LORNE HIGHLAND WHISKY!
AN ANALYTICAL SANITARY INSTITUTION
54, Holborn-viaduct, E. C., London, Aug. 8, '79,
REPORT ON THE LORNE HIGHLAND WHISKY:
"We have visited the bottling stores of
Greenleaf Brothers, and have selected
from the vats, samples of their Lorne
Highland Whisky, and have subjected
them to careful examination and analysis.
The samples were very fine, mellow,
and of pleasant flavor, and possessed all
the characteristics of pure and well-
matured Scotch Whisky of the first
quality."

For Sale.

THE pleasant residence of Dr. McIntosh,
T'ownal, Private offers made until 15th
June. If not then disposed of, will be sold to
the highest bidder. Apply to Dr. McIntosh
at his residence.

HAVILL'S LUNG HEALER—a good, simple
remedy for a cough, some cold, or
any of the symptoms of
the lungs.

The Markets.

OATS.

THE most recent advices from Great
Britain report a quiet market for oats.
This we learn is owing to the bright pros-
pects of a good crop of all kinds of cereals
in Great Britain and on the Continent.
Quotations at present are: 19s. 3d. per
quarter of 304 lbs. for good ports in the
United Kingdom, and 19s. 7½d. for ports in
France. These are only for shipments
during the present month, as it is expected
that not more than 19s. for England, and
19s. 3d. for France will be given for ship-
ments during June. However, there is a
prospect of a good Provincial market for
oats. The quotations in Montreal and
Quebec at present are 42½ cents per
bushel. In these cities large quantities are
being bought for shipment to the United
States, where the handsome figure of sixty
cents per bushel can be obtained. If the
demand for the Upper Provinces continues,
the oat market at Halifax, St. John and
other Maritime cities will become brisk,
and fair prices will, no doubt be paid for
our surplus oats.

POTATOES.

The United States' market for potatoes
is improving, and the demand in Boston,
New York and Baltimore is fair. Prices
range high, but unfortunately there is but a
small quantity to send from this Province.
Quotations in New York are from \$3 20 to
\$3 25 per barrel, and Boston 80 cents to
\$1 per barrel. Potatoes in this city sell at
from 40 to 43 cents per bushel, as regards
quality.

BUTTER.

In Halifax a good demand exists for
butter at 22 cents per pound. But the
article sent from this Province is so inferior
that it would not, we learn, bring that
price. A dealer informs us that a large
quantity recently inspected by him "smells
to heaven," and is, therefore, unfit for use.
It is a pity our farmers do not give more
attention to this profitable branch of in-
dustry. Good markets are closed, and
thousands of dollars are annually lost, for
want of proper care in packing butter.

EGGS.

A fair demand exists for eggs in Boston,
where 17 cents and 18 cents per dozen are
obtained. Large quantities are being
brought into the city for export. The price
is from 10 to 13 cents.

WHEAT.

Flour in Montreal is cheaper than it
has been for some time. The quotations
are:
Superior Extra.....\$6 30 to \$6 40
Extra Superfine..... 6 20 to 6 25
Fancy..... 0 00 to 0 00
Spring Extra..... 6 10 to 6 15
Superfine..... 5 60 to 5 75
Canada Strong Bakers..... 6 50 to 6 75
American Strong Bakers..... 7 50 to 8 00
Fine..... 5 00 to 0 00

Flour in Charlottetown sells at from \$7.00
to \$7.50 per barrel.

PORK AND LARD.

The Montreal Gazette of the 24th, in its
report, says:—In sympathy with the firm-
ness of Western markets, hog products in
Montreal are held with considerable
strength, and recent advances have been
well maintained. Canada short cut mess
pork has been sold as high as \$23 in small
lots to the city trade, and Western mess at
\$22, larger lots, of course, being shaded.
Extra prime is firm at \$15.50 to \$15.75, in
bond, and prime mess at \$19 to \$19.25, in
bond, latest sales being reported at within
that range. Lard was steady with an up-
ward tendency in prices, the sale being
reported of 500 casks of Canadian at 14½,
150 casks Fairbank's at 15c. The sale is
reported of 200 pieces uncovered hams at
13½c.

LIVE STOCK.

A Liverpool cablegram to the *Drovers
Journal*, received on Tuesday last, says:
"With still heavier supplies from America
the cattle market has ruled weak and slow,
and former prices are barely maintained on
the best offerings. Home-fed cattle are
also arriving in fair numbers.
Best home-fed sheep have only been in
moderate supply, and prices for the choicest
have advanced a trifle, but the receipts
from America are large and values are
rather weak."
Quotations:—

CATTLE. Cents per lb.
Finest steers..... 17½
Good to choice..... 16
Common to medium..... 15
Inferior and bulls..... 12 to 14

SHEEP.
Best long woolled..... 21
Seconds..... 18 to 20
Merinos..... 17½ to 19
Inferior and rams..... 15 to 16½
[These prices are for estimated dead weights;
offal is not reckoned.]

Of all the theatres in the country, says
the *New York Dramatic News*, the Peo-
ple's Theatre, now Building in St. Louis,
Mo., will have one of the best appointed
ages; in fact none will surpass it in
finish and completeness. This is being
conducted by Mr. H. C. Raymond, at
present in St. Louis, and his interest in
the work has been demonstrated by his
devoting labor to night and day in order
to insure its completion in time for the opening.
Mr. Raymond was much exposed to
night damp, naturally incidental in the
erection of an enormous new building,
such as the People's, and the result was
the contraction of a severe case of rheuma-
tism in the left leg. A single application
of St. Jacobs Oil brought relief, and in a
very short time the pain disappeared en-
tirely. Mr. Raymond keeps a supply con-
venient in case of a recurrence of a similar
trouble.

HAVILL'S LUNG HEALER—a good, simple
remedy for a cough, some cold, or
any of the symptoms of
the lungs.

CORRESPONDENCE.

We do not hold ourselves responsible for the
opinions or statements of our correspondents.

To the Editor of the Examiner.

SIR,—Henry Beer, Esq., and his friends,
appear to think it very wrong in Mr. Fer-
guson to solicit his (Mr. Beer's) supporters,
for their second vote. If Mr. Beer had
any regard for consistency he would never
open his month about anything of the kind.
At every election which he has run, he has
not simply canvassed, but coaxed, his
opponents to split with him. He has never
said much about his colleague; his main
subject always being to get in himself.
During the late election I met him in Mr.
Owen Connolly's Store, Charlottetown, and
he asked me to split my vote with him. He
said nothing to me about McDonald. Mr.
Beer has used every man who has run elec-
tions with him simply as a dupe. He has
played that game once too often. It will
not work again. I am,
Yours, etc.,
PETER TRAINOR.
Lot 35, May 16, 1882.

Telegraphy Revolutionized.

A special despatch from Canton, Ohio,
says that Mr. S. V. Essick, of Alliance, in
this county, has invented and patented an
instrument which bids fair to revolutionize
telegraphy. The invention consists of
an automatic telegraphic transmitter,
which in its appearance and operation re-
sembles the modern type-writer. The
Morse transmitter, now in general use, as
is generally known, requires one impulse
of the finger and hand on the single key of
the instrument for each dot and dash of
the "Morse alphabet," and eighty-two
impulses are required for the representa-
tion or "making" of the twenty-six letters
of the alphabet. The new transmitter
requires, like the type writer, but one
impulse for each letter of the alphabet.
The message may be "taken" by sound or
paper when transmitted by the new in-
strument, although the operator can send so
fast though not at the maximum speed of
the instrument, that the ear cannot dis-
criminate between the sound, and taking
by sound is impossible because of rapidity
of succession of the alphabetic sound. To
remedy this, or rather profit by this speed
in transmission, a "receiver" has been in-
vented and patented by the same gentle-
man, which takes the message at the desti-
nation and writes it out in type-writer style.
The invention has been tested on the
wires of the Pittsburg, Fort Wayne, and
Chicago Railroad, and it is expected from
the success of the transmitter and receiver
will do the work of three with the old style
in present use, while the liability of error
in transmission is very much lessened.

Value of Farms.

WONDERFUL INCREASE IN TWENTY YEARS.

The following summary shows the extra-
ordinary growth in the valuation of the
farms of the United States, in so brief a
period as only twenty years:—

1860—Census total valuation, \$3,271,575,426
1870—Census total valuation, 2,282,838,861
1880—Census total valuation, 10,197,161,950

It is to be noted, that 1870 was a time
of great inflation in the estimated valuation
of all land property, under a depreciated
paper currency, and at an era of high
speculation; while in 1880, after a long
period of great depression, real estate had
hardly begun to feel the large improve-
ment in the money value of almost every-
thing. Probably a fairer estimate of the gold
valuation of the farms would be like this:

1860.....\$ 3,271,575,426
1870..... 6,000,000,000
1880..... 10,197,161,950
1882..... over 12,000,000,000

Indeed, if we allow for the very large
breadth of wild land changed into farms
during two years past, and the rapid
increase in value per acre in the leading
agricultural States like Illinois, Iowa, etc.,
the present valuation will hardly fall short
of Fifteen Billion Dollars, and the increase
in round billions, in 22 years would per-
haps range thus: 1860, Three; in 1870, Six
to Seven; in 1880, Ten; in 1882, Fourteen.
—*American Agriculturist for June.*

An English Bit of Criticism.

American poetry has a pathetic ring about
it that nothing in modern English can
equal. Even in their (un)temperate mo-
ments our cousins across the Atlantic
excel. A short time ago a gentleman well
known in New York circles had to leave
home and sail the stormy seas to Europe.
His friends gave him a supper and a fare-
well address. The following is the first
verse:—

The Gallia sails, 'tis well!
The cheers loud swell, yet dwell
Upon the faces of the sad ones left,
A palor as if hell
With all its terrors, fell,
Must us compel
To drop the parting tear to one voyager
Who loved us well.

It is not surprising, under the circumstan-
ces, that the guests of the farewell supper
shed tears, or that they shook each
other by the hand. The "palor as if
hell" fell upon them with a thud, and they
went home in groups, clinging at each lamp-
post on the way. —*London Paper.*

A WAY WITH STUMPS—A Dakota cor-
respondent writes:—In the autumn bore a
two-inch hole, four or five inches deep,
in the centre of the top of the stump, put in
from one and a half to two ounces of sal-
petre (nitrate of potash), fill the hole
with water, and plug tightly. In the en-
suing spring remove the plug and pour in
from one and a half to two gills of kerosene
oil, and ignite. The stump will smolder
away without blazing, to the very extremity
of the roots, leaving nothing but ashes. This
amount is suited to a stump of from two
and a half to three feet in diameter.
