

THE DAILY EXAMINER.

LETTERS TO THE EDITOR.

NOVEMBER 10, 1894.

RESULT OF THE STATE ELECTIONS.

LATER ADVICES SHOW THAT THE REPUBLICAN VICTORY IN THE STATE IS MORE COMPLETE THAN EVEN THE REPUBLICANS HOPED.

On the other hand, the total gain of the Democrats was one representative elected to succeed a Republican in the state of South Carolina.

In the last Congress there were 127 Republicans, 219 Democrats, and 10 Populists in the House of Representatives; in the next there will be 221 Republicans, 121 Democrats, and 9 Populists.

The Senate now consists of 36 Republicans, 44 Democrats, 3 Populists, and 2 Silver Men. Judging by the result of the State elections, the division in the next Senate will be 42 Republicans, 41 Democrats, 3 Populists, and 2 Silver Men.

We note that the Patriot and the Guardian imply that the defeat of the Democrats was due to the fact that they did not fulfill their pledges in respect to Free Trade and that the Wilson Bill was mutilated.

It is much more reasonable to conclude that the McKinley tariff having been corrected according to the desire of the people expressed in 1892, the people have at the first opportunity, given their confidence to the old Protectionist party, under whom they enjoyed a long prosperity.

It has been declared by the author of the Wilson Bill that the Democratic leaders intended to move on in the direction of Free Trade; the Republican leaders stoutly opposed the extension of Free Trade; and the people, by an overwhelming majority elected Republicans.

It is much more probable that any tariff changes which may be made in the near future will be in the direction of additional protection.

However this may be, the people of Canada need have no fear concerning the results. The United States have done their worst in respect to a fiscal tariff, and Canada, under the administration of an able and careful Government, has prospered all the while.

ANOTHER LETTER FROM DR. KEL V.

Sir,—In Health Officer Johnson's letter of yesterday to The Examiner there are some references to me, which I cannot allow to pass unnoticed.

I reported the case to Dr. Johnson personally as diphtheria—with some doubts as to giving my reasons for same, namely, the condition of the throat, as well as other symptoms, gave undoubted appearance to me of diphtheria, but there being no cases of it in the city (at this time I did not hear of the case in the McKinley family) and the child not exposed to the disease in any way that I could then ascertain, and knowing that other diseases about throat resemble diphtheria very much at certain stages, I thought I might be mistaken, and before causing public excitement, considered it prudent to consult with the Health Officer.

When he visited the case for the first time he said, "I here is no doubt nature has been endeavoring to get rid of the membrane, and it has extended downwards." Dr. Johnson then gave orders to my family, as stated in my letter of Thursday.

He also asked me to give my report to him in writing, as "diphtheria, doubtless, is a very serious disease, and the Board of Health the reasons for such. I reported daily, sometimes twice a day, that the child was doing as well as could be expected under the circumstances.

On Friday morning at 11:30 o'clock the child improved very much it would not live twenty-four hours. He also asked me to give my report to him in writing, as "diphtheria, doubtless, is a very serious disease, and the Board of Health the reasons for such. I reported daily, sometimes twice a day, that the child was doing as well as could be expected under the circumstances.

REVISION COURTS—KINGS.

The Courts for the revision of the voters' lists for the Electoral District of Kings will be held at the following places and dates:—At Scott's Hall, West River, December 13th, for Lots 46 and 47; at the Court House, Souris East, December 14th, for Lots 45, 44, and all that part of Lot 43 North of 50 acres of land owned by Paul McPhee, 44 acres owned by John C. Underlay, and 500 acres owned by P. D. Fox.

TRUCK TEMPERANCE.

KEEP IT UP, BOYS.

Sir,—By all means encourage the controversy now going on between the registered doctors on the subject of diphtheria. By and by the public will know as much as themselves, and be able to get along without their services as well as their bills.

COURAGE.

[We hope that "Courage" will not soon get into the hands of the doctors.]

NEWS NOTES.

Alcohol from beets? Subsequent will yet be extracted from cucumbers.

Germany, through Emperor William replying to President Doda's official notification, has acknowledged and recognized the republic of Hawaii.

Mayor Garland, of Portage la Prairie announces that \$3,000,000 has been raised for the Hudson Bay Railway, and construction will begin at once.

The Chinese loan subscription list was closed in London at eleven a. m. Wednesday, five hours ahead of the appointed time. The whole amount of the loan was taken up in London alone.

A man in Baltimore man is studying the chickens language. There are some who understand pigese, English, but this is the first we have heard of anyone attempting to rule the roost in this way.

One hundred and seventy soldiers of the 18th Infantry, stationed at Glogau, Prussia, Siberia, are ill with symptoms of cholera. Several cases of illness of a choleraic nature have been reported at Jaechau.

During October, according to the called report of the Board of Trade, British imports increased by \$110,000,000 and exports by \$970,000. Commerce appears to be bestirring herself in her chiefest seat among the nations.

There were 835 ballots cast for the Prohibition candidate for the majority of the New York. It is not a bold venture to claim that there are more than this number of total abstainers among the half million voters of Gotham.

The Blake, the flagship of the British North Atlantic squadron, is to return to England early next spring, after an absence of three years. Her place will be taken by the Queen, now in Australia.

The Blake has not realized expectation. Her machinery gave trouble during her trials; has not worked as smoothly as it should while she has been in commission.

To repress drunkenness the Governor of St. Petersburg has just ordered that the names and addresses of all persons found intoxicated in the streets, regardless of rank or sex, shall be posted in certain public places in the city and also printed in the Official Gazette.

Wheat shipped from Winnipeg to Duluth cannot be brought back from the latter port to Canada, except in a Canadian vessel. Some discussion on the requirement of the law has recently arisen, and the statement has been made that it is based on an order-in-council.

This is an error. While article XXX of the treaty of Washington was in force, Canadian wheat could be brought to Canada from a United States port in a United States vessel. The United States, however, abrogated this section and a return to the old conditions followed.

Resets of both countries, it may be mentioned, are exactly on the same footing as respects the lost privilege, the concessions, which the United States stopped, having been mutual.

CHURCH SERVICES.

St. Paul's Church.—Holy Communion at 8 a. m. Morning Prayer at 11. Sunday School at 10. Bible Classes at 2.30 p. m. Evening Prayer at 7 o'clock. Strangers welcome.
