whilst others only half do it. Beer Bros. are to be congratulated upon outshining everything so far in their window lighting. The Fuel Electric Light Co. supplied the light. 1i

About Japanese Goods
How to be Sure they are Genuine and not Imitation

Rule I. For the dealer.—Import your Japanese Goods direct from Japan, then you are sure they are of Japanese manufacture. This rule has been followed by Geo. Carter & Co.

Rule II. For the customer.—Buy your Japanese Goods only from a firm who can assure you that they have imported them according to rule 1. In other words buy from Geo, Carter & Co.

It is possible that some people may think our Japanese Goods too cheap to be genuine, but let such remember that by importing direct, saving all middlemen's expenses, paying cash and charging moderate profits, we are able to sell Genuine Japanese Goods as low as people without such facilities can sell the imitation article. Our direct importation from Japan comprises goods to the value of four hundred dollars.

CHRONIC DISEASES
Treated by the SALISBURY Method of persistent SELF-HELP in overcoming past errors and removing the causes of disease. The result justifies the means.

This is not an easy quack cure-all. Neither should it be judged by certain bad imitations already among the people nor by the half-bad efforts of invalids to go it alone or half do it. The salvation of health necessitates sincere repentance, constant self-denial and whole-hearted faith in the good works of physician and patient. Not even M. D's certificates by the ream will save one from the evil consequences of stimulants, fluid or solid.
