PROPANE GAS INSTALLATIONS

Propane gas is supplied in two steel cylinders placed outside of your home and piped directly to your stove or hot water heater.

As soon as one tank is empty the unit is switched to the reserve tank. A trained service man removes the empty cylinder and connects the full one, giving you a reserve once more.

There is nothing complicated since the entire unit is self contained giving a constant pressure of gas and the service is not interrupted.

Island Propane Gas is non-poisonous, safe, clean and has no objectionable odor. Propane gives you a continuous flow of gas not affected by power breaks. Users are assured of no increase in insurance rates.

Propane is the answer to your cooking and water heating problem and is the most efficient fuel in general use today.

JACK SCRIBNER
Manager

ISLAND PROPANE CYLINDER PLANT

The Island Propane Gas Limited are very happy to announce the opening of their New Cylinder Filling Plant located at New Annan.

This propane plant is one of the most modern in Eastern Canada, and is equipped with the latest in modern and safety equipment. The huge storage tank is 67 feet long, weighs 42 ton and has a capacity of 30,000 gallons.

As propane arrives in liquid form under pressure in tank cars, it is piped to this huge tank, a special pump is then used to fill the cylinders for household and commercial uses, as well as smaller cylinders for use in camps and trailers.

Today there are in excess of 10 million customers in the United States and Canada presently using propane gas.

ENTERPRISE RANGES — McCLARY RANGES — GARLAND RANGES — MAGIC CHEF RANGES — PITCO FRIALATORS
This equipment is ideal for Homes, Farms, Cottages, Hotels, Motels, and Restaurants.

TO OUR RETAIL FRIENDS:

It is our earnest endeavor and policy to provide the people of Prince Edward Island with the most modern, economical and safe means of cooking and hot water heating at a sound level of prices in keeping with costs.

Our policy also includes the rendering of the most efficient service possible conforming to the safety codes established for the industry.

Two retail stores in addition to our new cylinder filling plant at New Annan, one in Charlottetown and one in Summerside have been established for your convenience where the latest styles of ranges, hot water heaters and other commercial equipment is always on display.

We have also established a dealer organization for the rendering of service in other localities. Names and locations are given elsewhere on this page.

We sincerely hope we may have the privilege of serving you.

Sincerely yours,

J. A. SCRIBNER,
Manager.

GAS AUTOMATIC WATER-HEATERS

Not enough hot water for you and the laundry? Only an automatic Gas water heater is fast enough to keep up with the demands of the washer, the dishwasher—and you. If you use any or all of these appliances, talk to us about what you need in the way of an automatic gas water heater. . . . A new one costs less than you think . . . and gives you hot water when you need it and three times FASTER.
Come in and see our line of RUUD — RBD-D and COLEMAN water heaters . . . TODAY.
