

**BRIGHT STUDENT  
IS TOO YOUNG**

LONDON (AP) — Little Maybelle Thompson can solve complicated algebra problems. She can read (like history books), write, spell and yet she can't get into school.

Maybelle is only four years old — and British authorities say she must wait until she is five.

Her father, James Thompson, an American from Newark, N.J., is a teacher at a Hertfordshire school, who is privately developing a new form of education technique.

"I don't consider Maybelle to be a genius," he said. "Anybody can learn. She is desperate to start school and he with other children."

**WROTE A LETTER**

Maybelle wrote to the headmaster of Micklands primary school in Caversham, where the Thomasons live, and enclosed some of the mathematical problems she had solved. The headmaster, I. A. Lane, was sympathetic but said: "She is obviously an abnormally clever child—quite extraordinary. But I had to advise her to contact the county director of education because I have no authority to admit her to school."

Maybelle was able to spell words such as apple at 2 1/2 months. A year later she had a 400-word vocabulary. She likes to read—but she tackles children's books for entertainment only. She also shows an interest in her father's text books, including one on elementary biology.

**Cuban Refugee  
Airlift Begins**

MIAMI, Fla. (AP)—A Pan American Airways charter plane flew here Wednesday with 22 refugees from Cuba, kicking off an airlift that could go on for years if Cuban Premier Fidel Castro sticks to his promise to let Cubans leave their homeland if they wish.

The plane reached Miami International Airport from Varadero, Cuba, at 1:59 p.m. EST, hours later because of mechanical trouble and red tape.

The Cuban refugee centre here said only 20 of the new arrivals would remain in the Miami area, which already has some 70,000 exiles from the Castro regime. These will stay because their relatives are here.

After quick processing at "freedom house" at Miami International Airport, the others were to fly out to other U.S. cities.

On behalf of President Johnson, a welcome message from the U.S. state department was read to the exiles on the plane.

**Aluminum Plant  
Is Scheduled  
In Australia**

MONTREAL (CP) — Aluminium Ltd. announced Wednesday that its wholly-owned subsidiary, Australian Aluminium Co. Ltd., will construct a \$25,000,000 aluminum smelter in the state of New South Wales, Australia.

Construction will be started in 1967 for completion in 1969.

Nathanael V. Davis, president of Aluminium Ltd., said the Australian subsidiary has reached an agreement with the New South Wales electricity commission for a long-term supply of power sufficient to support an initial planned smelting capacity of 30,000 to 40,000 tons of primary aluminum a year.

The government, he added, will sell power from its large thermal power stations which are under construction near the Newcastle coalfields in New South Wales.

The new smelter will be owned and operated by Australian Aluminium Co. and will be built in the Newcastle area about 100 miles from the larger of its three fabricating plants.

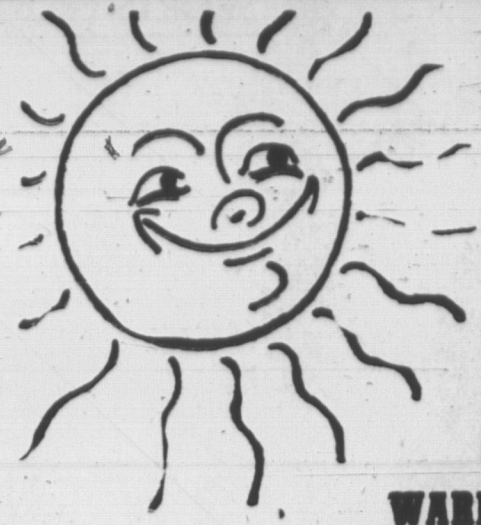

**AUCTION FOR ADOPTIONS**

HAMILTON (CP) — A huge Hereford steer given to Hamilton Tiger-Cats after Saturday's Grey Cup game will be auctioned to provide the beginnings of a new players' fund for the adoption of a child in some underprivileged country. The announcement was made Monday by John Barrow, voted the outstanding player in the Canadian Football League's East-West final. Barrow said the Tiger-Cat club will match the auction price and each year the players will make a contribution to the fund.
