Testimonial from Duluth, Minnesota.

DEAR MRS. ROSS.—Having tested your "MAGIC HEALER," I wish to express my gratitude to you by this testimonial, which you can use, if you think it will assist you in selling it: Having cut my hand severely with a chisel, the corner of the chisel having entered the palm of my hand, making a long and deep cut, I applied your "MAGIC HEALER" at once, and after three applications I was able to go to work, and in three days the cut was healed up.

Yours truly,
ALONZO H. LAVERS.

Prince Edward Island.

ITS EXHIBITION BUILDINGS, RACE TRACK, HORSES, ETC.

(Correspondence of Horse and Stable.)

The view from the grand stand would be a study for an artist. A beautiful river almost washes the outmost boundary of the grounds on one side. On the opposite shore are delightfully-situated farm buildings peeping out from amongst sheltering pines of maple and evergreen. To the right of the stand in the distance is the Government Stock Farm with its buildings. Near the rear is the lunatic asylum, an elegant structure of which the Islanders are justly proud. The whole country, as far as the eye can reach, has the appearance of some old English park, every farm being rich in shade trees, hedges and small shelter. No wonder that Prince Edward Island is called the bright little Island and garden of the sea, for in no part of America, that I have yet seen—and I have been over a good bit of it—have I seen fields so green and vegetables so rich as in Prince Edward Island; and the wonder to me is that you folks do not make a rush for it during the hot spell of summer, and enjoy its cooling breezes and delightful scenery.

The Islanders are a horse loving people. They breed horses by the hundreds, and have done so for years. In fact, the Provinces of Nova Scotia and New Brunswick have drawn from the Island the greater part of the foundation stock, upon which they have bred up to their present good ones. This is the case in the matter not only of horses, but also of sheep, cattle and swine. In other words, Prince Edward Island has been in years past, as it is in a large measure to-day, the stock farm from which the sister provinces could make yearly drafts to improve their flocks, droves and herds.

While New Brunswick and Nova Scotia enter largely into mining, lumbering and such like undertakings, making farming a secondary consideration, "farming" stands out in bold relief on the Island as the work of the Islanders, and is fostered by the Government, as it should be, over all other industries. Hence it is that they are years and years ahead of us on the mainland in all that pertains to tilling the soil.

As to the stock show at the Exhibition, I can only say it was in keeping with the efforts of years to bring it up to its present condition. The youngsters in the draft class were unusually good, while the dray class, consisting of Clydes, Shires and Percherons, was meritorious. It is proverbial, from Halifax to Boston, that if you want a good horse there is no better place to find one than on the Island, but let me tell you something else: I believe they grow better looking girls than horses, and that is saying a lot; for among the 3000 people seated in the grand stand at least 40 per cent were ladies. Hence my deductions were from samples seen, and it is just what I like to see, for where the fair sex are out in force at our race meetings, they are better than a squad of police to keep order, for he is a ruffian indeed who would act even a little rude when surrounded by somebody's sisters, cousins and aunts, and he himself between his own best girl and her sister.

Crapaud Notes.

There is quite a boom just now in the shipping of farm produce, all of which has an upward tendency, but notwithstanding this the signs of the times are ominous because of the shortage in fodder for cattle; so much so, indeed, that many fine animals must necessarily be sacrificed, or rather disposed of at merely nominal prices.

There has been quite a lively time at the starch factory where many hands are employed, and over seven hundred tons of starch were manufactured up to this writing.

Mr. Joseph McNeill having retired from business, now occupies that handsome little cottage near the river, to enjoy the remainder of his appointed time in quiet reserve from the toils of life.

It would be well for all concerned if the telephone office at Victoria were kept more private than it is at present, and the door between it and the egg depot closed up,—this access to the office being too convenient for strangers to pop in as they please, particularly when messages are being transmitted.

Hallow E'en was celebrated by a bonfire of old hats, and quite a number of new hats were sported next day.

Thanksgiving was not specially observed, the business of every day life seeming to occupy the many, and few there were who had time to spare for His service who giveth more abundantly than we deserve.

FEATHERED SMELTS.—The Bathurst custom officers seized some boxes of partridges, the other day, marked smelts. They had been sent to the railway station by J. Miller, and were destined for the United States market. They were confiscated.

NEW MASONIC TEMPLE.—The cornerstone of the Masonic temple was laid in Charlottetown last week with impressive ceremonies of the Masonic order. The presence of the sublime princes of the Oriental consistory and of the members of the Scottish rite in full regalia and uniform made the display imposing. The land on which the structure will be erected is worth \$2,600,000. The building is to cost not less than \$2,000,000. These seventeenth and eighteenth storeys will be occupied by the Masonic lodges.

PUGILISTIC.—A Long Island city despatch says: Sheriff Goldnoe of Queens county will not permit the fight between George Godfrey, the Boston colored heavyweight, and Ed Smith of Denver to take place. They were to have fought to-night in the Puritan athletic club's new building for a purse of \$2,000 offered by the club. Warrants are out for the arrest of the pugilists if they appear in town.

LETTERS TO THE EDITOR.

The Land Office.

SIR,—Your editorial of the 10th inst. in the DAILY EXAMINER, re the Land Office, is right to the point, and the only fault I find with it is that it does not go far enough. The Pioneer and the other Grit organs, no doubt, are anxious to raise a prejudice against the Government because the Commissioner of Public Lands is endeavoring to collect the debts due that Department. The Pioneer refers to the thousand tenants who are now called on to pay the amounts they are owing to the Land Office, and says that they are "unfortunatetenants," thereby trying to create the impression that the persons in arrears are poor, struggling farmers.

But what are the facts? Who are the persons who have been keeping back the money they should have paid years ago? On looking over the list in the Royal Gazette, I find that many of the names are those of wealthy men. I find that the Hon. John Yeo, Leader of the Opposition party, is in arrears for 292 acres on Lot 9; James Yeo, Esq., M. P. for Prince County, is in the list for 486 acres on Lots 9, 10 and 11; Frederick Peters, M. P. for Fort Augustus, and William C. Hobbirk, are in arrears for 130 acres on Lot 10; William F. Yeo owes for 100 acres on Lot 10; James W. Richards, Esq., M. P. P. from Bideford, is mentioned as in arrears for 266½ acres on Lots 12 and 13; John Yeo, Thomas' son, owes for 118½ acres on Lot 13; James Bales, of Charlottetown, is in arrears for 50 acres on Lot 22; Benjamin Hertz and Richard Hertz for 193½ acres on Lots 22 and 67. Arthur Peters, Esq., (brother of Mr. F. Peters) of Charlottetown, for 129 acres on Lot 34. Charles Palmer, Esq., of Charlottetown, for 100 acres on Lot 35. James Guard, Esq., importer of English Shire horses, for 100 acres on Lot 48. I might go on and fill your columns with the names of wealthy men, men who have thousands at their command, who have neglected to fulfill their agreements with the Land Office. Now is this right or just? Should not the Government compel these persons to pay what they owe? And would it be anything like fair play to let them off with a smaller sum than their purchase money, when poor men, struggling to maintain their families, have paid the last dollar they owed the Land Office,—and now have to meet the mortgages they put on their farms to raise the money? The only fault that can be laid to the Government's charge, in this matter, is that they did not take this step long ago.

I understand that some of the lands in Prince County were taken up years ago, when shipbuilding was active; and that after the valuable timber on them was cut and carried off, the persons taking up these lands now refuse to pay the Government. Can the Pioneer say whether this is true or not?

The Bank of England has advanced its rate of discount from 5 per cent, to 6 per cent.

The establishment of the British protectorate over Zanzibar has been formally proclaimed.

It is proposed to introduce a bill in the Quebec Legislature to provide for compulsory vote.

Properties in Lower Horton, Nova Scotia, including Gasperaux, have nearly doubled in value in the last decade.

An explosion of the government powder mills at Tai-Ping-Fo, China, entirely demolished the buildings and killed 300 men.

A Port Arthur despatch says: The Canadian Pacific Railway Company's stock of fuel for the Western Division at Fort William is on fire for half its length. There are 85,000 tons and the loss is likely to be serious.

A Montreal despatch tells of the resignation of Mr. A. Boyer, who defeated Hon. Mr. Taillon in the late election in Jacques Cartier, Que. The cause is said to be the fact that Mr. Boyer was not taken into the Cabinet as promised.

Newfoundland's representatives left England on Tuesday, with the French shore difficulty far from being settled. A London rumor now has it that French will demand the cession of New Hebrides as the price of the abandonment of her rights in Newfoundland.

According to Dr. Alice Bennet, who recently read a paper on Bright's disease before the Pennsylvania State Medical Society, persons subject to bilious attacks and sick headaches, who have crawling sensations, like the flowing of water in the head, who are "tired all the time" and have unexplained attacks of sudden weakness, may well be suspected of dangerous tendencies in the direction of Bright's disease.

A heavy storm prevailed throughout Great Britain and Ireland on the 7th inst., and much damage has been done. The storm was especially severe off shore. Telegrams from various points along the coast state that a number of coasting vessels have been wrecked. Advertis from Belfast state that a report has been received there that a yacht has foundered in Belfast lough, and that its owner, a nobleman, was drowned. At Liverpool and vicinity the storm raged with terrific fury. The damage in that section is great.
