**Inman Reunion Enjoyed At The Crapaud Centre**

The Inman Clan were quite undaunted by the unfavorable weather on Saturday afternoon, August 9th as they assembled at the Anglican Youth Centre for their annual picnic. Although compelled to remain indoors, most of the afternoon a feeling of good will and friendship prevailed and acquaintances were renewed.

The president Frank Jardine, in his opening address of welcome briefly traced the history of the clan and paid tribute to those who conceived the idea of re-union forty-nine years ago, and also to those who carry it on down to the present time. This year's celebration marks, he said, the one hundred and eighty-ninth anniversary of the landing in this Province from York, England of Pioneer John Inman and his five sons and daughter, who settled on farms along the South Shore of the Island.

Other speakers who followed were: Senator Elsie Inman, Lt. Cdr. W.N. Inman, John T. Inman, Stewart Inman and T.J. Inman.

The secretary read the report and financial statement and the names of the seven members who departed during the year — J. T. Profitit and Melvin Baker, Kensington, Mrs. William Best, Belmont, Mrs. Heber McVittie, Crapaud, Beecher Inman, DeSable, Hugh McPhee, Canoe Cove, and Joseph Webster, Imperial, Sask. A two minute silence was observed in their memory.

Mrs. Albert Linkletter, acted as registrar during the afternoon. Officers elected were — President Frank Jardine (re-elected) Vice-president, William McLean, Secretary — Treasurer, Mrs. Warren Inman, (re-elected).

The sport committee T. J. Inman and Elmer Inman conducted the children's races and presented prizes and candy treat.

The original family chart which contained the names of all Inmans and their descendants from the first to the 7th generation is now being made into a book form and will contain the early history of the clan together with photographs of the pioneer ancestors and first officers and promoters of the re-union. It is expected, the president announced, these record books will be ready for distribution before the end of the year.
