D. A. BRUCE, MERCHANT TAILOR.  
Charlottetown, Oct. 24, 1888.

### Best of All

Cough medicines, Ayer's Cherry Pectoral is in greater demand than ever. No preparation for Throat and Lung Troubles is so prompt in its effects, so agreeable to the taste, and so widely known, as this. It is the family medicine in thousands of households.

"I have suffered for years from a bronchial trouble that, whenever I take cold for an exposed to inclement weather, shows itself by a very annoying tickling sensation in the throat and by difficulty in breathing. I have tried a great many remedies, but none does so well as Ayer's Cherry Pectoral which always gives prompt relief in returns of my old complaint."—Ernest A. Hepler, Inspector of Public Roads, Parish Terre Bonne, La.

"I consider Ayer's Cherry Pectoral a most important remedy

### For Home Use.

I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults."—Mrs. E. G. Elderly, Council Bluffs, Iowa.

"Twenty years ago I was troubled with a disease of the lungs. Doctors afforded me no relief and considered my case hopeless. I then began to use Ayer's Cherry Pectoral, and, before I had finished one bottle, found relief. I continued to take this medicine until a cure was effected. I believe that Ayer's Cherry Pectoral saved my life."—Samuel Griggs, Waukegan, Ill.

"Six years ago I contracted a severe cold, which settled on my lungs and soon developed all the alarming symptoms of Consumption. I had a cough, night sweats, bleeding of the lungs, pains in chest and sides, and was so prostrated as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am as well and sound as ever."—Rodney Johnson, Springfield, Ill.

### Ayer's Cherry Pectoral,

PREPARED BY  
Dr. J. C. Ayer & Co., Lowell, Mass.  
Sold by all Druggists. Price \$1; six bottles, \$6.

### RELIABLE

## WOODRUFF'S GERMAN BAKING POWDER

### ALWAYS.

### Local and Other Items.

#### WAGES TO BE REDUCED.

The Moncton Times says that the employees of the New Brunswick railway are to be reduced 10 per cent. in wages, commencing on New Year's and extending for two months.

#### LATE ARRIVAL.

The schooner Katie, 131 tons, arrived at Souris to-day to load produce for J. G. Stearns. The harbor is as clear of ice as in midsummer, and there is every prospect of her getting away in time.

The special quality of Ayer's Hair Vigor is that it restores the natural growth, color and texture of the hair. It vitalizes the roots and follicles, removes dandruff, and heals itching humors in the scalp. In this respect, it surpasses all similar preparations.

#### DIPHTHERIA.

It is stated that diphtheria is raging to an alarming extent along the borders of Berk and Lancaster, and Beras and Lehigh Counties, Pa. Along these two county lines there are at least 200 cases, some very malignant, and many prove fatal.

Many an otherwise handsome face is disfigured with pimples and blotches, caused by a humor in the blood, which may be thoroughly eradicated by the use of Ayer's Sarsaparilla. It is the safest blood medicine in the market, being entirely free from arsenic or any deleterious drug.

#### WILL BE SEPARATE.

The Montreal carnival curing committee have decided, as the \$3000 offered by the carnival committee to hold a hospital was altogether insufficient, to sever all connection with the carnival. It is proposed to hold a hospital altogether apart from the carnival if the necessary amount can be raised outside.

#### TIN WEDDING.

Sunday last was the tenth anniversary of the ordination of Rev. H. A. Meahan, at present of St. Bernard's Church, Moncton, to the priesthood. The Times says he stated during one of the services that it was his "tin wedding," and mentioned incidentally that it was an opportune time for the congregation to hand in their "tin" to aid in the completion of the new church.

#### NEWSPAPER MEN WHO LIVE HIGH.

The Halifax Herald staff acknowledge the receipt of a case of ale and porter from a well-known brewing firm in that city, and the Moncton Times staff acknowledge the receipt of geese from the managers of the Record Pottery, and a box of cigars from Dunlap, the tobacconist. THE EXAMINER acknowledges the receipt of—well, perhaps we had better not.

#### WHO OWNS THE "TIMES."

An Edinburgh despatch of recent date says that in the case of Mr. Parnell against the London Times the court has considered the proofs of the validity of the arrestments which had been made by the plaintiff. Mr. Soames, the Times solicitor, said there were a hundred proprietors of the Times. The court adjourned to enable the solicitor to produce a list of the proprietors.

#### FATALITIES.

Mr. Oliver Johnson, of St. Louis, Kent Co., left the other day on a hunting expedition, and later was found unconscious in the woods. He was taken home, where he returned to consciousness but died shortly after having received the rites of the church. The cause of his death is not stated. In the same parish, an old man named Jean Baptiste Robichaud, more than 80 years of age, is reported to have died suddenly a few days ago.—Ex.

#### MIGHT BE SENT TO CONGRESS.

There have recently been sentenced at New York two murderers, and the penalty imposed was that of death. The judge said they would be hanged on the 23rd of next February. He forgot, however, that under the new law of New York State all executions after Jan 1 are to be carried out by electricity. These men cannot therefore be hanged. But the new law also provides that criminals shall only be "electrified" whose crimes were committed after January 1. These men cannot therefore be electrified either. What is to be done with them?

#### PLEASANT GATHERING.

—There was a pleasant gathering at the Methodist Parsonage, Winslow, on the evening of the 21st inst. From 7 o'clock, people kept arriving, until the house was well filled. The company having been called to order, N. Pearson, Esq., in a speech abounding in wit, and overflowing with kindness, on behalf of numerous donors, presented Mr. Slackford with a beautiful winter overcoat, and Mrs. Slackford with a lady's fur coat, the whole valued at between \$50 and \$60. Mr. Slackford, in a few words, returned thanks for himself and wife, after which all were invited to partake of a bountiful repast provided by the ladies. With music, singing and social converse, the hours passed away, and the company separated, feeling that an enjoyable evening had been spent.

#### SAD HOME-COMING.

—James Crawford has been away from his home in Halifax for the past six years. He was to have spent Christmas week with his mother; and in expectation of his coming great preparations had been made. In a letter to his mother he said he would arrive last Saturday evening. All in the house anxiously waited his coming, but as he did not put in an appearance up to midnight they came to the conclusion that he had missed the train. On Christmas morning, about 8 o'clock, a cab drove up to the door, and there was at once a rush to welcome the son and brother. Joy was quickly turned to disappointment and tears when, instead of the expected visitor, a stranger alighted to convey the sad intelligence that Mr. Crawford had died on Wednesday last. The messenger was a friend of the dead man, and he brought with him a purse containing \$150 as a Christmas present for Mrs. Crawford from her son.

#### ADVICE TO MOTHERS.

—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. [April 1 '88]

### Odds and Ends.

A Michigan man who had lost his wife kept his store closed till after the funeral, and then docked his clerks for lost time.

"Christmas comes but once a year."  
"Twas wisdom that so planned it;  
If it came oftener we fear  
No pocketbook could stand it."

At an examination for admission to the Free College, New York, 78 per cent. of the girls seeking admission passed creditable examinations, while only 48 per cent. of the boy applicants were able to enter.

Among recent camera achievements is a portrait copy taken by the light of a Cuban fire-fly in thirty seconds, and a photograph of the aurora borealis. To obtain the latter had been declared an utter impossibility.

A Cincinnati paper lost two subscribers by pitching into the Anarchists, and has just lost another by denouncing the White Caps. A newspaper, it thinks, can't be too careful about hurting other people's feelings.

It is estimated that \$100,000 have been sent as Christmas gifts to Ireland from Boston—nearly all of it by the servant girls of that city and vicinity—during the last week. One house alone drew drafts for \$60,000.

It is an ancient and pleasing sign of devotion for the lover to kiss his lady's eyes. This custom, it is perhaps needless to say, did not originate in Boston for who can imagine Hiram saying to Priscilla: "My love, will you kindly remove your spectacles?"

Advertisement in a Richmond paper:—Wanted—A washday moving in the very best colored society desires a position in a fashionable family, with full possession of the back building and privilage of daughter taking music and French. Address Mrs. L. C. P. O. city.

Parisian peddlers were selling the other day on the Boulevard a plaything representing M. Floquet as policeman No. 13 of the Tenth District. The legendary hat of the President was at his feet, and with every blow of his club out came Gen. Boulanger. The plaything was seized.

A queer statement comes from Berlin that the statistics of the libraries show that foreign literature is more popular than the German national literature. Each volume of foreign literature was lent out last year at the rate of 5.3 in the year, and each volume of the national literature at the rate of 5.1 times.

In Norway it has been found that snow offers considerable resistance to projectiles. A colonel had a new trench 2 meters 50 centimeters thick, built, and three shots were fired at from a distance of 33 meters. The ball only penetrated to the distance of 1 metre 20 centimeters, and were found entirely shapeless.

Woman's sphere seems to be constantly enlarging. At Manistee, Mich., the hoop factory employs women to feed the printers and do other light work of that nature, and finds that they do the work well; and at the dairy salt factories all the sacking and such work is done by girls, who work on piece work and seem to like the employment.

"When a man dies suddenly, without having been attended by a doctor," says a popular guide to the law, "the coroner has to be called in and an inquest held to ascertain the cause of death. But," adds the writer, "when he dies after having been attended by a doctor, then everybody knows why he died, and an inquest is not necessary."

The astronomers who perch on the top of Mount Winneconoc, Nev., next January, to observe the total eclipse of the sun, will be in the centre of the path of totality, 6,000 feet above sea level, and in an atmosphere almost totally destitute of humidity. They'll have the best place to be found in the United States, and great results are expected.

Lady Carrington, the wife of the Governor-General of New South Wales, has written to warn educated ladies from emigrating to Australia, unless they are prepared to earn their living by manual labor. There is no further demand for governesses or teachers, but people who are useful with their hands can find a good market there, as everywhere else.

Rome is regarded chiefly as a city of antiquity, but remarkable material progress has been made there in the last 20 years. During that time 82 miles of new streets have been made, over 3,000 houses have been built or enlarged, about \$2,000,000 have been spent in public improvements, and the population has increased from 244,000 to 379,000.

The most splendid tomb in England is undoubtedly that of the Duke of Hamilton in the grounds of the Hamilton Palace. It cost £180,000. It is a model of the Castle of St. Angelo at Rome. The gates are a copy of the Ghiberti gates at Florence, and the coffin of the Duke is enclosed in an Egyptian sarcophagus of black marble, which was brought from Alexandria.

Some fellow of a mathematical turn of mind has gone to the trouble to calculate that the light of the full moon is equal to that of 134,000,000,000,000,000 candles, and that within one or two of that number of candles could be set up on end on one-half the surface of the moon. This information will enable any one to figure up how much every full moon is worth to us, putting candles at, say, fifteen cents a dozen.

An ingenious plan for testing the condition of horses' feet is under consideration by New York blacksmiths. One terminal of a battery giving a light current is attached to the animal's bit and the other to the shoe. If the horse suffers from the shoes or nails he will squirm under the test. If there is no irritation he will pay no attention to it. A little electrical science in the blacksmith shop would locate much suffering.
