INTERESTING NEWS NOTES SELECTED FOR THE EXAMINER.

J. Geoffrey Smith, a well-known Halifax druggist, is dead.

Distant pastures look green. Out of a total of five hundred Canadians who emigrated to Brazil, one hundred died there from malarial fever.

Reports from many towns in southwestern Michigan say that an earthquake shock was felt for several seconds on Sunday night. At Hol and the front of a brick building fell into the street.

In Paris the subject of painless execution is being discussed again, and M. Bertmot, the distinguished chemist, is credited with the opinion that the lethal chamber, using ordinary coal gas, is a suitable method.

Old Trinity Church, New York, began on Sunday the celebration of the two hundredth anniversary of the foundation of the Trinity Protestant Episcopal Church. The celebration will continue throughout the week. The first church edifice was completed in 1698.

Edward Gort, sergeant of the Fourth Light Dragoons and Ninth Lancers, died at Petrolia, Ont., lately. He was senior bugler boy in the Crimean War, and sounded the charge of the Light Brigade at Balaklava.

A general strike, involving about 20,000 mechanics, members of the building trades in New York, is daily expected as a result of the trouble between the marble industry employers' association and the associations of marble workers.

Nowadays when women are just venturing to ride horseback astride it is interesting to know that Queen Ann, consort of Richard II. of England, was the first woman to ride a side saddle, previous to that women riding as did the men.

Addington Park, at Croydon, a country seat of the Archbishop of Canterbury, is to be sold, as the cost of maintaining it is very great. The manor is burdened by the feudal service of presenting a mess of pottage to the King at his coronation.

The King of Italy has conferred upon Hon. William Potter, Minister to Italy under President Harrison, the order of Sante Maurizio and Lazzaro. Mr. Potter was minister to Italy before and at the time of the settlement of the New Orleans affair.

The names of the new city government at St. Louis sound like a reichstag roll call. Mr. Ziegenhein is Mayor, and among the other successful candidates for municipal office are Messrs. Besch, Weneker, Rein-stedler, Meier, Gast, Gaus, Kratz, Thuner, and so forth.

A cable says "the French language is now finally forbidden to be used in Alsace Lorraine in public speeches, and several meetings have been dissolved on that account. The matter will be raised in the German Reichstag, it being claimed that the prohibition is illegal."

One night last week some religious partisans in Jackson county, Ala., carried into the woods, stripped and severely whipped two Mormon elders. The governor has promised to protect them, and has instructed the sheriff of the county to make them his special charge.

There is a movement on foot in Melbourne, Australia, to send 20,000 sheep and 5,000 bullocks to England in connection with the dinner which the Princess of Wales is promoting for the poor of the slums of London upon the occasion of the celebration of the Queen's diamond jubilee, June 22.

England has several grand old women who were born before Victoria, and carry their years well. Mrs. Gladstone is six months older than the Queen, the Baroness Burdett Coutts is five years older, and Lady Louisa Tighe, who was present at the ball on the eve of Waterloo, and is still hale and lively, was a girl of 15 when Victoria was born.

Lady Meredith, wife of Chief Justice Sir Wm. Meredith, of Toronto, met with a serious accident riding a bicycle the other day. She learned to ride a wheel last summer and became devoted to the amusement, frequently making her afternoon calls by means of a bicycle. She was run into by another bicyclist thrown down and seriously injured.

Mr. Justice Robertson has given judgment in the action brought by Mrs. Wallace, of St. Catharines, a widow, against the Toronto Street Railway Company for five thousand dollars damages for injuries. In October of last year Mrs. Wallace fell off a car at the corner of Queen and Peter streets, in Toronto. In alighting the car started before she had stepped off and she was thrown violently to the ground, receiving internal injuries. Mr. Justice Robertson gave judgment for two thousand dollars damages.

According to present arrangements, there is to be no Anglo Egyptian advance up the Nile this year. In view of the complicated state of affairs in the Levant, Lord Salisbury does not desire to re-open just now the diplomatic problem in connection with the conquest of the Soudan. Nor do the British War Departments and the admiralty wish to have fresh responsibilities thrust upon them at the present moment in connection with Egypt. England seems to consider that she has her hands full enough already and that it will be impolitic to look up any more men in Egypt for the nonce.

Travel in Europe is expected to fall off this summer on account of the general advance of first class cabin fares from \$85 to \$100, which is now the maximum rate. No reduction will be made to tourists-agents for parties less than twenty-five. Some of the steamship companies expect a reduction in the number of first-class passengers of 20 or 30 per cent., but the crack ships were overcrowded last year. The special attractions on the other side this season are the Queen's Jubilee, the Bairuth music festival, the Stockholm exposition and the international medical congress at Moscow in August.

LOSS OF THE SAMARIA.

The Captain and Family Were Natives of Prince Edward Island. (Vancouver World.)

The hope against hope of those in Astoria interested in the safety of the long overdue British bark Samaria has vanished, and the fate of the vessel is now positively known. The wreckage which lies strewn along North beach tells the tale. There may be seen the greater portion of the deck work of the Samaria. A large quantity of wreckage washed ashore and several pieces bear the name of the unfortunate vessel. The timbers are broken and show that the bark foundered in a heavy gale. There is not the slightest chance for the safety of those on board. One of the Samaria's lifeboats, her sides broken in by the seas, drifted upon the beach. The boat was positively identified by the letters "Samar" on the demolished bow. At the mouth of the Nehalem river, nearly the whole of a ship's cabin drifted ashore, and while there was nothing to show from whence it came, it is probably part of the ill-fated coal ship. It is the general belief of shipping men that the vessel was lost north of Flattery and that she went down at sea. If the crew took to the boats there is not the slightest chance of any reaching shore alive, as the demolished boat, which now lies on the beach, was strongly constructed. The loss of the Samaria has a parallel in the mysterious disappearance of the Cadzow Forest, and it is likely both vessels went to the bottom about the same place.

The Samaria, it will be remembered, was commanded by Captain McKee, of Point Prim.

MORE SUMMONSES.—Three Scott Act summonses were served yesterday afternoon. James Steele, Angus Desroche and Sarah Jane Higgins were the recipients.

COMING TO MCGILL.—It is announced that about two dozen young doctors from New York, Vermont, Pennsylvania and even Alabama have announced their intention of taking part in the post graduate course instituted at McGill University.

ON DUTY.—That as a heavy additional protection has lately been afforded the tobacco grower industry, some of our Councillors contemplate having Bedford Square sown with tobacco as an experiment to test the value of the Island grown leaf.

FROM HALIFAX.—The steamer Fastnet arrived from Halifax this morning about seven o'clock bringing a full freight. She will leave on return this evening about six o'clock. Captain Bethel is still in command of the Fastnet, with Mr. Suttis as first officer. Mr. Wood is purser this season.

GREATER NEW YORK.—The bill for the creation of New York, Brooklyn, Long Island city, and other outlying towns into a single municipality has been passed by the New York legislature and signed by the governor. The new city will have about 3,000,000 inhabitants, and its actual existence will commence next year.

POLICE COURT.—This forenoon Martin Power, charged with receiving stolen goods, was remanded until Monday next. Samuel Williams, 15 years of age, was fined \$1 or 10 days imprisonment for the larceny of two or three lobsters from a cart on Market Square. Williams was fined under the provisions of the Juvenile Offenders Act.

SONS OF ENGLAND.—At the conclusion of the meeting of Lodge Eton last evening the members repaired to the residence of the newly appointed District Deputy, J. D. Laphorne, where a sumptuous repast awaited them. After partaking of the good things provided the evening was passed very pleasantly with singing and social amusements. The proceedings closed with cheers for the host and hostess.

WHAT MIGHT HAVE BEEN.—A young woman found a parcel last Tuesday on her way home and took it with her, says the Halifax Chronicle. When she opened it she found it contained some material of no visible use to her. She was going to throw it into the fire and burn it, but decided not to do so, but hand it to the chief of police, from whom the loser might get it. This she did. Today the girl found out that the harmless looking stuff she had had an idea of throwing into the fire was very powerful dynamite and there was enough in the parcel to blow a block of buildings.

PERSONAL.

Miss Laura Young, B. A., returned to Charlottetown from Montreal yesterday.

Mr. William Moran returned last evening from a business trip to Moncton.

Crossley and Hunter the evangelists, opened fire in Kentville last Sunday morning. They spoke to crowded houses.

Miss Wisdom, of Charlottetown, was registered at the Hotel American, Moncton, on Wednesday evening. She was on her way to Montreal.

Mr. W. F. Mitchell, who comes here from Fredericton to take the agency of the Merchants Bank of Halifax, is registered at the Hotel Davies.

Mrs. (Dr.) McPhail, of Summerside, and Miss Stewart, daughter of Mr. Ewen Stewart, Charlottetown, returned home yesterday. They passed the winter in Edinburgh.

We regret to learn from the Agriculturist that Mr. John T. Weeks, of Alberton, is suffering from an attack of paralysis, and trust that his recovery may be rapid and complete.

We regret to learn that Dr. Secord is very ill, in fact his condition is critical, from something similar to blood poisoning or in pulation, starting from a pimple on his face. His head and face are terribly swollen.—Summerside Agriculturist.

The Agriculturist reports that Mr. P. B. Taylor, of the Postal Savings Department, Ottawa, and Mr. John T. Lathgow, of the Department of Finance, Halifax, are in Summerside transferring the Summerside Branch of the Savings Bank to the Post Office, under which department it will be conducted in future.

C. C. Gardiner, Esq., returned to Charlottetown last evening, after spending the winter in California and Mexico. He came home via Oregon and British Columbia, and looks exceedingly well after his trip. Mr. Gardiner saw Mr. William Dodd in Oakland. He says Mr. Dodd looks well, and may be expected home very soon. In Portland, Ore., he met Mr. Finley McNeill, formerly of Summerside. Mr. Gardiner reports times very dull in the Western States, but predicts a bright future for the Canadian Northwest. Speaking about Rossland and the mining boom there, Mr. Gardiner said the place was overcrowded and there was not work for half the people. The Yukon country, where placer mining is conducted, he looks upon as an excellent field for the poor man, but there is considerable difficulty in getting supplies there.

Millinery.—Miss Wade wishes to inform her customers that she has resumed work for the season at the store of Mr. T. J. Harris (London House) where she will execute all orders with neatness and dispatch and in the latest styles.
