THE aroma of the tobacco leaf is so completely conserved in the manufacture of "Myrtle Navy," that age has no effect in diminishing it; even after the plug has been kept for years it gives out its full flavor under the combustion in the pipe, mellowed in tone by its age and making the most exquisite smoke which tobacco can be made to give. Age, too, hardens the structure of the plug and gives to the tobacco, when cut, that almost granular appearance in which all connoisseurs delight.

THE TURF—In the free-for-all race at Cleveland, Ohio, on Friday, Evangeline created a sensation by trotting a mile in 2:11, beating the world's race record on a regular track.

The sulky wheels were stripped from the vehicle, and Mr. Perry was thrown to the ground with the above result. The services of Dr. Deiron were brought into requisition.

LOCOMOTIVE EXPLODES—A locomotive exploded near Stellarton, N. S., on Friday last. The driver and fireman were on board, but escaped injury. If the accident had occurred at the station it would have caused loss of life. The engine was one of the four bought by the local government for the Eastern Extension. Two years ago one of them exploded at Stellarton, killing four men and demolishing the station house there. The other two are still on the road.

HE WASN'T DRINKING—Mr. E. P. McLean writes as follows to the New Glasgow, N. S. Enterprise: It is now an accredited rumor that at a private picnic at which the writer was present at Rustico Beach, some of the young men were under the influence of strong drink. The writer wishes to say that he did not partake of any strong drink on that occasion, and leaves each one to make the same public declaration or justify remain under the possible imputation of making a blackguard of himself, by drinking amongst ladies.

LAX REGULATIONS—The New York Herald has discovered an error in New York, over which a boy of 16 years presides, where a clean bill of health enabling a vessel to pass through the S and N New York and discharge at that port can be had for the small fee of 25 cents. One of its reporters a day or two ago obtained such a paper for an imaginary schooner from St. John bound to New York. Even the quarantine regulations of that great port seem to require a little amendment.

THE CURRIE-CRISP CASE.—The Rev. Dr. Sprague, in the course of an interview with a St. John Globe reporter, said that Rev. Mr. Crisp, in view of the very serious charges of immorality preferred against him by Mr. D. D. Currie, has asked the chairman of the Fredericton District Conference to arrange for investigation. The matter will be tried by a committee of five clergymen, who have not yet been chosen. The trial will be held next likely at Fredericton in the near future. It will in all probability be private. Matters of this kind, Dr. Sprague said, are never tried by the conference.
