PARLIAMENT OF CANADA.

Interesting Statement by Hon. Mr. Blair.

Senate Vindicated in the Drummond Deal Matter.

FRANCHISE BILL BEFORE THE HOUSE.

Senator Ferguson Representing Island Interests.

Cold Storage, Direct Communication with Great Britain and a Steamer at the Capes.

OTTAWA, March 16.—Hon. Mr. Blair gave evidence before the Drummond Railway Commissioners yesterday, and made the interesting statement that, after the rejection of the bill by the senate, last year, when the annual lease was arranged, a clause was incorporated providing that in case the government had power to take over the road absolutely it should have the option of acquiring it for \$1,600,000 cash in place of \$64,000 annually for 99 years.

Mr. Blair also stated that a later agreement required the company to spend \$100,000 in providing the road bed of which \$65,000 was to be spent west of Moosepath. Under the agreement of last year, the improvements required would not have cost more than thirty five thousand.

In the House of Commons, yesterday, the Yukon bill went through committees of the House.

The Franchise bill will be taken up today.

The result of the Ottawa recount was to confirm the first count of votes and elects Lumsden and Powell.

OTTAWA, March 16.—In the Senate yesterday, Hon. Mr. Ferguson brought up the question of cold storage service on the steamers between Charlottetown and Great Britain and a cold storage warehouse at Charlottetown. He spoke of the development of the dairy industries under the auspices of the late government. Last session, he said, the Minister of Agriculture promised cold storage plant at Charlottetown, and a statement was made that the government would allow 5 per cent. on private storage warehouses. On the strength of this promise the Board of Trade of Charlottetown had taken the matter up and capital had been subscribed, and now a deputation of the Board of Trade was here. He thought that the Island would be satisfied, for the present, with a monthly direct service.

Senator Scott, said that the government had proposed that, in the near future, they would be able to build a steamship company to extend the service to Charlottetown.

Senator Ferguson also enquired about the service of the Steamship Petrel which was engaged last winter to keep up communication between Cape Tormentine and Traverse. Hon. Mr. Davies had years ago condemned this route and the impression existed that an unfit steamer had been put on the route in order to condemn it. He (Senator Ferguson) thought that a suitable ship could keep the route open all winter. If it was necessary the government ought to get another ship in order to give constant communication.

Senator Snowball said it would cost a quarter of a million to provide wharves at

the capes, there was not water enough at either cape for a ship like the Stanley, and even the ordinary deal laden barques could not lie at the Tormentine wharf, but had to load outside.

Senator Wood contradicted these statements and explained that in two seasons forty barques had laden cargoes at Tormentine wharf. He had no doubt that if the proper boat was put on the Capes route communication could be kept open all winter.

Senator Ferguson could get no statement on the subject of steam communication from either of the ministers in the Senate. Both remained silent and the subject was dropped.

MONTREAL, March 15.—It is said Sir Adolphe Chapleau will be the Conservative candidate in Bagot county in the impending election for the House of Commons.

TORONTO, March 15.—Rev. Dr. Dewar, a prominent Methodist and former editor of the Christian Guardian, ran as liberal candidate in North Toronto in the recent by-elections, and was defeated. Last night, preaching in Dunn avenue Parkdale church, Rev. Dr. Carman, Superintendent of the Methodist church, said he disapproved of Dr. Dewar's action, and that a minister of the gospel should not enter politics.

MADRID, March 15.—A great sensation has been caused here by an official despatch from Havana saying that the insurgent leaders Caviro, Alvarez and Nunez have been killed by other insurgents while the former were on their way to tender their submission to the Spaniards. Official circles here claim that the action of Caviro and his companions is proof that an important section of the insurgents is anxious to accept the "legal regime."

LISBON, March 15.—The United States war vessels Helena and Bancroft sailed yesterday, going in a southwesterly direction.

LONDON, March 15.—A special despatch from Cadiz, Spain, announces that the Spanish squadron has sailed from that port. It is understood the Spanish warships are going to Porto Rico, where they will await the orders of Captain General Blanco.

NEW YORK, March 15.—The work of obtaining merchant vessels for auxiliary cruisers began yesterday with the opening of headquarters at 26 Cortlandt street, for the naval board to attend to the matter.

LONDON, March 15.—A despatch to the Times from Madrid describes the Spaniards as being in a nervous mood, their condition being such that the slightest hint of goodwill from a foreign power is elatched at as an earnest of an impending alliance.

NEW YORK, March 15.—A despatch to the Herald from Tokyo says: "The Herald's correspondent visited Marquis Ito today (Sunday) and asked him whether the Japanese government would sell the cruisers Kasagi and Chitose to the United States. The premier hesitated a moment and replied: 'I think I may say that Japan prefers to get possession of all the ships building for her as soon as possible. Officers have already been ordered to bring the Kasagi and Chitose of Japan and the builders have been requested to hasten their completion. However, I wish to have you understand that Japan retains the Kasagi and Chitose, not from unwillingness to oblige her, but because Japan needs them herself.'

LONDON, March 15.—The Daily News, commenting yesterday morning its Washington's correspondent's report that President McKinley's intimates believe him in favor of waiving all question of indemnity, provided Spain will accept America's friendly mediation in Cuba, says: "Such a solution would be best for all parties. If Spain is not able to manage her own colonies, they must be managed for her; that, and no straining of the Monroe doctrine, is the source of American feeling against Spain. There will be no disgrace or discredit in accepting the friendly mediation of a power with no ambitious or designs of its own to gratify. The President's position is a sort of stalemate. If President McKinley can find a way out of the embroglio he will earn the gratitude of the United States, Spain, Cuba and mankind."

WEDDED IN BOSTON

At the residence of Rev. Dr. Pickles, pastor of the Tremont Street Methodist Church, Boston, Mass., March 8th, 1898, Margaret J. Moore and George T. Abbott, of Prince Edward Island, were united in marriage by Dr. Pickles. The bride, formerly of Prince Edward Island, has resided in Boston for a number of years, and during that time has made a large acquaintance among well connected people, by whom she is highly thought of. Her presents were numerous and costly, consisting of articles of cut glass, sterling silver and decorative china. After the ceremony the happy couple repaired to the home of Captain Dawson, Concord Square, Boston, where they met their friends and relatives and partook of a bounteous repast, after which, with a shower of congratulations and best wishes, they took the train for Prince Edward Island, where they make their future home. We join with their numerous Boston friends in wishing them future happiness and success.

IT PAYS TO BUY AT PERKINS'

PERFECT CONTENTMENT

cannot be attained here below. However let us get as near to it as possible. First among women's pleasures is gratification in dress. We thought of these things when we bought our new shirt waists, and chose only the dainty kinds that were found to please. We considered another point, it is a pleasure to women to buy cheap, it is a pleasure for us to sell cheap; we find it profitable, which accounts for the low prices on our shirt waists.

F. Perkins & Co.,

SUNNYSIDE
Agents for Moncton Woolen Mills.

BORN
