LAND ASSESSMENT. In pursuance of the Act of the General Assembly of this Province, passed and passed in the Eleventh year of Her Majesty Queen Victoria, intituled "An Act for laying further an Assessment on all Lands in this Colony, and for the Encouragement of Education," and also an Act in amendment of the said Act, intituled "An Act to explain and amend the present Act for the Assessment of Land and the Endowment of Education," and also of an Act made and passed in the Fifteenth year of the same reign, intituled "An Act for the Encouragement of Education, and to raise Funds for that purpose by imposing an Additional Assessment on Lands in this Island, and on Real Estate in Charlottetown and Comoros and Georgetown and Comoros," and also of an Act made and passed in the Sixteenth year of the same reign, intituled "An Act relating to the mode of proceeding against Lands on the several Townships in Prince Edward Island and the Islands contiguous thereto, for the recovery of arrears of Land Assessment."

PADDY O'DOUGHERTY. A More glowing looking picture of the human mind in distress—was presented to Timothy Brown than Paddy O'Dougherty, as he applied to M. Brown for a day's work on the High Bridge; and our sketch was taken at this period. Now, Timothy was a small, driving Yankee—keen as a brier, deterring, shrewd and persevering. He had taken a contract for certain portions of the mason work, to finish out an abutment at the end of the bridge. He had calculated on employing workmen at the lowest price, and had calculated to meet many honest Irishmen, at that low price, who could rather work than starve. He would have been disposed to have paid more, but, in the face of sharp competition, he was obliged to make his bid very low, in order to procure his acceptance.

gold diggings and quartz rock will sink into the mire of distress—L. & A. It is said that the yield of gold from the California mines for the current year will reach the enormous sum of fifty-five or sixty millions of dollars! An enormous sum truly; and yet we venture to say that the value of the hay crop alone of the State of New York will fully equal it! Six counties of that State produced, in 1850, 500,000 tons of hay which, at 25 per cent, would be \$5,000,000.—This they do year after year, with a gradual increase; and yet how few are seen rushing to the meadows of Ouelha, Jefferson, Channing, Delaware, Chautauque, or Lawrence. The wheat and corn fields of Ohio produce annually more dollars than the gold mines of California. It is not in our nature to be content with the ordinary rate of interest; and instead of thousands rushing to them in the hope of growing suddenly rich, thousands have been fleeing from them in search of gold—gold—gold. We hazard nothing in saying that had the emigrants to California, since the discovery of gold there, gone instead to the rich lands of our Western States, they could have produced a quantity of an independent position in life, without the sacrifice of home friends, health, morals, and indeed all that men should esteem valuable in life, and they would have been as comfortable in its decadence, and the time is near when it will be seen and known, that every ounce of gold dust dug from the mines of California, has cost twice its market value.

with to have a Bible brought to him. He could not read it, and read it; and he clasped the Bible in his hands, and exclaimed, "O that ever such a wretch as I should be permitted to read this blessed book, which I once cut to pieces!" This book has now cut its sins in pieces, and led me to Christ as my Saviour. O that I could recall my property and murdered time! all, all should be spent in distributing this blessed book!"
