

Federal Gov't Is Jumping into Money Market Again

OTTAWA (CP) — The federal government is jumping into the money market again with two new bond issues, hardly two weeks after completing the \$1.5-billion financing operation in the money market.

The finance department announced Tuesday it will seek to borrow \$600,000,000 in short-term bonds with sales starting of nine o'clock and 18-month issues.

In less than a month, it has sold this fall's version of the annual Canada savings bonds with a sale offering investors 15-cent bonds carrying an effective interest rate for the full term of 10 per cent.

The announcements were made even before final results were known of the mammoth conversion loan campaign to induce holders of \$6,400,000,000 in wartime victory bonds to switch their old bonds for new ones.

The latest figures a week ago showed conversions then had reached the \$5,175,000,000 mark.

CONVERSION A SUCCESS

Tuesday's announcement quoted Finance Minister Fleming as saying the conversion loan was "incredibly successful in its objective of refinancing existing obligations, thus making conditions more favorable for the raising of new money requirements, which for the current fiscal year total about \$1,400,000,000."

As usual, no limit has been set on the new Canada savings bond issue, which goes on sale Oct. 14.

The new bonds will pay 3½ per cent interest the first year and 4½ per cent for the remaining 14 years for an average yield of 4.19 per cent. The average yield for last year's issue, with a 12-year maturity, was 4.46 per cent.

Today's short-term bond issue of \$600,000,000 will offer two types of bonds: one for nine months maturing next July 1, with 2½ per cent interest, to be offered at a discount price of 99.80 to yield about 2.77 per cent; and another at 2½ per cent maturing April 1, 1960, to be offered at 99.70 to yield about 2.96 per cent.

MRS. W. R. NESBITT

Commissioner Of Guides Will Visit The Island

Mrs. W. Rankine Nesbitt, Toronto, Ontario, Chief Commissioner of the Canadian Girl Guides Association, will be in Charlottetown, Summerside on Sept. 28th, to Sept. 29th.

Mrs. Nesbitt was appointed Chief Commissioner in May 1954. Prior to that time, she served in various positions on the Canadian Council, six years as Deputy Chief Commissioner, as Honorary Secretary, an elected Executive member and Convenor of the Overseas Gift Project of the Guides during the war years.

As a girl she first came into Guiding as Mary Anderson, second daughter of Major General and Mrs. T. V. Anderson of Ottawa and has lived in many different parts of Canada. She enrolled as a Guide at the age of eleven in the 7th Kingston Company, moving to Ottawa where she joined the St. Alban's Church Company, and later she belonged to the King's Hall Company, Compton, Quebec. She served as a Lieutenant in All Saints Church Company, Winnipeg, then Captain of the Company at St. George's Church, Winnipeg. Mrs. Nesbitt has enjoyed Guiding and can be best described by the statement of a fellow Guide who said of her, "She is the most unselfish person I have ever camped with."

She has been a member of the Western Hemisphere Regional Committee of the World Association of Girl Guides and Girl Scouts and has represented the Canadian Girl Guides in the United States, South America and in

Fredericton Man Is Awarded \$2,700 Scholarship To MIT

FREDERICTON — The Massachusetts Institute of Technology has announced the award of a Whitney Fellowship to Lloyd Cutcliffe of Fredericton, P. E. I. This fellowship is valued at \$2,700.00 and covers all expenses for one year's study at M.I.T., Boston, Mass.

Mr. Cutcliffe will study towards a Master of Science degree in the Engineering Department of Building Construction.

He began his education at Prince of Wales College and later in 1954 received his B.Sc. in mathematics and physics from Mount Allison University.

In 1956 he received a Bachelor of Civil Engineering degree with honors from the Nova Scotia Technical College, Halifax, N.S. He also won the Governor General's Medal from the Nova Scotia Technical College for the highest average in all departments.

Upon graduation he joined the firm of Rubb Engineering Works, Amherst, N. S. in the Structural Design department and has been granted a leave of absence to avail himself of this scholarship.

LOYD CUTCLIFFE
Mr. Cutcliffe is the son of Mr. and Mrs. F. W. Cutcliffe Fredericton, P. E. I. He leaves this morning for Boston.

Chief Scout Will Visit P. E. Island

Lord Rowellan, chief Scout of the British Commonwealth and Empire will be visiting Charlottetown November 8th as part of his tour of the principal scouting centres of Canada.

During his Island visit he will meet Scouters, Scouts and Cubs, in Summerside, attend a rally for King's and Queen's County Scouts and attend the Scouters and Guides Ball at the Charlottetown Hotel.

While in Charlottetown he will be the guest of R.C. Parent, Provincial Commissioner of the Boy Scout Association.

He will be accompanied on his trip by D.F. Morgan, Assistant

Overseas Commissioner from scout headquarters in London, Eng.

Swimmer Died Of Heart Attack

EASTHAM — Robert C. Stevenson, 71, of 9 Brook Rd., Auburn, a retired cable worker for the American Steel Co. at Worcester, died of a heart attack Wednesday while swimming in heavy surf off Nauset Beach.

Richard C. Harding, 30, of Brewster, saw Stevenson struggle in the surf and undertow and made several attempts to reach the stricken man. Stevenson was finally brought ashore by a Coast Guard boat.

Attempts by fire and police rescue squads from Eastham and Orleans failed to revive the man. He was pronounced dead by a medical examiner, Dr. Joseph N. Kelly. According to police Stevenson and his wife, Margaret, were vacationing near here.

The deceased had relatives at Fredericton, P.E.I.

Y.P.C. CONVENTION

Young Progressive Conservatives of Prince Edward Island attending the forthcoming convention in Charlottetown will be delighted to know that Mr. Thomas Bell, Past President Dominion-wide P.C.'s, will be the principal speaker for 500 delegates attending the convention. Mr. Bell is well known to Y.P.C.'s on P.E.I., having met and spoken before Y.P.C. rallies in former years. As a member of parliament Mr. Bell has distinguished himself by introducing and debating many subjects of importance to the Maritime provinces.

Join with your fellow Y.P.C. members to hear Mr. Bell and other prominent speakers at the Young Progressive Conservatives' Convention September 17th commencing at 9 a.m. at the Community Centre, Charlottetown.

AGRICULTURAL NEWS

P.E.I. Department of Agriculture

HARVEST EXHIBITION

The Provincial Harvest Exhibition sponsored by the Provincial Department of Agriculture is being held this year on September 24th and 25th at the Provincial Exhibition Association Grounds, Charlottetown.

This will afford an opportunity to view the products of the land on display and in competition one with the other. The exhibits will include vegetables, fruit, seed and field crops, potatoes, field crop and stock roots. The show will get underway at 7.30 on Thursday evening the 25th. In conjunction with the Harvest Exhibition, the Royal Youth Fair will be held.

All exhibits must arrive at the Women's Institute Building on the Provincial Exhibition Grounds on Thursday, Sept. 25th, between the hours of 8 a.m. and 10 a.m. Exhibits that cannot be arranged by 10 A. M. will be delivered one day preceding the show. Indications at the date show that the exhibits of last year were greatly increased during this year.

ROYAL YOUTH FAIR

All Club members from a 11 provinces of the province will be competing on Charlottetown to participate in the 1958 Rural Youth Fair held in conjunction with the Provincial Harvest Exhibition. The boys and girls will be competing in the various livestock classes, vegetables, clothing and other projects, have earned awards by making the top placings in the respective Achievement classes.

There will be a Public Speaking Contest, Parade of Fashions showing the handwork of the girls, selection of the 1958-59 Provincial King and Queen, Square Dancing and several innovations. The opening evening of Sept. 25th commencing at 7 p.m. promises to be one of the most outstanding dates. Everybody is welcome to join in the support of the 4-H Club work of the Province.

HARDWARE DISEASE

Adult dairy cows have inborn habits that cause no end of trouble. Gulping food without chewing it properly they swallow bits of foreign materials, nails and small round stones usually cause no ill effects but sharp metal objects may penetrate through the stomach wall and lodge in vital organs often causing death. Dr. Geo. C. Fishery of the Veterinary Laboratory

the King Ranch. Last month George Cheatham of Calgary imported 10 cows, 5 calves and a 16 month old Santa Gertrudis bull from Oklahoma. These are the first importations of the breed into Canada.

Santa Gertrudis are large, fast maturing cattle. Bulls weigh approximately 1800 pounds and the mature cows weight 1100 to 1200 pounds. Four year old steers average about 1400 pounds when finished on grass.

The cattle are deep fleshed but especially heavy hind quarters. Color is a solid cherry red with hair straight and slick. The Santa Gertrudis are of quiet disposition and have adapted themselves to most any range and feeding conditions.

The cattle brought into Southern Alberta by George Cheatham marked the farthest north for the new breed. Until fairly recent years Santa Gertrudis cattle were largely confined to production in the Southern and South western States of the U.S. Originally it was thought that due to the Brahman background and development in a semi-tropical area, Santa Gertrudis might not approve adaptable to the vigorous climate of Northern States and Western Canada.

CLUB NEWS

St. Peter's 4-H Calf Club met at the home of Harold Lewis on August 7, 1958, with twenty-one members present. The meeting was opened by the repeating of the pledge. Minutes of the last meeting were read and approved.

Correspondence concerning the Kings County 4-H Club Rally was read and discussed. The Achievement (Continued on page 5)

says nails are commonest among findings but he recalls a cow that swallowed a splintered bone 8-10" long and another which ingested a splintered hardwood slab 20" long. Staples, wires from bales and other scraps of metal have also been found.

Keep dairy cows away from buildings under construction where nails and odds and ends accumulate, says Dr. Fisher. Care taken in cutting wire from bales and in removing other sources of possible danger will also help in preventing this disease. Make sure there are no metal objects in grain.

symptoms noticeable to the farmer appear only when penetration of the stomach wall has occurred. Some are milk production dropping to almost nothing overnight, cows running a temperature, stiffness in front legs, arching of the back, grunting when breathing and drop in appetite. Surgery has been effective as a cure in some instances, in other veterinary practitioners have administered strong magnets to localize the metal objects within the stomach.

HOG AUTOMATION

Automation in the care and feeding of hogs has been made possible through Engineering Research in the United States.

According to the United States Department of Agriculture Report, facilities using both experimental and commercial equipment, operated electronically, will automatically maintain constant supplies of feed and water; provide sanitation by periodic washing of an exercise area; and dispose of waste by drainage into a septic tank.

FALL GRUB CONTROL

Until a year ago Warble Fly control was limited to the spring, using a rotenone spray. In the fall of 1957 the first of the systemic insecticides, Trolene, was introduced. For this fall a second systemic, Co-Ral, is also available. Each of the three methods has certain advantages. The chief advantage of the systemic chemicals is that they can be applied in the fall and thus eliminate the damage and pain caused by grubs through the winter.

Trolene is administered from August to October as a bolus or large pill—one pill for each 300 lb. live weight Trolene must not be given to milking dairy cattle or any animal 60 days prior to slaughter. One treatment is sufficient.

Co-Ral is applied, July through November, as a spray at 350 to 400 lb. pressure p.s.i. Dairy animals, calves under three months and cattle 60 days before slaughter, must not be treated. One treatment is usually sufficient.

Rotenone is applied in April and May, by spray or brush. Two treatments, one early in April, the other three or four weeks later, are necessary. Minimum spray pressure is 400 lb. p.s.i. Milking dairy cows may be safely treated.

With these various alternative and very effective methods of combating cattle grubs now available, there is every reason to hope that present extensive losses in damaged hides and meat can be substantially reduced.

RESEARCH CENTRE

Arrangements for providing the Central Experimental Farm with some four thousand acres additional have been announced in a point press release by the Federal District Commission in the Department of Agriculture. This land, part of the projected green belt being established by the Federal District Commission around the National Capital, lies in a rectangular block about five miles southwest of the Central Farm. It is proposed to utilize the new area as an Animal Research Centre, and to transfer there existing livestock and poultry work from the Central Farm. It is hoped that work to this end will be started in the near future. The area is presently occupied by about thirty-five farms. The Central Farm, of about 1200 acres will be devoted to plant science research.

LIVESTOCK SLAUGHTERED

The statement of livestock slaughtered in Canadian Inspected establishments during the month ending July 26, 1958, indicate the following runs in the Maritimes, Swine (7,300); Cattle (2,080); Calves (1,391); Sheep (190); Lambs (3,202).

SANTA GERTRUDIS

Santa Gertrudis is the first breed of beef cattle to be developed on the North American continent. The breed originated from a cross between Shorthorn and Brahma or the home ranch of the King Ranch in Texas.

The Santa Gertrudis cattle became officially recognized as a pure breed in 1940, after 30 years of experiment and development. The development was carried by the Klebert family, owners of

Vancouver Man Heads Bar Ass'n.

TORONTO (CP) — Walter S. Owen of Vancouver was elected president of the Canadian Bar Association during the closing session Saturday of its 40th annual meeting.

Renault St. Laurent, of Price House, Que., was elected dominion vice-president.

Vice-presidents for the provinces include: New Brunswick, R. D. Mifflin, Moncton; Newfoundland, D. W. K. Dawe, St. John's; Nova Scotia, A. G. Cooper, Halifax; Prince Edward Island, R. S. Hinton, Summerside; Quebec, Leon Lalonde, Quebec.

Other officers include: Donald McInnes, Halifax, honorary secretary; A. B. Gilbert, Saint John, N.B., honorary treasurer.

Europe.

Mrs. Nesbitt was educated at Victoria School in Kingston, Lisgar Collegiate and the Model School in Ottawa and King's Hall, Compton, Quebec. She has been President of the Junior League of Toronto, and is a member of the Anglican Church. Mrs. Nesbitt is the wife of Mr. W. Rankine Nesbitt, Barrister, of Toronto. They have three children, Amy Grace, Victor, and Alice.
