PERT PERSONALS.

The young son of the Duke of Marlborough may also attain manhood and a desire to wed an American heiress.—New York Journal.

Dr. Mary Walker is writing her biography, and the public may yet learn the name of the man who ought to own the trousers that she is wearing.—Cleveland Leader.

The Emperor William has temporarily abandoned his literary, musical and pictorial pursuits and is reaching for the altar dinner laurels of Chauncey Depew.—Washington Star.

Count Tolstoy keeps two colored pencils by his side when he reads the Bible. The passages he can understand he marks blue, the rest red. He should have a third color for the passages he misunderstands.—Springfield (Mass.) Republican.

Now there's Ted Roosevelt at the top of another heap. He's great wherever you put him. The government has not been blessed with the services of so great a naval expert since the venerable Dick Thompson left his houseboat on the turbid Wash to take charge of Uncle Sam's navy.—Minneapolis Times.

WOMEN'S WAYS

One trouble with the new woman is that she doesn't can much fruit.—Cleveland Leader.

There are more than 200 ordained women preachers in the United States, not including the numerous colored preachers of that sex. They are all said to be good talkers.—Boston Globe.

A lady who spent some time in the Klondike says that some days were so warm that she found a shirt waist sufficient protection. Let us blushing hope she was misquoted.—Denver Post.

Ottawa (Kan.) girls have organized a "Sappho club." Some of these days one of the girls will read "Sappho," and then there will be a sudden rechristening of their organization.—Omaha World-Herald.

There is no sense in trying to dodge any sort of trouble around a tree. The only way is to come squarely out and face the difficulty and fight it. If you are sick or half sick, the best course is not to neglect or ignore it, or pretend that it doesn't exist, but to find the proper remedy and use it.

A bilious, dyspeptic condition of the system not only makes life miserable, but it is sure to lead to something worse, unless promptly taken in hand and corrected. It is foolish to attempt to dodge such troubles by any mere temporary expedient. The only sensible way is to get rid of them for good and all by a thoroughly rational, scientific medicine like Dr. Pierce's Golden Medical Discovery.

It cures all disordered, debilitated conditions by its direct action upon the liver and digestive organs; it gives them power to make fresh, healthy blood free from bilious impurities; it drives all disease-germs out of the circulation; it creates solid, muscular flesh and constitutional power.

Lung and throat affections, which are often simply the result of impaired nutrition, are reached and cured by this wonderful "Discovery" in cases where cod liver oil emulsions are useless, because the "Discovery" is readily assimilated by delicate stomachs. It is far superior to malt extracts, because its beneficial effects are permanent.

"Dr. Pierce, I am one of your most grateful patients," writes Mrs. Annie M. Norman, of Eggenburg, Wayne Co., Pa. "I have taken 'Golden Medical Discovery,' also 'Favorite Prescription' and 'Pellets' with wonderful results. I am, as many of my friends tell me, like the dead brought to life. The doctors said I had consumption and death was only a matter of time. That was six years ago. I concluded to try your medicine. I continued until I had taken nine bottles of 'Discovery' and several bottles of 'Pellets.' I got well and have done a great deal of hard work since."

When the liver and bowels don't work, the body and brain won't. Dr. Pierce's Pleasant Pellets are a sure, safe, speedy and permanent cure for constipation, and a torpid liver. One "Pellet" is a gentle laxative and two a mild cathartic.

Glimpses of the Russian Censorship.

Some interesting glimpses of the working of the Russian censorship, which was maintained even against French journalists during President Faure's visit, are given in a letter from the special correspondent of the London News in St. Petersburg:

"Calling at a news agency after the review I learned that the censor had gone to dine in the country and would not be back before 8 o'clock, up to which hour no telegrams could be passed. This was tantamount to cutting off foreign correspondents from telegraphic communication with the rest of the world for the night. The outlook seemed hopeless when a high Russian official, who has the privilege of passing telegrams, kindly consented to look over mine. It was a great favor. The improvised censor objected, however, to a story about M. Faure's overcoat, and accordingly I had to suppress it. He was very sympathetic. 'I know,' he said, 'you must be metaphorically gnawing your teeth, but I should get into trouble for passing your telegram if there were anything objectionable in it.' One of my French colleagues wired that the Grand Duke Alexis waited half an hour at the landing stage. He was pulled up by the censor with the remark, 'A Russian grand duke waits for nobody.' A friend of mine was about to write that the czarina had grown slightly stouter since she was in Paris, but refrained. I stated the fact, and it was allowed to pass."

For Stamp Collectors.

Afghanistan stamps are "canceled" by having a piece torn out of each stamp. Incidentally a piece of the envelope or letter is torn out at the same time. From a collector's point of view this is a barbarous proceeding, and we hope that the new idea of canceling stamps by branding them with a red-hot platinum wire will not be adopted. Yet this has been suggested in some of the German papers. If it is ever adopted, we shall have to collect unused stamps only.

A German philatelist classifies collectors as follows: 1. Beginners. 2. Average collectors. 3. Serious collectors (whose albums represent a value of \$10,000). 4. Important collectors (collections worth \$25,000). 5. Prominent collectors (\$50,000). 6. Great collectors (who have spent over \$100,000 on their collections).

The report that the government proposed to change the color of the 2 cent stamp from red to green as a measure of economy brought out a flood of protests. Any intention to use green instead of red could be carried out for a few months only, as all the governments represented at the postal congress will aim to bring about uniformity in color in stamps of different countries of practically the same denomination. Red is the color adopted for stamps of 2 cents (10 centimes, etc.).—Harper's Round Table.

A Valuable Indorsement.

"Isn't the butter rather strong today, Mrs. Small?" asked the star boarder. "It may be, Mr. Hunker," was the landlady's suave reply, "but if it is that fact only establishes its genuineness. Imitation butter never gets strong."—Town Topics.

WOMAN'S DELIGHT.

Black materials are in high vogue. Much of the new elaborate autumn headgear is large in size, the hats tilted well to one side over the ear, the other side rolled high or arched in an upward direction.

Black materials will be greatly favored during the fall and winter seasons, and a special and very elaborate display of elegant black fabrics is made at the various importing houses.

Some very striking colors in prelate, royal and orchid purple appear both in superb satins and brocades, immense tulle and satin plaids, figured moires, plain and fancy wools and in fall and winter millinery.

One decided feature of the Russian blouse is the slight pouching of the fullness front and back. This idea will be carried out in all materials of sufficient body to preclude the effect of a characterless drape.

The exhibit this season of tailor costumes is more than ever attractive and complete. This type of gowning possesses a certain characteristic grace and aplomb wholly its own and to be found in no other style of dress.

The trim, familiar tailor jacket has this season a score of rivals in the form of jaunty little basquines. French guard jackets with military braiding and novel jacket bodices and muscovite shapes, with loose, seamless fronts and fitted backs.

Autumn wraps show a wonderful diversity among the models of short, medium, three quarter and redingote lengths, all equally in vogue and presenting a choice more varied in style than has been exhibited at any one season within recollection.

Odd arrangements of frilling, lace, net, fur braid, velvet, fringes, etc., are very much used on bodices, redingotes and princess dresses fastened at the left side, and a very dressy appearance is imparted to otherwise simple gowns by the addition of those trimmings.—New York Post.

Acute Rheumatism

Pains in the Foot and Limb—A Complete Cure Accomplished by Hood's Sarsaparilla.

"For a number of years I was afflicted with acute rheumatism in my left side and all the way down my limb into my foot. I live five blocks from my work and had to stop and rest several times in going and coming. I could get no relief from my trouble and was on the point of giving up my job when I happened to hear of Hood's Sarsaparilla. I purchased a bottle of this medicine and a vial of Hood's Pills and began taking them. Before I had half finished them I was relieved and it was not long before I was completely cured. I never lose an opportunity to praise Hood's Sarsaparilla, for my cure meant a great deal to me, as I have a family and must always be at my post." WILLIAM HASKETT, yardman, Grand Trunk Railroad depot, Brantford, Ontario.

Hood's Sarsaparilla
Is the best—in fact the One True Blood Purifier. Sold by all druggists. \$1; six for \$5.

Hood's Pills are purely vegetable, carefully prepared. 25 cents.
