FASHIONS FOR CANADIANS

This cape coat is decidedly smart especially for motoring or travel wear, and if made of a rain-proof fabric would be charming for wet weather. The little overcape attached to the sleeves from neck to elbow, may also be attached at the wrist by means of the button and button-hole, or, if preferred, may be left free and flowing.

The coat would be very good looking if made of an English mixture, with a bright lining in the cape, or it might be made of plaid with plain color lining. The soft high collar is an attractive feature.

The shops are filled with splendid values in winter coats just now and spring wraps will soon be crowding these out of the limelight. Models featuring overcapes either attached or detachable, are much to the fore, and the conventional cape is also to be with us again, exceedingly attractive both as to fabric and style variety.

Cape Coat for Motoring or travelling.

Some of the best known American houses are bringing out some of the simplest models seen for a long time. Really they are merely straight sections of material gathered into a natural neck line and finished with a little band of fur or a soft scarf collar. The wonder seems, when one sees one of these simple capes worn, that designers ever try to bring out elaborate styles at all, when the simple severe things are so charming. However, fine fabrics must go into these simple things, and the most exquisite of workmanship.

In addition to the capes and cape coats with vests of contrasting color is one of the new notes. For example, a straight simple coat—cut to flare all around, giving the circular effect so much approved—made of a fine soft fabric in navy, had a vest running the entire length of the garment, wider at the hem than at the neck, made of light tan color and embroidered in navy and red. Band collar and cuffs were also of tan.

SOLDIERS BONUS IN U. S.—Passage of the soldiers' bonus bill would cost the United States government approximately \$2,300,000,000, Secretary of the Treasury Houston estimated before the Senate finance committee, considering the soldiers' aid measure. The treasury secretary professes to be "against a wall," as to methods of obtaining revenue to meet the outlay that would be required if the bill were enacted.

U. S. Wins World Championship

AUCKLAND, N. Z. Jan. 3.—Australia lost her tennis laurels here this afternoon to the challengers from the United States. The Davis Cup, the trophy emblematic of the world's team tennis championship changed hands when the last ball in the tenth game of the fourth set was driven out of the courts. Australia has won this cup six times, the British Isles have been triumphant on five occasions, while today's victory makes the fourth time the United States has won it.

Rallying after losing the first set of today's double match, Wm. T. Tilden, 2nd, of Philadelphia, and Wm. M. Johnston, of San Francisco, revealed the same tennis wizardry that gave them victory in the singles matches yesterday. Their opponents, Norman Brookes and Gerald Patterson, fought desperately to stem the tide of defeat but were outplayed clearly by the Yankees.

The match was a brilliant contest, an epic in the history of the game, played under a sky bright with the sun of southern summer. The challengers lost the first set 4 to 6, but took the three remaining sets, 6-4, 6-0 and 6-4.

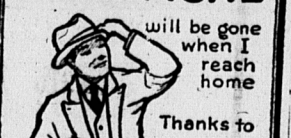

MANCHESTER STOPS CELEBRATION.—Influenced, no doubt, by public indignation aroused in Manchester, by the disclosure of the Sinn Fein plot to wreck the Stuart street power station, and other important properties, so as to bring the whole life of the city to a standstill, the police authorities, after consultation with the home office, decided to prohibit the holding of the various Irish and Sinn Fein demonstrations arranged for the celebration of the anniversary of the "Manchester Martyrs." The "Manchester Martyrs" were Allen, Larking and O'Brien, who were executed after an attack on a prison van many years ago.
