

THE SNOWSHOER

You may not catch sight of the fleet-footed snowshoe hare, but you can tell where he's been. Look for the ripped-off twigs and the round droppings he's left behind, and the prints of his broad paws.

LE LIÈVRE

Vous ne verrez probablement pas le lièvre, mais il laisse des signes de son passage. Observez les branchages qu'il a taillés en biseau, ses crotins ronds et les empreintes de ses larges pattes.
