Britain Approves Plans For Giant Economic Union

LONDON (AP) — Britain officially approved Thursday plans to mold Western Europe into a giant economic unit capable of competing with the United States and Russia.

The aim is to wipe out tariff barriers among 17 West European countries and join 250,000,000 consumers into a free-trade area and common market for their manufactured goods.

The government of Prime Minister Harold Macmillan announced its approval of the scheme in a white paper and proposed that the council of ministers of the Organization for European Economic Cooperation establish the machinery to negotiate detailed arrangements.

The council meets in Paris next week with Chancellor of the Exchequer Peter Thorneycroft presiding.

TECHNICALLY POSSIBLE

An OEEC study group already has announced that technically it would be possible to set up such a free-trade area in association with the European common market now nearing formation by six West European countries.

France, Western Germany, Italy, Belgium, Holland and Luxembourg are putting the finishing touches to their common market treaty. Over a period of years it would blot out tariffs among themselves and set up common tariff rules for goods entering the area from outside.

The bigger free trade idea, which Macmillan originally favored when he was chancellor of the Exhcequer, "would take the common market as its centre piece."

ELIGIBLE TO JOIN

In addition to the common-market countries, the other 11 OEEC countries would be eligible to join. They are Sweden, Norway, Denmark, Portugal, Iceland, Greece, Turkey, Ireland, Austria, Switzerland and Britain.

One important difference in the two schemes is that each member of the free trade area would retain its individual tariffs against the outside world, whereas common market members would establish a standardized tariff against non-members.

The government report also said Britain must be free to continue her preferential arrangements for imports of foodstuffs from Commonwealth countries.

Britain in the past has balked at joining a supra-national organization, such as the free trade group she now proposes. One reason was that it might loosen her ties with her Commonwealth and colonies.

Souris B. of T. Annual Meeting

The annual meeting of the Souris Board of Trade was held in the Town Hall last night. The president, R.A. Leard, called the meeting to order. Minutes of the previous meeting and correspondence from then to the present meeting were read.

Mr. Paul Gallant then addressed the meeting and gave an account of APEC, their aims, etc. He also reported on meetings he attended at Fredericton, Bar Harbour, Saint John and Charlottetown. He urged the Souris Board to support the APEC movement.

A discussion on a number of topics was then entered into and resolutins passed willl be forwarded to those concerned.

Mr. R.A. Leard, the retiring president gave a resume of the year's activities of the Board. A resolution was passed for a letter of thanks to be forwarded to the Dept. of Highways for the placing of a bulldozer in the area to assist the two snowplows in putting all the roads in the excellent condition they are in.

Dr. A.A. MacDonald spoke, expressing his thanks to Mr. Gallant for his talk on APEC and heartily endorsed the ideas put forth by them.

The officers for the coming year are: Wilfred C. Wright, president; Andy Bouchard, vice-president; F. Fudge, sec'y treasurer.

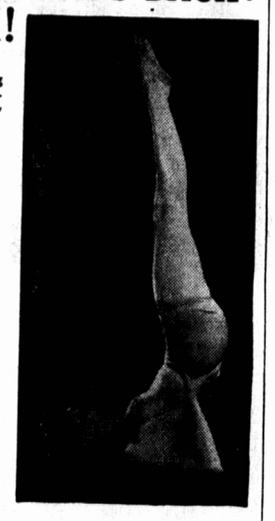
Packers Defeat Seven Mile Road

Canada Packers defeated Seven Mile Road by a score of 6-3 in an Intermediate "C" Hockey League game played at Montague last night.

The star for Seven Mile Road was goalie Melvin MacGuigan, who made many spectacular saves and was responsible for keeping out numerous pucks earmarked as goals. Pineau starred for Canada Packers with a brace, and Gillis, Stanley, MacDougall and Judson each came through with a single.

J. Smallwood, T. Smallwood, and B. Clair were the marksmen for Seven Mile Road with a single each.

WATER OFF A DUCK'S BACK? WHAT A DUCK!



Toronto —This young lady is testing out D3S the recently announced capsule that has the remarkable ability to make water penetrate where it has never penetrated before.

While D3S Capsules are sold solely for the purpose of relieving constipation by softening colonic waste, making for pleasant regular elimination, its amazing action was demonstrated on ducks. When a duck's feathers come in contact with this harmless substance, the bird becomes waterlogged and sinks.

While the young lady did not sink, a coating of D3S gave her skin a distinctly slippery surface that seemed to make swimming effortless.

People who have been forced to use laxatives for years find that D3S Capsules make for regularity without any discomfort.

Local druggists report brisk sales for D3S Capsules among customers troubled with constipation.
