Salutes

The new addition to The Charlottetown Hospital

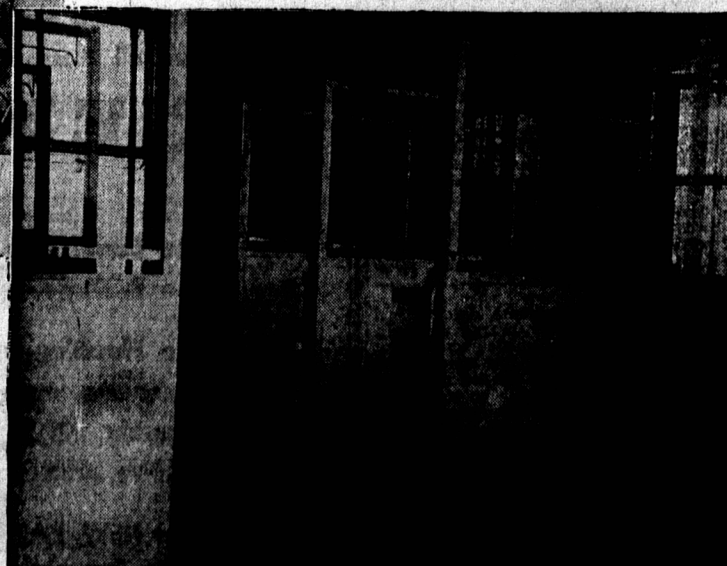

- IT provides the public with a long-wanted need.
- IT is one of the finest and most modern hospital additions in North America.
- IT symbolizes the growth and development of Canada's Island Province.

Symbols of an expanding community . . . the sight and sound of steam shovels and bulldozers biting into earth and rock, the clatter of rivet guns, the flash of welding sparks on steel girders, the smell of brick dust and cement . . . these have transformed the plans of architects and contractors into the reality of brick and steel, the new addition to the Charlottetown Hospital.

Simpson's is proud to have played a part in the completion of this fine addition . . . to have supplied the color schemes and furnishings for all the private and semi-private rooms, the wards, offices, nurseries and public areas . . . to have helped insure the comfort and protection of the patients by the installation throughout of a new fire-resistant "Fabron" wall covering . . . to have provided the draperies, beds, bedspreads, mattresses, furniture, rugs, wall coverings . . . even the pictures on the walls. Salutations from Simpson's Special Contract Division upon the opening of a new addition to the Charlottetown Hospital.
