LATEST NEWS FROM THE STATES.

We are indebted for the following telegrams to our latest papers, received by Saturday night's mails. No one will be surprised that the so called Military Commission at Washington have found the alleged conspirators guilty of complicity in the assassination of the late President. Their fate might have been considered as sealed as soon as they were arraigned; no disinterested jury — no impartiality in the military judges — what hope of a fair trial could the prisoners have? The civilised world will, however, we think, stand aghast at the very indecent haste with which the unfortunate wretches have been sent to their dread account. The despairing petition of a poor sinful soul, and that of a woman—begging for four short days to prepare for her unexpected presence before her Maker — ruthlessly refused! Only one day between conviction and execution!! If Booth had been caught alive and tried, he could not have been more speedily despatched. O, what a glorious land of liberty it is, where the habeas corpus is suspended—where trial by jury is becoming obsolete — where military despotism supersedes civil authority — where the sentence on a culprit by a Court that has prejudged him is scarcely dry until the unfortunate victim of this arbitrary power — whether guilty or innocent — is hurried away as food for worms, without reasonable time for prayer!! O, merciful Government at Washington, have we not reason to desire amalgamation with you!

CONVICTION AND EXECUTION OF THE PRISONERS CHARGED WITH CONSPIRACY IN THE MURDER OF MR. LINCOLN.

NEW YORK, July 6. — In accordance with the findings and sentences of the military commission which President Johnson approved yesterday—David E. Harold, Lewis Payne, Mrs. Mary E. Surratt, and Geo. A. Atzerott are to be hung to-morrow by the proper military authorities. Dr. Mudd, Sam. Arnold, and O'Laughlin are to be imprisoned for life. Spangler is sentenced to six years' imprisonment at hard labour in the penitentiary at Albany.

The *Herald's* Richmond correspondence says that in consequence of rumors in that city on Monday, that the negroes contemplated insurrection, the Guards were doubled, and other precautions taken by the military.—Gold 138.

WASHINGTON, July 7.—Major Gen. Hancock repared to the arsenal at noon to-day and delivered the death warrants of Payne, Harroid, Mrs. Surratt, and Atzerott, to Major Gen. Hartsuff, who is in charge of the prisoners, when they together visited the condemned to inform them of the sentences pronounced, and the time fixed for their execution. Payne was the first to whom the intelligence was communicated, it did not seem to take him by surprise, as doubtless he anticipated no other sentence, and nerved himself accordingly.—The other prisoners were more or less affected.—Mrs. Surratt particularly sank under the dread announcement, and pleaded for four days additional time to prepare herself for death. All the prisoners will be attended by clergymen of their own designation. The scaffold has been erected in the south yard of the old Penitentiary building, which is enclosed by a high brick wall. Coffins and burial clothes have been already prepared. Only a limited number of persons will be admitted to the scene. The sentences of the conspirators who are imprisoned will be carried into immediate effect.

LATEST.

BOSTON, July 7.—Efforts were made this forenoon to obtain a reprieve for Mrs. Surratt, but were unsuccessful: and the condemned (Mrs. Surratt, Harrold, Payne and Atzerodt) were brought to the scaffold about half past 1 o'clock, accompanied by an officer and soldiers. Mrs. Surratt was on the scaffold next to the Penitentiary, then came Payne, Harrold and Atzerodt. A clergyman attended each on the scaffold. The execution took place at 1.40 P. M. All were hung in manacles save Mrs. Surratt. The bodies hung until two o'clock, when they were cut down: life was found to be extinct on examination by the army surgeon..... No other news of interest..... Gold 139.

"*The Protestant and Evangelical Witness*" appeared under the alias of *The Patriot* on Saturday evening. Like aliases generally, it has not changed its character for the better, but seems to consider rather that it has taken out a new licence for a new career of vice. Misrepresentation, mean insinuation, and deliberate falsehood, abound throughout one column of it, which we have neither leisure nor inclination to notice in detail. It was time to drop the title of "Evangelical Witness." There was too much hypocrisy and insincerity in the assumption of such a designation.

The Patriot—(save the mark!)—is in quite a fidget at our withholding the contemplated review of the "state of parties." It says we have an "object" in doing so. To be sure we have, and if it will give any comfort to the new self-elected saviour of our country, we will state the "object" —it is nothing more than our own pleasure and convenience. We said last week that the subject is one which "did not require to be hurried;" and the more we consider it, the more we see the necessity for a total avoidance of haste. If the impatient *Patriot* is really in a desperate hurry for a review of the "state of parties, with a review to their reconstruction," let him write one for himself. Perhaps he thinks we "sold" him and others when we published our first notice on the subject. We have no objection to his thinking so.

☞ A Public Examination of the Students of St. Dunstan's College will be held on Wednesday, the 12th instant, commencing at 10 o'clock a., m., at which the friends of education are respectfully invited to assist.

BENEVOLENT IRISH SOCIETY.—The annual Pic-Nic of this Society came off, according to announcement, at Glen Stewart, on Monday last. The members of the Society, together with the officers of the Caledonia Club—invited guests—headed by the City Amateur Band, marched in procession form St. Andrew's Hall to Prince Street Wharf about 9 o'clock, where they were conveyed to Southport by the ferry steamer *Ora*. Between two and three hundred were present at Glen Stewart, and notwithstanding the slight showers with which they were favoured during the day, the spirits of the party were not the least *damped* thereby, and the various games and amusements which were originated immediately on arriving at Glen Stewart—dancing included—were kept up with unflagging interest until nearly 7 o'clock in the evening when the whole party returned to the City; altogether, it is said, the party was a very pleasant one, and the committee and officers of the Society are awarded much praise for their excellent arrangements, and the unremitting attention to the wants of their guests.—*Her.*

A Bazaar in aid of the funds to pay off the debt due on the Rectory, in connection with St. Paul's Church, in this City, was opened at the Temperance Hall, on Thursday, the 6th inst., and was continued on Friday. The result of the first day's Sales was about £350. Probably a sum bordering on £500 will be found to have been realized when the whole affair is wound up. We think we are justified in giving it as our opinion that this Bazaar has been a "decided success."

The total sum realized at the above Bazaar, we learn, was upwards of £450.

The Bazaar, &c., to aid in liquidating the debt still resting upon the Queen Square Presbyterian Church, in this City, held in Temperance Hall on Tuesday and Wednesday, we are pleased to learn, resulted very satisfactorily to all parties concerned. The first day's receipts, we understand, amounted to £80.—*Mon.*

The whole amount realized was, we are informed, £155.

"Coming events cast their shadows before." During the month of January, 1861, Jefferson Davis, of Mississippi, denounced the Government from his seat in the United States Senate, and foreshadowed the course pursued by him. Arising from the adjoining desk, and almost shaking his finger in the face of the speaker, Andrew Johnson, of Tennessee, exclaimed: — "If I were President of the United States, I would arrest you as a traitor, and if convicted, I would, by the Eternal, hang you as a traitor." Mr. Johnson has the power to carry his threat into execution, and that he will do so seems evident from the recent utterances of the journals in the interest of his administration.

The amount of gold now in existence is estimated at four thousand eight hundred and sixty-two millions; of silver, five thousand seven hundred millions—making the total of precious metals now existing, ten thousand five hundred and sixty-two millions of dollars, with an average annual product of gold throughout the world of over two hundred and seventy-one millions.

GREAT RIOT NEAR NEW YORK.—*Fifty to Sixty Persons Wounded.*—Tuesday last was set apart by the firemen of Astoria, Jamaica, Flushing, and College Point, for a trial of fire-apparatus, at Flushing. Extensive preparations were made for a grand display, and Engine Companies Nos. 1 and 7 of the Eastern district, No. 3 of the Western district, Brooklyn, and No. 41 of New York, were invited to be present. Consequently, early in the day an immense number of firemen and their friends assembled in the town. In consequence of some delay the trial did not take place until about 2 p. m., and scarcely had the machines been put in working order when a *tumult arose* in Main street, near Woolley's hotel, which became so formidable in its proportions that all idea of a further trial was abandoned.

As soon as the report of fire-arms was heard, the business men of the town closed their stores, and in a few minutes afterwards the wildest disorder prevailed. The report of pistols, the clashing of bowie-knives, the screams and curses of combatants, the terrified shrieking of women and children among whom fell showers of stones, rendered the scene one of intense horror.

The house-tops were crowded with men, while the women and children sought refuge in cellars. This state of things lasted for some two hours, when the rain commenced to fall in torrents, and seemed to cool the passions of the infuriated rioters, and they gradually quieted down and collected their wounded and disabled friends.

It is impossible to state the number of those injured, but it is estimated at fifty or sixty. A lady, whose name was not ascertained, received a bullet wound in her breast; several citizens and children were wounded by stray shots, but the fighters themselves suffered the most severe injuries.

CHINESE OATHS.—In Australia Chinamen are beginning to figure largely in criminal and civil cases, the consequence being many amusing and characteristic scenes. In one case in which several Chinese were concerned, on being asked by the solicitor for the prosecution how they would be sworn, each of the Celestials replied: "Breakee platee." This caused a hitch in the proceedings, there being no crockery at hand available for destruction. The wisdom of the Bench was then invoked as to where the necessary earthenware was to come from, and at whose expense it was to be provided. A discussion ensued, which resulted in Her Majesty being made the provider of the plate. A constable was then despatched to make the necessary purchase, and the Court in solemn silence awaited the arrival of the Chinaware doomed to destruction. At the expiration of about ten minutes the officer arrived, having invested 2s. 6d. of the public money in the purchase of two respectable cheese plates. The following form of oath was then administered: "You shall tell the truth, the whole truth, and nothing but the truth; this saucer is cracked, and your soul will be cracked, too, like the saucer if you tell a lie." The plates were here smashed to pieces on the back of a chair.

Unbleached ashes sprinkled on the leaves of currant bushes early in the morning, before the dew evaporates, are said to be a sure remedy against the currant worm.

The *Hastings Chronicle*, of Belleville, C. W., has the following startling statement:—"Last week we endeavoured to show that there is a large and influential class of Canadians in favor of annexation to the United States,—that this class is daily increasing in numbers and importance, and that if the agitation which has been recently commenced is not soon checked, a majority will soon be found to vote us into the American Union." The *Chronicle* finds the chief cause of this state of affairs in the fact, that English politicians have been decrying the Colonies, and constantly telling Colonists that Great Britain will not protect them in case of danger, does not want them, and cares not how soon the connection is severed.

A correspondent proposes a new way to kill rats. His own house being overrun with the vermin, a servant girl who had seen the effect of "old Bourbon whiskey" on bipeds, thought she would try an experiment on the rats. Accordingly she took a small quantity, made it very sweet with sugar, crumbled in bread enough for the crowd, and set the dish in the cellar. A few hours after she went down and found several rats gloriously "fuddled," engaged in throwing potatoe-parings and hauling one another up to drink; these were easily disposed of; those not killed, left the premises immediately, suffering with a severe headache.

DUC DE MORNY'S GALLERY. — Theophile Gaultier, in the *Moniteur*, speaking of the magnificent collection soon to be sold, remarks with his usual perspicuity that it is one of the few collections where it is impossible to find a single mediocre or doubtful picture, and that each gem has been selected as much for its beauty as for its intrusive value. M. Galtier says: "L'homme du monde guidait le choix du fin connoisseur." The collection of objects of art is not less valuable. Marbles, bronzed ivory snuff-boxes, and most especially Chinese curiosities enough to drive a mandarin connoisseur wild—jades white opal, and green sculpture into every imaginable and unimaginable form; crackled porcelain, charming red larquer landscapes, picked out with gold: cormorants, with wings of mother of pearl and burgon—in fact treasures of every sort and kind, and each perfect, not one chipped or scratched. Amateurs of Chinoiseries are flocking to Paris, as they will never have such an opportunity of indulging their peculiar taste again.

It is stated that over $40,000 have been subscribed by wealthy friends of General Lee in Baltimore and vicinity, for the purpose of relieving him and his family from actual suffering for the common necessaries of life, caused by the confiscation of his property. They also affirm that the sum could be increased to one hundred thousand dollars without going outside of the limits of Baltimore.

A correspondent of the N. Y. *Times* thinks a company should be started to set going a new plan of organized housebuilding, and says:—"Why should a company carry us home in its cars, light our parlor, insure our life, fill our ice-box and yet not build our houses?"

A terrible tornado has passed over the villiage of Veroqua, Union County, Wisconsin, prostrating fifty dwellings, killing seventeen persons, and wounding one hundred. The suffering caused by the tornado is very great, and a call is made for relief.

William Bradford, the artist, is about to make an excursion to the Coast of Labrador, in a substantial and comfortable yacht from New York, to be absent about three months.

SPECIAL NOTICES.

Holloway's Ointment and Pills are an infallible remedy for bad legs and all kinds of wounds. The surprising sale of these invaluable medicines, in every part of the civilised world, is the most convincing proof of their efficacy. They speedily cure bad legs, old wounds, scrofula, and diseases of the skin. Thousands of persons suffering from these dreadful maladies have been cured by these medicaments, after every other means had failed; and it is a fact beyond all doubt, and there is no case, however obstinate, or however long standing but may be quickly relieved and ultimately cured, by these wonderful medicines. Their united action is irresistible. More need not be said in their praise. Let those who doubt their excellence give them a trial.

AN ESTABLISHED REMEDY. — "Brown's Bronchial Troches" are widely known as an established remedy for *Coughs, Colds, Bronchitis, Hoarseness*, and other troubles of the *Throat and Lungs*. Their good reputation and extensive use have brought out imitations, represented to be the same. OBTAIN only "*Brown's Bronchial Troches.*"

A THING OF BEAUTY IS A JOY FOREVER.—Who can be beautiful with a sickly pale complexion? Keep the pores of the skin free, and the blood pure, and your cheeks will vie with the Rose and Lily. The skin is formed with thousands of pores in every inch of surface, whose office it is to carry off the impurities of the blood—the acknowledged cause of all disease of mankind. When the skin is dry and parched—when it is covered with eruptions—when it is cold and clammy— when there is inward fever or inflammation—it is impossible for the skin, under these circumstances, to perform its proper functions, and to carry off the impurities from the body as designed by our Creator. JUDSON'S MOUNTAIN HERB PILLS remove these obstructions, and produce free and healthy blood, remove the eruptions from the skin, and cause it to brighten with the flush of youth and beauty. Beauty so much admired and loved. Beauty without paint and cosmetics; but beauty produced by health and happiness. Judson's Mountain Herb Pills are sold by all Medicine Dealers.

PUBLIC BENEFACTRESS.—MRS. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequalled preparation for restoring, invigorating, and beautifying the hair. Her World's Hair Restorer quickly cleanses the scalp and arrests the fall; the hair, if grey, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth. For ladies and children, whose hair requires frequent dressing, the Zylobalsamum, or World's Hair Dressing, has no equal. No lady's toilet is complete without it. Every Druggist has it for sale.

An anvil block, weighing 160 tons, has been cast at the Midland Works, Sheffield, England. The enormous mass was six weeks in cooling. The mould was dug out in the centre of the work-shop, and the molten iron was run into it from five furnaces at once, the filling occupied twelve hours. The anvil, when finished, has to receive the blows of a twenty-five ton Nasmyth hammer.

A rather green village editor up country was very desirous of gaining the good opinion of the new minister; and in descrbing his first entrance into the church, wrote thus: "He is a most venerable sample of antiquity." But to his astonishment, and the amazement of all the inhabitants, it came out the next morning in types—"He is a most venerable sample of *in*iquity."

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce, or which, we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to *certify to the public the reliability of our remedies*, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for the use, and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifyng the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body, or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's and take no others. The sick want the best aid there is for them, and they should have it.

TEA TIME.

Come Lucy, put the kettle on,
I'm thirsty as can be,
And nothing do I doat upon
So much as Bell's famed Tea.

It cheers, revives, and freshens me,
These sultry summer days,
And dearly do I like to see,
My Caddy full always.

But now I find 'tis running low,
And therefore bye and by,
To Bell's pray do not fail to go,
And get a fresh supply.

And as the price of Bell's famed Tea
Has lately been reduced,
Of course we very soon shall see,
Much benefit produced.

For a trifle less in every pound,
Which we are wont to buy,
Will save before the year comes round,
A dress for you and I.

Messrs. LAWRENCE & Co., OCULIST-OPTICIANS,

15 Bernard Street, Russell Square, London, G. B., and at the Halifax Hotel,

Desire to inform the Clergy, Gentry and Inhabitants of Charlottetown and vicinity that Mr. N. LAZARUS, a member of the firm, is now on a professional visit to P. E. Island, and can be consulted at the PAVILION HOTEL, Charlottetown, on and after MONDAY, the 10th JULY next, for TWO WEEKS ONLY.

The great success of Messrs. L. & Co., as OPTICIANS, is to be found in their peculiar skill.—Any one with weak or impaired vision will find

The Adaptation of Lenses to the Eye

attended with only pleasing results. The eye is first examined, and on that examination the Optician bases his selection of the Lenses. It will be found that

The First Pair of Spectacles invariably suit,

and will be necessarily grateful to the sight, and the eye so fitted with spectacles possessing the requisite power, neither more nor less, do not fail, or require the constant changes that are so necessary where badly fitted or improper glasses are used.

May 22. tf HENRY HASZARD.

The Union of the British Provinces.

A brief account of the several Conferences held in the Maritime Provinces and in Canada, in September and October, 1864, on the proposed

Confederation of the Provinces,

together with a REPORT OF THE SPEECHES delivered by the Delegates from the Provinces, on important public occasions. Compiled by the Hon. Edward Whelan, M. P. P., (one of the Prince Edward Island Delegates.) Charlottetown, Prince Edward Island: Printed by G. T. Haszard, 1865.

The above little work contains 239 pages. It has just been issued from the press, and is handsomely bound in boards, cotton and roan. It contains the principal speeches delivered on the question of Confederation during the progress of the Conferences in the Maritime Provinces and in Canada, with a brief narrative interweaving the events which called forth the speeches. The speeches have been carefully revised and corrected —in most cases by the speakers themselves, and all superfluous matter relating to merely passing incidents eliminated from them.

Those who take an interest in the question of Confederation — (and their number is not on the decrease, but the reverse,) — may, it is hoped, find this Compilation useful for instructive reference.

Only a limited number is reserved for sale. They may be had at the Bookstores in the course of the present week. Prices — 3s (Boards) — 4s (Cotton) —4s 6d (Roan). [June 5, 1865.
