SUNNYSIDE,

LATEST NEWS BY WIRE AND MAIL.

MONTRÉAL, Aug. 9.—The board of direc-
tors of the Canadian Pacific railway com-
pany today declared a dividend of two per
cent on the preferred and one and a half
per cent on the common stock for the half
year ending June 30th last, payable on the
30th last, payable on the 1st of October.

HALIFAX, Aug. 9.—A special from
Ottawa says that the Dominion Govern-
ment has reached several important
decisions in regard to the Yukon country
and the working of gold fields there. It
has been decided to appoint an adminis-
trator for the district, who will have entire
charge of all the Canadian officials there
and be the chief executive officer of the
government. Major Walsh, a former
commander of the Northwest mounted
police, is to be appointed to the position.
The party of mounted police to leave
Manitoba next week for the gold country
has been increased from twenty to thirty-
five. They will take with them two max-
im guns. The mining regions order has
been amended in an important particular.
At present a miner is at liberty to stake
out a claim of 500 feet running along
with stream and back to the bank. This
has been reduced to 100 feet, and the new
regulation will go into force immediately.
A court for the administration of civil
and criminal justice for the whole district
has also been decided upon. Justice
McGuire of Prince Albert is to preside
over the court.

ST. PETERSBURG, Aug. 9.—Upon the
occasion yesterday of the presentation by
the municipal authorities of St Petersburg
of bread and salt to the Emperor and Em-
press of Germany, the chief burgomaster
expressed the joy of the inhabitants at
the visit of their majesties to Russia, and
heartily welcomed them to the capital.
The Emperor William in reply, thanked
the municipality for the kind reception
accorded him and the Empress, expressing
the great pleasure which he derived at
visiting his "august and beloved friend
the Czar." Slices of bread were presented
to their majesties on a silver dish and the
salt was presented in a silver salt cellar.
Both pieces of plate were richly ornamented
in Russian style, and engraved with
joint arms of St. Petersburg and Germany.
On the rim of the bread dish is the follow-
ing inscription: "To their majesties, the
Emperor and Empress of Germany."

LONDON, Aug. 9.—If report speaks true,
the British public is not jumping at the
Klondike bait with the eagerness expected
by the company promoters. No one doubts
the abundant richness of the district in
gold, but the newspapers counsel caution,
owing to the great difficulties of transport,
etc. Sir Louis Davies went further. At
Tenby on Saturday he actually warned
investors not to place their money in
schemes for the development of the Klon-
dike gold fields. The official setback is
resented in some city quarters. As yet
six Klondike companies have been adver-
tised with a total capital of £1,000,000,
stirling. Most of them are regarded as
very speculative. The opinion in general
in the city is that if half the Klondike tales
prove true, all British Columbia is on the
eve of great expansion.

NEWS NOTES.

Manitoba crop reports indicate a boun-
teous harvest.

Work on the Crow's Nest Pass Rail-
way is progressing quietly, and already
the rails are laid a portion of the distance.

The Toronto Mail and Empire, in a crop
review which takes account of the recent
damage by rain, is yet able to say that of
both wheat and hay Ontario has evidently
an unusually fine crop.

A man who formerly conducted a store
in Toronto was lately engaged to take
charge of a department in a large store in
Buffalo. He had just settled down to
work when Mr. DeBarry, the United
States deporter, got on his trail and sent
him back to Toronto.

The Mounted Police destined for service
in the Klondike country, are going up, it
appears, by the sea route. That should
be something of a warning for those who
propose to take the Mackenzie river line.
The police know both routes, and natur-
ally take the easiest and most expeditious.

A Quebec buyer who last year paid P.
E. Island farmers \$28,000 for sheep and
lamb and live fowls, for shipment to the
American market, says he will be unable
to carry on the business with profit in face
of the new U. S. tariff unless there is an
offset in cheaper rates of transportation.

There is an unpleasant prospect that
the British postal telegraph operators
will strike. They are employees of the
Government, and Government employes
are about the last class in the world that
people would expect to quit their places.
Perhaps the fact that the telegraphers
have to work for their pay accounts for
their peculiar action.

An extraordinary number of suicides is
reported from Paris. Beginning with the
first week in July, when four dressmakers
took their lives together, there has been
a succession of self-murders that has caused
general comment. Women and men
are the victims, or the culprits, and have
given the gay world a new and gruesome
topic of conversation. Paris is, like itself
alone, in serious as in lighter things.

The contract for building the East Rich-
elieu Valley Railway, running from the
town of Iberville to the Lacolle bridge, to
connect there with the Canadian Atlantic
Railway, a distance of 23 miles, has been
awarded to Mr. J. L. Comte, of Montreal.
The work, which has already been entered
upon, will be terminated this autumn.
There are no bridges of importance on the
line, which has been subsidized by both
the Quebec and Ottawa Government to the
extent of \$8500 per mile. Mr. Philip Roy
advocate, of Montreal, is the president of
the company.
