CURRENT NOTES.

As an illustration of the scarcity of labor at the present time in this country, it may be mentioned that the CanadaPacific Railway is applying through a Buffalo agency for a thousand men. This means immediate employment for the poorer class of imigrants, who cannot at once take up farms in the North-West, and it shows a scarcity of laborers exists, however desirable ultimately it may be to rid the country of the Chinese, we cannot do without them on the great Railway undertaking in British Columbia at the present time.

John William Ramsay, Earl of Dalhousie, whose name is mentioned in connection with the Governorship-General of Canada in succession to Lord Lorne, is a man of wide popularity, high talents and in the prime of life. He was born January 29th, 1847, and succeeded his father as 13th Earl in July, 1880, shortly after his election to the House of Commons as member for Liverpool. He was married in December, 1877 to Lady Ida Louise Bennet, daughter of the Earl of Tankerville. The Dalhousie family is an old, a distinguished and a wealthy one, having been of note in North Britain since the time of David I., 1140.

The work of extending the Canada Pacific Railway, west of the Sturgeon Falls, above the Mattawa, is being pushed forward with redoubled activity since the snow disappeared, and it is estimated that there are now over two thousand men employed on that portion of the road. An elegant iron structure spans the Sturgeon River at this point, and the track at present extends over thirty miles beyond. It is said the rapidity with which the road is being built has far surpassed the most sanguine expectations of the contractors, who expect to have a junction effected with the Algoma Division of the same railway before September next. The senior Superintendent, Mr. Archer Baker, Major Rodgers, and other prominent railroad officials inspected the road at the end of the past month, and found everything in first-class condition.

There has lately been quite an outbreak of pugilism at Ashland, Pa. On Sunday night, the 6th inst., Mike Casey and Vint Harkness quarrelled over cards in a saloon and afterwards fought fifteen rounds, Harkness being declared the winner. Both were badly punished. During the preparations for the fight the wildest excitement prevailed, and revolvers and knives were freely used. The principals in the fight have been secreted to avoid arrest. William Kelly and Michael Casey also fought on the same night twelve rounds, Kelly winning. Casey was knocked down seven times in succession, and both were severely punished. John Gallagher and one Meehan, well known young men, fought five rounds the other day on account of a young lady, Meehan winning. The young lady is reported to be prostrated.

A new use has been discovered for oyster shells. For years they have been used for the manufacture of lime as manure, for decorative purposes and in the preparation of a cheap imitation of marble; but it is now found that they cannot be better utilized than by being thrown in quantities into the sea, where they make the best foundation for new oyster beds. In July and August next many ship loads of these empty shells will be sunk by English and French oyster farmers in various places suitable for the purpose, and a few healthy living oysters will then be dropped upon the same spots Experiments have proved that under such conditions the bivalves will shortly multiply to an almost incredible extent, and in so brief a period as two years each empty shell will have from thirty to forty young oysters attached to it. The new generation can then be removed to make room for more, and fattened for market in specially constructed tanks.

The Great French Remedy, Dr. LeDuc's Periodical Pills.

For the cure of Leucorrhœa or White's Excessive of painful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagnia, Hysteria, Pain in the Back, or Piles, or for the puepose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very enfebled conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.

GAS COOKING STOVES.

WE have made arrangements with the best makers of Gas Stoves in the United States, which we will be able to supply the public, at the lowest possible price.

We have also agreed with the Gas Company (for the purpose of introducing these stoves), to sell the first fifteen (15) for which we may receive orders,

At their Net Cost,

LANDED HERE.

TESTIMONIALS.

The following are a few testimonials from a list of several hundred:—

The capacity of the Stove is surprising. With a No. 8 Stove we cooked for a party of seven, giving them broiled oysters, steak, lamb chops, and baked biscuit, in 45 minutes, at a cost for gas of 4½ cents. On another occasion we gave a dinner in courses of twenty men, the bill of fare as follows: Broiled shad, beef steak, roast quarter of lamb, baked biscuit and coffee; heating the water for washing the dishes four times, re-setting the table three times. All was accomplished in one hour and forty minutes, at an expense for gas of eleven cents. This work was all done on one No. 8 Stove. All were enthusiastic over the manner in which the oysters, fish and meats were cooked; none had experienced any so tender, juicy, and of such full flavor before. We consider the stove a great success, and most complete in all its parts and arrangements.

A. C. WOOD, Supt.

I bought one of your No. 12 Gas Cooking Stoves last September, for use in my restaurant, and have used it ever since for baking, broiling and stewing.

I can say for it that it is always ready and does its work rapidly; that there is no dust, no dirt, no surplus heat, as we are using only that portion that we need, and as soon as the article is cooked the gas is extinguished and there is no waste. I think it will do the same amount of work at less cost than coal, even at the high price of gas. It takes much less room than a coal range that would do the same work. I am perfectly satisfied with it and would not be without one for double the price.

J. T. HARKER.

The Gas Stove you sent me, I am glad to say has proved an entire success.

If my testimony is of any value to you, you are at liberty to use it. The decrease in the coal bill more than offsets the increase in the gas ditto. The cooking is excellent and uniform in its operation.

No dirt or dust irritates the careful housewife, and Mrs. S. describes it as a "real treasure."

In my humble opinion, any man who really wants to add to the number of allotted days of his better-half, had better invest in a Gas Stove and save her worry, and himself expense.

W. H. SEYMOUR.

We are perfectly delighted with our Gas Stove. It gives entire satisfaction in every respect.

MRS. M. PENNINGTON, 2103 Vine St.

Your favor of the 1st inst. was duly received asking my opinion of the Gas Cooking Stove bought last May, and in reply, would state that the satisfaction rendered by the stove was far beyond my expectations, and the work it will accomplish is marvelous, together with the small expense and comfort attending the same.

EDWIN A. GARETT.

Having used one of your No. 7 Gas Cooking Stoves for a considerable time past, it is with pleasure that I bear testimony to its genuine merits.

It boils, bakes, broils, roasts, and in fact, does everything that a first class stove or range can do, and with a saving of time and labor, that can only be appreciated by those who use them.

It has given us the most entire satisfaction, and to use my wife's words, "I would not be without it for ten times the cost."

From statements of our gas meter taken, we find it *more economical* than coal.

LORNE HIGHLAND WHISKY
ANALYTICAL SANITARY INSTITUTION
54, Holborn-viaduct, E.C., London, Aug. 8, '79
REPORT on the LORNE HIGHLAND WHISKEY:

"We have visited the bottling stores of Greenlees Brothers, and have selected from the vats, samples of their Lorne Highland Whisky, and have subjected them to careful examination and analysis. The samples were very fragrant, mellow, and of pleasant flavor, and possessed all the characteristics of pure and well-matured Scotch Whisky of the first quality."
