

ARRAIGNED

Bruce G. Reid of Corpus Christi (LEFT) was arraigned before U. S. Commissioner James C. Martin at Corpus Christi, Texas, Tuesday on a charge of possessing about \$200,000 in bogus money found floating in two suitcases in the Trinity River at Dallas Sunday. Escorting Reid is deputy Marshal Hilton Schorre. Secret Service agent Toby Chandler (CENTER) made the arrest at Reid's apartment. Monday. (AP Wirephoto)

CLC Asks Expansion French, English Use

OTTAWA (CP) — The Canadian Labor Congress is asking the federal and provincial governments to expand the use of both French and English in their respective jurisdictions. In a brief being submitted to the royal commission on bilingualism and biculturalism, the 1,200,000-member congress make the following proposals:

1. More ample facilities for the study of the second language, French or English, in primary and secondary schools.

2. "A system of requirements and incentives" in the federal civil service and Crown corporations "so that at least senior officials would be proficient in both languages." In bilingual areas, all grades of civil servants should be reasonably fluent, the brief says.

3. Support for all cultural groups and for closer communications between them by the CBC, the Canada Council and other public institutions.

STUDENTS OFFER BRIEFS

Three briefs were being presented by student groups. The Canadian Union of Students says a long series of breakdowns in communication led to the 1964 split by Quebec university students. Since the three French-language universities of Quebec had formed their own students union, relations between English-French speaking students had improved. The Canadian University Press and La Presse Etudiante Nationale, representing campus newspapers, also contend that their relations have improved since they split up in 1961-62. A group of nine University of Western Ontario students headed by C. D. Crenea calls for constitutional and parliamentary reform to strengthen the rights of the individual and to give Quebec a special status.

Joey Plans Stephenville Base Talks

ST. JOHN'S, Nfld. (CP) — Premier Joseph Smallwood said here he will meet with the people of Stephenville Thursday to discuss the closing of Harmor United States Air Force base, the town's main source of income.

Mr. Smallwood said all members of the Newfoundland cabinet would be invited to attend the meeting.

He did not say, however, what proposals would be brought up or whether any solutions to the town's economic problem have been found. He said his executive assistant, Edward Roberts would "physically examine" the situation and plan the meeting. The provincial command of the Royal Canadian Legion presented a resolution to Premier Smallwood Monday calling on the provincial government to "demand" that the federal government set up a Canadian Army base at the Harmor facilities after the Americans leave by the end of 1966.

Rainy River Pollution Pact Signed

OTTAWA (CP) — The governments of Canada and the United States have announced approval of measures to control pollution in Rainy River on the boundary between northwestern Ontario and Minnesota.

The joint announcement said both countries approved recommendations of the International Joint Commission contained in a Feb. 24, 1965, report on pollution in Rainy River and Lake of the Woods which the river drains.

The commission found the lake to be in satisfactory condition but recommended "adoption of specified water quality objectives as the criteria to be met in satisfactorily maintaining the waters of Rainy River."

The commission recommended that the appropriate authorities require industries and municipalities concerned to initiate construction of pollution abatement facilities. The joint action is in accordance with the Boundary Waters Treaty of 1909 which provides that boundary waters between Canada and the U.S. and waters flowing across the boundary "shall not be polluted on either side to the injury of health or property on the other."
