## APPLE SHIPMENT.

It is pleasing to learn that a movement is on foot to obtain a trial shipment of P. E. Island apples for the British markets. Our Fruit Grower's Association have the matter in hand. This is right. Fruit growers, as cheese patrons, must co-operate to succeed. It is hoped that the shipment will be ready for the second trip of the steamship Lake Winnipeg from this port.

## HOW WE ARE HARMING

### OUR CHILDREN.

In view of the recent re-opening of our schools the following remarks of The Ladies' Home Journal are timely and to the point:

"There is no doubt whatever but that we have improved in methods of teaching. Better text-books are in use and there are more intelligent teachers in our schools. But the methods employed are still not of the best. They fall lamentably short of what they should be in some cases; in other instances they are entirely wrong and widely at variance with what is wisest for the children. Take, for instance, the few schools where children are taught to think. They are in the vast majority. Instead, in the vast majority of schools, they are taught to memorize. Many things are given the young to memorize which are absolutely valueless to them. Their little brains are overwhelmed with a pile of useless information rather than trained and expanded with the power to acquire information. It is little wonder that in so many cases the child hates to go to school. Education is made a burden rather than a pleasure. Irritation follows, and the child becomes nervous, and another addition to the long line of nervous people has been made. Modern methods are wrong again in the fact that the majority of children are almost cruelly pushed in their studies. Children nowadays are expected to know at eight years what a few years ago they were not taught until they were twelve. This is one of the most fatal tendencies in our schools. The field of knowledge is represented to be so large that the child is pushed beyond its capacity to cover as large a portion of this vast field as possible. What is the result? Some of our children have a smattering of knowledge, really worse than ignorance. They know nothing well; a lot of things they know imperfectly, or, in reality, not at all. And this smattering of knowledge passes for education."

These are words to be "read, marked, learned and inwardly digested" by our teachers and parents. The harm which is being done children in the States is being done children here. We ought not to blame the School Board and the teachers overmuch. The blame lies largely with the parents. As the journal quoted suggests, parents ought to get closer to the teachers of their children and ought to take a deeper interest in modern educational methods than they do. They ought, above all things, to protest against long and hard home lessons and they ought to insist upon a reduction of the number of studies in the public schools and thorough instruction in all the branches taught. Education does not consist in cramming youthful minds with a smattering knowledge of many things. It does consist in drawing-out and developing the natural powers of the children, enabling children to acquire knowledge for themselves and to think and act rightly in the state of life into which it has pleased God to call them. The mere possession of knowledge will not do this. Knowledge is a good thing; but knowledge is useless unless with it there is imparted the ability to impart it. Parents and teachers ought to bear in mind that children go to school, not for the purpose of passing examinations, not primarily for the purpose of obtaining information about many things; but mainly for the purpose of gaining the ability to exercise the higher faculties of the mind and to do well that which is right and honest.

Mail and Empire: Nothing will so strengthen the position of the monarchs of Europe as the recent diabolical attempts, one successful, to assassinate three of them.

## W. F. M. S.

THIRD SESSION.

The third session of the W. F. M. S. was held yesterday morning. After the usual devotional exercises, the minutes of the two earlier meetings were read and approved. The postponed business of yesterday afternoon was then proceeded with, and the remaining presbyterial reports were then read, all of which were most encouraging. These reports were passed, after which the recording and corresponding secretaries read their reports. This year there are 9 presbyterials, 220 auxiliaries, 24 of which have been formed this year. The total membership is 5,143, to which is to be added the 2,523 members of the mission bands. The report of the secretary of supplies and the auxiliaries were urged to prepare parcels and boxes for the New Hebrides mission.

FOURTH SESSION.

The fourth session of the W. F. M. S. began at 3 p. m. on Wednesday with devotional exercises and the minutes of the last meeting. The report of the committee on credentials showed 80 delegates present. Mrs. Matheson, of Charlottetown presented a short address of welcome to the visiting ladies which was responded to by Miss Stephen, of St. Stephen. The Foreign Secretary's report and that of the publication committee were presented and adopted. Both showed satisfactory progress. Friendly greetings from sister societies by Mrs. Smallwood, Mrs. Johnson and Miss McPhail.

The financial statement from the several Presbyterials is as follows:

Halifax.....	\$1,865.70
Pictou.....	2,307.17
St. John.....	1,489.67
Truro.....	1,544.13
P. E. Island.....	874.66
Wallace.....	823.01
Sydney.....	793.54
Inverness.....	787.10
Miramichi.....	453.93
Separate Auxiliaries.....	139.22
Total.....	\$10,845.43

These reports were adopted and a letter of greeting read from Miss Fairbanks regretting her inability to be present. The meeting then adjourned.

The evening meeting was a public one, at which Rev. Mr. Fullerton of St. James Church presided. A large audience was present. Mr. Fullerton also represented the Foreign Mission Committee and in their name thanked the ladies for the very tangible results of their interest in mission work as shown by the large amount of money raised during the year. Both he and Mrs. Dodge, the President, made touching references to the death of the Rev. Mr. Sutherland, late pastor of the Zion Church. A letter was read which had been written by Dr. Geddie in 1847 on his way out to the New Hebrides which brought vividly before the minds of those present the great hardships which must be endured by those who undertake the noble work of starting a mission field in an uncivilized country. The president, Mrs. Toige, delivered her most eloquent address which she had requested to defer from the afternoon meeting. After a few words from the Rev. Mr. Herdman the collection was taken and the meeting closed with the benediction. The thanks of the society are due to the choir, who kindly rendered their aid in making the meeting pleasant.

18 cases of new goods opening to day at My Store.

Use in place of Cream of Tartar and Soda.

More convenient, Makes the food lighter and more healthful.

## PRESENTATION AND ADDRESS

On the eve of the departure of Miss Jennie Leard from the Mount Tryon School, she was presented by her pupils, with a pair of beautiful and costly vases, accompanied by the following address:

MOUNT TRYON, Sept. 5, '98.  
To Miss J. E. LEARD, teacher.

DEAR TEACHER.—We, the pupils of Mount Tryon School, learn with deep regret, that the tie which has bound us so closely the past two years is about to be severed and this is the last day we will be united; but rest assured, dear teacher, that your memory will ever be fresh in our minds and we hope wherever your lot is cast God's blessing may go with you! As a school we beg you to accept this gift as a small token of the esteem in which you are held by us.

Signed on behalf of the pupils:  
GERTRUDE McEWEN,  
FLORENCE TOOMBS,  
ELIZA McLONIS,  
ROBERT SIMMONS,  
THEODORE WOOD.

### REPLY.

To the pupils of Mt Tryon School.  
DEAR PUPILS.—Deeply as I regret leaving you, you have by this, another act of kindly love, endeared yourselves still more to me. The two years it has been my privilege to spend among you have been two of the brightest in my life and as the years pass, they will indeed form a bright hue in the page of memory. Wishing you each the truly educated in which, when rightly used will make your life a grand success, I remain, dear pupils, ever yours,  
J. E. LEARD.

## LOCAL NOTICES.
