

THE DAILY EXAMINER.

AUGUST 28, 1894.

AN EMPTY PROTEST.

The protest of the Charlotetown Board of Trade is empty and unbusinesslike. The Board was told plainly by the President of the Board of Underwriters that the additional five per cent. on premiums was laid on because the Provincial Government had imposed a tax upon Insurance Companies. This being undoubtedly the fact, and the Insurance Companies having done exactly that which the Hon. Mr. Farquharson or Mr. Beer or any other man or company of men would have done under the same circumstances, the plain and reasonable course of the Board of Trade was to have censured the Government for imposing such a tax, and threatened to withdraw their support unless repealed at the first opportunity. It cannot be doubted that the united influence of the Charlotetown Board of Trade, exerted in a reasonable way, would have effected the action of the Government. But what has the Board done? In the face of the changed conditions brought about by the Government and Legislature, the Board refers to a promise made under different circumstances, and protests against the rates charged! Of what avail is the protest of the Board of Trade against a Board of Underwriters representing Insurance Companies in Great Britain and America? The Insurance Companies are quite independent of the Board of Trade, and will act in their own interests without regard to any protests. If the Board of Trade could have influenced them it would have done so long ago. But the Government is the servant of the people; and the Board of Trade, representing the people, has influence over the Government. We regret that its influence has not been properly exerted.

It cannot be pleaded, on the part of the Government, that the effect of a tax upon insurance companies was not known. Common sense must have convinced the Government that the people would, under the circumstances, have to pay the whole of the insurance tax—and more; and THE EXAMINER and other newspapers expressly warned the Government and the people that this would be the result. The attempt of the Board of Trade to shield the Government behind a promise made long before the tax was imposed is ridiculous. It is the more noticeable in view of the fact that the resolution was moved by the Hon. Donald Farquharson and Mr. Benjamin Rogers, M. L. A., both responsible for the imposition of the insurance tax, both responsible for the special exemption of the Charlotetown Mutual Fire Insurance Company—and both directors of that Company! The idea of these unselfish gentlemen censuring others for defending the interests of other companies! It is laughable.

"THAT'S THE CHEESE."

It is hoped that this will be the remark of the critical English buyer concerning P. E. Island cheese. If we desire to obtain the highest price for our cheese in the English market, we must first of all be careful about the milk. "Everything depends upon the milk," were the words of the active young manager of the Kensington cheese factory—Mr. Babo—to a representative of THE EXAMINER. That is to say the milk he not pure and unadulterated, the most careful and most skillful making will not result in pure, unadulterated, high-priced cheese. In butter making it is possible, even with the appliances of a modern butter factory, to rid the butter of impurities in the milk. But in cheese making it is impossible, and the trained nostrils of the English buyer will detect the fault in an instant. Then, down goes the price, perhaps a quarter, perhaps a half cent on the pound, which means a loss of thousands of dollars to the patrons of our cheese factories. This shows the importance of careful attention to the milk. A single unadulterated, sour milk can, in which the milk is allowed to stand all night and is brought to the factory in the morning, will affect the whole output of the cheese of that factory for that day, and perhaps affect its character and price in England. Consequently it is of the utmost importance that every patron should send his milk to the factory pure and sweet. Some cows feeding on marshy pasture will eat a plant which imparts a peculiar flavor to the milk. Even when feeding upon the uplands the cows will give their milk a grassy flavor which is apt to be detected by the connoisseurs in cheese. Taints of this kind can be abated by leaving the cans uncovered and occasionally stirring the milk in them. Care on the part of all those who supply milk to the cheese factories is needed in this regard.

Another point to be noted in the economy of cheese making is the importance of having the factory in the midst of the district whence its supply of milk is drawn. As a quarter of a cent in the price makes a great difference in the net result of a season's operations, so does a few miles here and there in the distance which the milk has to be drawn to the factory. It costs doubly as much to draw milk ten miles as it does to draw it five miles. Hence the greater economy of having all the patrons of a cheese factory within the smallest radius.

The Empire Father Burke, of Allerton, Prince Edward Island, has shown a vigor as a temperance adherent which is admirable. At a picnic he found a man selling whiskey. The authorities refused to stop the sale, so Father Burke drove the man away and spilled the liquor on the ground. The priest will be called upon to answer in court, but it is safe to say that the trial will not detract from the courage of his action.

THE QUEEN'S SPEECH.

At the prorogation of the British Parliament on Saturday the Queen said: "I am confident you share in the joy with which I and my people have welcomed the birth of an heir in the third generation to my throne. The event is not merely propitious, but unprecedented in the history of this country. "My relations with foreign powers continue to be friendly and peaceful. It is, however, a matter of regret that the variety of questions relating to Africa between my Government and that of the French Republic still remain unsettled. It is my wish that these will be arranged without unnecessary delay, and I am engaged in friendly negotiations looking thereto. "In concert with the President of the United States, I have taken the steps necessary to put into effect the award of the tribunal of arbitration on the question of seal fisheries in Behring Sea, and have assented to the act of Parliament for this purpose. "I regret to state that war has broken out between the empires of China and Japan. After endeavoring in concert with Russia and other powers to prevent the outbreak of hostilities, I have taken steps to preserve strict neutrality between the contending parties. "A conference was held at Ottawa in June at which representatives of the Imperial Government, of the Dominion and of the Cape and Australian Colonies met to consider the question of the inter-colonial tariffs and communications. I have learned with satisfaction that the proceedings of the conference were of a character calculated to strengthen the union of the colonies concerned, both among themselves and with the mother country. "While the general tranquillity of Ireland has been maintained in a remarkable manner, the administrative and administrative difficulties still exist, which continue to engage the earnest attention of my Government. I have given my ready assent to bills which despite the shortness of the session, you have been able to consider and mature. "Her Majesty also said she trusted a final settlement of the Anglo-French question in Siam would not long be delayed. She recounts the passage of the local government measure for Scotland, and equalized rates in London bills and of a number of the minor measures, and prays the blessing of Providence may rest upon the labors of parliament.

MARRIAGE AT SUMMERSIDE.

Charlotetown and Summerside were alike deeply interested in the social event of to-day—the marriage of Dr. Moore to Miss Minnie Walsh. The bridegroom is a son of Mr. Philip Moore, Esq., of the Island Revenue Department in this city, and has hosts of friends here; and the bride is the daughter of Capt. Thomas Walsh, and one of the most popular of the young ladies of Summerside. It is almost needless to say that the large new Wesleyan Church at Summerside was overcrowded upon the occasion, that the church was beautifully decorated with floral arrangements, that the wedding party was handsome, that the silken ties which bind two willing hearts were carefully made by the Rev. R. W. Weddall and that the sun shone out propitiously. Miss Mary Strong, daughter of High Sheriff Strong, was the bridesmaid, and Mr. T. J. Walsh, town clerk of Summerside, and brother of the bride, the groomsmen. Almost the whole congregation accompanied the happy pair to the steamer Northumberland, which was gallily decked with flags in honor of the occasion; and there was a profusion of rice and good wishes. They were accompanied as far as Point du Clenoe by the bridesmaid and groomsmen and by the father and mother of the groom and the mother of the bride. Their wedding trip will include Boston and New York. The bride was the recipient of an unusually large number of costly and appropriate presents, including a beautifully bound bible and hymn book from the trustees of the new church as a souvenir of the first marriage ceremony performed therein.

AN ISLANDER MARRIED.

The pretty parlors of Mr. and Mrs. John G. Macdonald, of Gordon street, presented a pleasant appearance yesterday with its handsome and elegant decorations, when at one o'clock their daughter, Miss Isabella, was united in marriage with Mr. George Manson Shaw, of Prince Edward Island, by the Rev. M. C. Bowie pastor of the First Presbyterian Church. Only the immediate family were present. Miss Ella Beattie, of Melford, officiated as maid of honor, and Mr. William L. Macdonald, a brother of the bride, was best man. The bride's costume was pure white muslin, garnished with lace and ribbon, and she carried a bouquet of choice flowers. Miss Beattie also wore a pretty dress of white muslin, with lace and ribbon. A wedding dinner followed the impressive ceremony, and after donning a handsome travelling dress of brown broadcloth, with hat and gloves, attended the happy bride, with her husband, attended to the mail of honor and best man, were driven to the depot, where they took the 2:45 train for Boston, and later boarded the steamer for their future home at Stanhope, Prince Edward Island. The bride and groom were very profuse and elegant. —Waltham News, Aug. 21.

[The principal in the above event is the eldest son of Duncan Shaw, Esq., of Stanhope, who with his bride returned home on Thursday. THE EXAMINER extends its congratulations.]

THE COIT STAKES.—Although this is the fifth year for the Maritime coit stakes, even more than usual interest was manifested among horsemen as a result of this year's meeting. There is no doubt that these stakes have been of vast importance to the sporting interests of the country, as may be noted by the fact that among the horses who have participated in these stakes are Dexter, 2291, now owned in Quebec; Sir Charles, 2324, at present in Boston; Redwing, 2284; Edward Blake, 2371, owned in Boston; Sea King, 2221, the pony wonder owned in Woodbury, N. J.; Heck, 2341; Lady Pilot, 2301; Mandi M., 2311; Sir Richard, 2371, at 3 years; Brazilian, 2241; Mayflower, 228 Francis P., 2284; Parkside 2223; C. P. R. 2261; Dot 2223, owned in Massachusetts, and who was sold for \$1500; Bishop, 2471; at 2 years, sold to parties in Quebec for a large sum; Lord S., 2301; Parkland, 2341, who won at Saugus, Mass., last year, and was sold here for a handsome figure; Grace W., 2341; 4 year; H. H. H., 2381; at 3 years; Hattie, 2111 at 3 years, and others with slower records.—Moncton Times.

A mail arrived this forenoon at 10:40 o'clock, via Cape Traverse, bringing Montreal and Toronto letters and papers of the latest dates. An abstract of the news they contain will be found in another column.

It is openly stated that through an error in the United States Tariff Bill diamonds may get in free. The possibility of such a thing is alarming, and the poor will hear of it with dread.

A WIND OF DEATH.

At Least One Thousand People Believed to Have Perished. A late special cablegram to the Globe-Democrat from St. Petersburg says: A wind of death and no other name can describe the cyclone that swept across the Sea of Azov yesterday. It will be impossible for days yet to compute the damage done, but it is almost certain that one thousand people have perished, some drowning, other being crushed under falling houses and trees. The excitement is great among the American colony in this city, for it is feared that at least two parties of tourists were on the Sea of Azov at the time the wind did its deadly work. All the afternoon there has been a stream of callers at the American mission, asking, almost begging, for news from Odessa, whence the tourists were to have started on the regular sight-seeing trip across the Crimea, visiting Sebastopol and other famous battle-grounds.

The parties were separated, but it is probable that they started within twelve hours of each other and according to the schedule of the excursion, they would have reached the strait of Kerch yesterday morning, thence to go by steambot north to Berdiansk, where they were to take the train back to Azov. As at a late hour there was still only a general report of the disaster on which to base surmises of the Americans' safety. This report recounts what has happened. The excursionists, who were in a boat, were caught by the hurricane, which swept over the entire east shore of the sea of Azov. Every body is praying that some lucky chance delayed the excursionists, so that they could not reach the embarkment point today. At a late hour there was still only a general report of the disaster on which to base surmises of the Americans' safety. This report recounts what has happened. Every body is praying that some lucky chance delayed the excursionists, so that they could not reach the embarkment point today. At a late hour there was still only a general report of the disaster on which to base surmises of the Americans' safety. This report recounts what has happened. The excursionists, who were in a boat, were caught by the hurricane, which swept over the entire east shore of the sea of Azov. Every body is praying that some lucky chance delayed the excursionists, so that they could not reach the embarkment point today. At a late hour there was still only a general report of the disaster on which to base surmises of the Americans' safety. This report recounts what has happened.
