CURRENCIES

MONTREAL (CP)—The U.S. dollar Thursday closed at a discount of 3 1/2 per cent in terms of Canadian funds, up 1/4. Pound sterling \$2.67 1/2, up 7/16.

TORONTO

TORONTO (CP)—The stock market, led by base metals, Thursday carried its rally through a second straight session.

Base metals gained nearly four points on their index, the best since Feb. 13. Leaders of the morning list were copper issues following the announcement that a leading United States custom smelter had raised the price of the red metal one-half cent a pound.

Market analysts said the buying support the market received Thursday and late Wednesday was encouraging but said that many traders were still fearful that the recovery is only of a technical nature and might not be the long-awaited rally.

Copper gains ranged to 90 cents with Opemiska, the leader, at 52 1/2. Senior base metals had gains ranging to nearly two point while low-priced mines and western oils moved ahead on a broad front and in a 30-cent range.

Index gains: industrials 2.56 to 438.56; golds 38.1 to 77.37; base metals 3.90 to 371.35; western oils 2.06 to 107.78.

He told a service club luncheon here Western Canada will use the Lake Superior port of Duluth, Minn., instead of the Lakehead if facilities at the Canadian port are not made adequate.

The West was particularly interested in the seaway because for years its farmers have had to pay the cost of transporting grains long distances to seaports. With completion of the seaway, western farmers would be on a more equitable footing with grain growers of Argentina and Australia.

Calls Courier Directive "Club"

OTTAWA (CP)—George McIlraith, veteran Liberal member of the Commons for Ontario West, Wednesday described a directive to rural mail carriers from the new Progressive Conservative government as "a piece of impertinence that should not be tolerated."

The directive, issued a month ago by authority of Postmaster-General Hamilton, warned Canada's 12,000 rural mail carriers they might lose their contracts with the government for political activities.

Mr. McIlraith described the directive "a club" over the heads of the independent contractors and a deprivation of their ordinary civil rights.

Carried to its logical conclusion he said, the theory behind the directive eventually could lead to government directives refraining any person with a government contract from political activity.

A rural mail carrier, he said, should be as free as any other Canadian citizen to join a political association.
