THE DAILY EXAMINER.

JULY 8, 1889.

Notes and Clippings.

—The crop prospects in Great Britain and Ireland are reported good.

—At the World's Sabbath School Convention in London a few days ago, it was decided to send a memorial to the different sovereigns asking them to exert their influence in favor of the proper observance of the Sabbath. After deciding upon this course, hearty cheers were given for Queen Victoria and President Harrison. Notwithsting all this cheering President Harrison will likely continue to go yachting on Sunday just as if the World's Convention never moved in the matter of the proper observance of the Sabbath. And the Convention will probably cheer for th President every opportunity !

—Moncton *Times* :—The day following Mr. Mercier's speech in Quebec, one of his organs, *La Patrie*, published statistics of the war strength of France and other countries, to show how France could help the province of Quebec. Mr. Mercier and his allies may overreach themselves in their desperate efforts to consolidate the French people against the English in the effort to keep themselves in power for the benefit of their Grit allies at Ottawa. The talk of Nationalists in Quebec a good deal resembles that of the Secessionists in Nova Scotia, and it will be dropped just as quickly after the elections, though the injury to the people may be more lasting. It is just possible that the French people will see through Mercier's little game.

—The *Northwestern Miller*, published at Minneapolis, Minn., says that last week the aggreate flour output was 115,000 barrels, against 109,800 barrels the previous week of last year. There will be quite a general shut down for the 4th, cutting a big slice out of the week's work. The wheat being ground at present, 475,000 to 500,000 bushels per week, is mostly coming from local elevators. Prices of flour have been advanced several times during the week to keep somewhere within the range of wheat, and while irregular, are 25c. to 50c. higher than a week ago. Jobbers hold light stocks of flour, and are buying fairly well for prompt shipment, but the movement is checked a good deal by the frequent raising of quotations. The available wheat is pretty much in the hands of a few strong holders, and millers, as a rule, feel firm as to values of flour. The direct exports of flour last week were 31,470 barrels, against 35,900 barrels for the preceding week.

"Prof. William Saunders, of the Central Experimental Farm, Ottawa, notwithstanding his arduous duties as director of the experimental farms of the Dominion, has found time to issue a second edition of his valuable work, entitled, "Insects Injurious to Fruits." Those of our people who enjoy the personal acquaintance of Prof. Saunders, will not require to be told of his abilities to impart information on that subject. The work is dedicated to the Fruit Growers of America, with an earnest hope that it may be of practical use to them in the warfare with destructive insects, in which they are constantly engaged. The Professor is a prominent member both of the 'Fruit Growers' Association of Ontario,' and the 'Entomological Society of Ontario," being secretary-treasurer of the latter. Having been over twenty years a student of the subject of entomology, and a practical fruit grower as well, he now gives the public the benefit thereof in plain, concise terms, avoiding all scientific terms as far as practicable.—*Farmers' Advocate, June, 1889.*

—Farmers, fruit growers and all interested in our agricultural resources, who can attend, should hear the Professor speak in this city as advertised, on Wednesday evening next, at 8 o'clock.

Western Agricultural Convention.

THE annual meeting of the Western Agricultural Association was held in the Market Hall at Summerside, this forenoon. In the absence of the President, James Ramsay, Esq., of Hamilton, occupied the chair. After the reading of the annual report, and the transaction of some routine business, the officers for the ensuing year were elected as follows :—

President—Hubert S. Wright, Searletown.

Vice-President—Walter Simpson, Bay View.

Sec.-Treas.—H. A. Stewart, Hamilton, (re-elected).

Executive Committee—A. Laird, R. H. Macdonald, S. R. Black, James Ramsay, William McNeill Simpson.

It was decided to hold the next meeting of the Association at Middleton, and a committee was appointed to make arrangements respecting the hall. It was also decided to make arrangements with the Three Rivers Dairymen's Association for the holding of a mass meeting in Charlottetown on the first night of the Provincial Exhibition.

Prof. Saunders will address the Convention this afternoon.

Supreme Court.

MONDAY, July 8.

The Queen vs. Robert Polley—Indictment for stealing from the person. The jury returned a verdict of "Guilty."

Edward Toombs and another vs. Thomas Dawson—Action for damage for non-delivery of possession of property on corner of Kent and Great George Street. F. L. Haszard and F. Peters for plaintiff; Davies, Q. C., for defendant.

Mr. Davies is now moving for a non-suit.

Personal.

The Young Men's Literary Association of Halifax will tender Archbishop O'Brien a reception this evening.

Messrs. Rogers, Davies, Sharp and Thomson returned from their fishing trip to the Restigouche on Saturday evening.

Hon. John Lefurgey and Mr. Daniel Stewart, of Summerside, left in the Princess of Wales this morning to attend a meeting of the Cotton Mill Company, of Moncton.

Rev. Benjamin Chappelle will arrive here on Thursday evening, on a short visit to his relatives and friends, and leaves on Monday morning next for Japan, taking the steamer from Vancouver, B. C., August 9.

The Halifax *Herald* says :—A letter from the Rev. D. M. Gordon, who is at present in London, England, says that he has much improved in health since his departure from Halifax—the reverend gentleman being much benefited by the trip across the Atlantic. He has every hope of a speedy recovery.

Police Court.

Alexander Davies, drunk and disorderly, $2 or 8 days.

John Brown vs. Dougald Bell, assault, $1 and costs.

Catherine McKinnon vs. Michael Kelly, disorderly conduct, $2 or 8 days.

Annie Doyle vs. William Doyle, assault, adjourned until Monday next.

Charles Palmer vs. Patrick Rooney and others, quoit playing, etc., in Hillsborough Square, summons dismissed. In this case His Honor gave judgment as follows : This case is brought before me on complaint as for a public nuisance on Hillsborough Square. The particular nuisance complained of being the playing of quoits thereon and damage to the grass by reason thereof.

It is well to understand that a Magistrate has no authority to adjudicate upon every case of nuisance brought before him. The Dominion Criminal Law gave him no summary jurisdiction thereon, and in my own case the only authority this Court has to inflict a penalty in cases of nuisance is under special power conferred on the Stipendiary Magistrate of the City by Provincial Statute and under the authority of the bye-laws enacted by virtue of powers conferred on the City Council by their Act of Incorporation.

As regards this particular class of nuisance the Statute being silent I am confined to the determination of whether any ordinance of the City has been broken by the defendants assuming such ordinance to be *intra vires*. Sec. XI of the "Bye-law to prevent nuisances," appears to be the only civic enactment in this particular. It is as follows : "Whoesoever shall course or coast upon any sled in any street, sidewalk or down any hill on the ice, snow or frozen ground, or be skating on the sidewalks, or play at football, or rolling of hoops, or throwing snowballs, or flying kites, or playing at quoits, or any other game that may molest or obstruct persons in the streets, squares, lanes or thoroughfares of the city, or on any of the wharves shall be subject to the penalties of this by-law."

This, as I interpret it, I am of opinion, is clearly within the powers of the civic authorities under their charter. It does not attempt to limit or prevent the full and free use and enjoyment of the streets or squares by citizens, but solely aims at preventing nuisances thereon. It is well clearly to understand that the Corporation, or any corporation, have no power to enact that a particular thing or act is a nuisance. It must, in fact, be so either by Common or Statute Law before such a body has any power to abate it or impose penalties to enforce its abatement. What is or what is not a nuisance in a city, depends upon a variety of circumstances, what would be such in one populous street would certainly not be such on one but little used. The argument pressed upon me by the prosecution, that if quoit playing is lawful upon a square, it must be equally so upon a public street, is a wholly untenable one, and opposed to all authority when the act or thing complained of is not *per se* a nuisance. I admit that nuisances *malum in se* are such irrespective of results or location, but it cannot surely be seriously contended that the lawful and healthful recreation of quoit playing is *malum in se*.

What are the facts here? In a portion of a public square removed from the line of travel, crossing no roadway or path, the game is played by citizens claiming their right to use this place for such amusement when not used or occupied by others. The evidence further showed that when the gentlemen who rather summarily sought to eject the players walked between the bobs, the play was stopped. Can playing a game in such a place be said to be productive of general inconvenience and discomfort, and prejudicial to the public rights of citizens? for it must be so before it can be termed a nuisance.

The by-law above quoted, giving me jurisdiction, is drawn, making the doing of certain acts (quoit playing among them) punishable as nuisances if they "molest or obstruct," and wisely so, for any legislation on the part of the Corporation making such acts nuisances, unless they molested or obstructed, would, as I have before stated, been beyond their power, and invalid.

These words, in my opinion, be admirably suited to the subject-matter of the clause, and are a concise definition of the Common Law in the matter of such games, lawful in themselves, but nuisances when they molest or obstruct citizens using the streets or squares.

There was no evidence before me of any such molestation or obstruction. Several witnesses testified to the quiet manner in which the game was played ; and several, on the other hand, objected to its being played on the square — one that the clicking of the quoits annoyed him, and others because children coming on the square to witness the game injured the trees—objections of a nature which might be made to any particular use of the square, such as the playing of a band therein. For these reasons, and I have set them out in full so that the judgment may not be mistaken, the summons in this case must be dismissed.

"The Science of Agriculture."

PROF. WM. SAUNDERS, F. R. S. C.,
