THIS PAPER may be found on the Big at Geo. P. Rowell & Co's Newspaper Advertising Bureau 109 Spruce Street, New York.

Local and Other Items.

THE CITY COUNCIL meets on Monday evening next.

"Well, Sarah, what have you been doing to make you look so young?" "Oh, nothing much, only been using Hall's Hair Renewer to restore the color of my hair."

ADVERTISING.—Teacher.—And when the prodigal son's father found that his son was lost to him, what did he do? Willie you may answer. Willie.—Advertised.—America.

A spring medicine is needed by everyone. Winter food, largely consisting of salt meats and animal fats, causes the liver to become disordered and the blood impure, hence the necessity of a cleansing medicine. The best is Ayer's Sarsaparilla.

KNIGHTS OF THE GRIPSACK.—An exchange says that the number of "drummers" constantly "on the road" in this country is placed at 2,500. The Dominion Commercial Travellers' Association has 2,000 members, and the Association in Toronto 3,000 members.

MUST CHANGE THEIR FLAG.—The Salvation Army have been in the habit of coming to Windsor, Ont., from Detroit with the news and stripes at their head. The Collector of Customs has notified them that they will not be permitted in future to come to Windsor with the American flag, but the British flag must be carried at the head of the procession.

Ayer's Cherry Pectoral has given me great relief in bronchitis. Within a month I have sent some of this preparation to a friend suffering from bronchitis and asthma. It has done him so much good that he writes for more.—Charles F. Dumterville, Plymouth, England.

PRINTERS' INK.—For the benefit of those who abhor printers' ink as a prime factor to the advancement of their interest, we would state that Sampson—the strong party—was the first man to advertise. He took two solid columns to demonstrate his strength, and several thousand people "tumbled" to the scheme. He brought down the house.—Democratic Union.

TROTTERS.—There are two very nice sets of driving harness at P. P. Gillis's livery stables, which are to be trotted for on Monday, 11th inst., at one o'clock p. m., on the Hillsborough ice. Entries to be made at the above named stables before twelve o'clock on day of race. These races will be for three minute and green horses, and will be open to both trotters and pacers.

SNOW IN ONTARIO.—A recent despatch says that snow has fallen heavily throughout Central Ontario, and gales, some attaining a velocity of 60 miles an hour, have in some localities drifted the snow so badly that the roads are impassible. A cold day accompanied the snow, the mercury reaching thirty-two below at Chichester. Although several trains have been cancelled the railway service is on the whole good.

COPYRIGHTING NEWS.—A London despatch to the New York Post says an English court has decided that any article, either original or compiled, which may appear in a newspaper can be copyrighted. At a recent meeting of London newspaper proprietors, the editor of the Telegraph complained that on two occasions he had paid \$4,000 for a telegram which was reproduced literally by other papers two hours afterwards.

STEAMERS COLLIDE.—Says a London despatch of the 6th inst.:—The British barque *Largo Bay*, bound to Auckland, was towed into Spithead to-day in a sinking condition. On Monday night last, she was in collision with an unknown four-masted steamer off Beachy Head. The steamer sank with all on board. The seamen are certain that the lost steamer carried passengers. They estimate that the crew and passengers numbered 100 persons. The steamer sank in eight minutes.

MONCTON'S ESTIMATES.—The estimates for the town of Moncton for the ensuing year amount to \$30,903 for assessment, and the capital account \$15,000 for sewers under construction, and \$15,000 for a park and public square. Of the first, \$9,000 is for schools, \$6,000 for interest and discount and \$5,000 for electric street lights and hydrants. The town's balance sheet shows assets of \$145,555.85, of which \$104,554.88 is in sewers and buildings. The bonded indebtedness is \$96,000.

PROLETIC.—Take Kilrain has telegraphed R. K. Fox that he would accept the challenge of Jean Smith, champion of England, for another fight, and was willing to accede to any terms which might be proposed for a fair contest for the championship of the world.

A prize fight for \$700 between a Canadian and an American, supposed to be Guthrie and Bush, took place at Cote Station on the night of the 6th. The affair was kept very quiet. The price of admission was \$20. After seven hard fought rounds the Canadian was declared the victor.

AN EXPENSIVE EXPERIMENT.—Mr. Lowther, of Nappan, had a horse which persisted in breaking his halters. Mr. Lowther resolved to cure him of the trick, and with that end in view, procured a rope strong enough for a boat cable, with which he tied the horse in his stall last Saturday night. The cure worked like a charm, and the once refractory animal will break no more halters. When Mr. Lowther went out to his stable on Sunday morning he found his horse, for which he had recently refused \$100, strangled in his stall. The rope proved too strong for him.

SPEAKING A WILD ANIMAL.—Says the *Chatham World*: Mr. Robert McDonald, of Black River, captured a bop cervier in a peculiar manner, on Friday last. Mr. McDonald was on his way home with a load of firewood, and when passing his neighbor's, Mrs. Hollands, one of her little boys called to him to come and save his mother's sheep, as some wild animal was killing one of them. Mr. McDonald ran to assist the boy, and when he reached the sheep house he saw that a lynx of the most ferocious species had one of the sheep by the throat, and was sucking its blood. Mr. McDonald seized a pitch-fork that was close by, and buried it in the brute's neck and pinned him to the wall. The lynx relaxed his hold on the sheep. Mr. McDonald held him firmly while the boys clubbed him to death.

Eastern Notes.

Methodist societies are "all the go" at Souris, and give general satisfaction to those who attend them.

The new dentist, Mr. McDonald, recently located at Souris, is said to be doing a rushing business in the dental line.

Mr. Uriah Matthew, of the firm of Matthew, McLean & Co., Souris, leaves this week for England to purchase goods for the coming spring trade.

Father Gillis, of St. Columba, has moved into his new house. It is one of the finest parochial residences on the Island, being heated with hot water and having all the modern improvements. Long may he live to enjoy it. He is a faithful and kind pastor.

Notes and Clippings.

—Good beef is reported scarce in the St. John market. If we had the subway now?

—The Philadelphia Record, in discussing unrestricted reciprocity, annexation and kindred fads, says: The annexation of Canada would probably not be long delayed after the establishment of complete free trade between the two countries; but political union with Canada, except by military conquest, is not likely to go in advance of commercial reciprocity.

—Mayor Thorne, of St. John, one of the most prominent grit business men in the sister city, made a speech a few days ago, in which he denounced not only the Winnipeg and patriotic grounds, but pointed out that it would be utterly ruinous to our commercial interests. He said: "As to trade relations, he believed that a scheme like commercial union would be simply a ruin to the manufacturers and merchants of Canada. We could not afford to have goods coming in here from the States free of duty. He believed it would ruin almost every merchant in St. John."

Capital Clippings.

Three hundred guests attended the "at home" given by Lady Macdonald in honor of Albany.

A delegation of Nova Scotia members interviewed the Minister of Railways and urged a return to the old rates for carrying coal on the Intercolonial.

Mr. Costigan proposes to transfer the collection of canal tolls to the Department of Railways and Canals to avoid maintenance of two separate staffs for superintendence and collection. Collection of dues on slides and booms to be similarly transferred to the Public Works Department.

The Opposition's policy for the session is definitely outlined by the resolution of which Sir Richard Cartwright has given notice. The following is the resolution in question:

(1) That it has become a matter of extreme importance to the well being of the people of the Dominion that the government and parliament of Canada should acquire the power of negotiating commercial treaties with foreign states.

(2) That an humble address be presented to Her Majesty praying that she will empower her representative, the Governor-General of Canada, acting by and with the advice of the Queen's Privy Council for Canada, to enter by an agent or representative of Canada into direct communication with any foreign states for the purpose of negotiating commercial arrangements tending to the advantage of Canada, subject to the prior consent or subsequent approval of Canada, signified by act.

Latest News Notes.

V. E. Fuller, cattle breeder of Hamilton, Ontario, has assigned, liabilities \$1,000,000.

The chief of an Australian tribe delivered the following temperance lecture in one line: "One drink is too much; two are not enough."

The entire Samoan export trade, which consists of cocoa meal, used in soap-making, is only \$300,000, of which the Germans handle \$270,000.

The severity of the winter is increasing the distress caused by the famine in Shan Tung and Manchuria. It is estimated 250,000 persons are starving in Chen King.

Advices from Burmah announce that Mandalay has recently been visited by two immense conflagrations. In the first the flames destroyed 634 houses, a bazaar and a Buddhist monastery. In the second 500 houses were burned. Both conflagrations were of accidental origin.

The Brussels correspondent of the London Chronicle alleges that when the door of Crown Prince Rudolph's room was forced open the body of a beautiful young Bohemian lady was found. It asserts that the Crown Prince killed her with a revolver and then shot himself. The body of the lady was conveyed secretly to the seat of her family in Bohemia.

The action brought by Parnell against John Walter, registered proprietor of the Times, for libel, came up before the Court of Edinburgh a few days ago and the case was dismissed, costs being taxed against the plaintiff. Judgment was given on the ground that Walter, being one of a co-partnership owning the Times, arrests against him as an individual are invalid. Parnell will appeal from the decision.

The New York Herald's Washington correspondent telegraphs the following statement dictated by Secretary Bayard for publication: "With the resumption at Berlin of an amiable conference in accordance with the proposal of Prince Bismarck and which is acceptable to this government and there seems little ground to doubt that a peaceful and permanent settlement of all questions of the native right of Samoa, as well as the rights of the three treaty powers, will be obtained, and that Mr. Bayard consents to the German proposition that Samoan negotiations will be removed from Washington to Berlin."
