BIG 3 MAKE NO PROGRESS ON ARMS STANDARDIZATION

Federal Gov't Bans Butter Imports By Private Trade

Will Continue Present Calibre System In Rifles

Contracts At Ch'town Airport And Ordnance Compound Are Awarded

A contract for the placing of approximately one and a half miles of drains at the Charlottetown Airport, has been awarded to the County Construction Co., Ltd., of Charlottetown, by the Department of Transport.

The contract also calls for the removing of a considerable quantity of the old drains and the construction of a number of catchbasins and manholes.

This work has already commenced and will help the local employment situation.

A contract for the rehabilitation of the exterior of the various buildings at the Ordnance Compound, Victoria Park, Charlottetown, has also been let to the County Construction Co., by the Department of National Defence.

A number of carpenters are now working on this project and the outward appearance of the buildings will be very attractive when the job is completed.

Reds Reminded Of Allied Air, Sea Might

By STAN CARTER
U. N. ADVANCE HEADQUARTERS, Korea, Aug. 4.—(Saturday)—(AP)—Deadlocked Allied and Communist armistice negotiators headed today for their 19th session at Kaesong, scheduled for 11 a.m. (9 p.m. EDT Friday).

The Reds were left at Friday's inconclusive session with this pointed reminder:

In their insistence on the 28th parallel as a demarcation line, the Reds are dealing with only one of three points; the Allied and naval fronts extend over most of North Korea, and the Allies are entitled to some compensation for this in fixing a buffer zone.

The Peiping radio said earlier today that Lt.-Gen. Nam Il, the chief Red delegate rejected "any argument which boasts of the effects of frenzied bombardment by naval and air forces."

(In Washington, Allied officials were reported determined to continue the truce talks just as long as the Communists are willing. Informed sources said Gen. Matthew Ridgway and top Washington officials agree on the need for patience and persistence in dealing with the Chinese and Korean Reds.)

(Reuters News Agency quoted an American military spokesman as saying that Ridgway Friday night rejected outright Communist demands for a buffer zone along the 38th parallel. Ridgway will call a peace talk showdown shortly, the spokesman said.)

"The next few days will decide whether the war is going to stop on our own terms or continue on a far more savage and bitter scale," the spokesman added.

Cordial Island Welcome Is Tendered To Chieftain Of The MacLeod Clan

Chief Flora MacLeod of MacLeod

"I am honoured to bid you welcome to our City, and to our hearts. And not alone do we welcome you, gracious lady, we welcome too, that tradition of nobility of all that is oldest and best in Scottish history, which is so dear to very many of the people of this Island, for in very few of us does there not run through our veins some drops of Scottish blood."

Thus spoke His Worship Mayor B. Earle MacDonald in an informal but moving reception to Flora, Mrs. MacLeod of MacLeod, chief of the Clan, in front of the City Building last night.

A large crowd was on hand to greet the distinguished party which included Chief Flora's daughter, Mrs. J. Wolrige-Gordon, and her twin grandsons, John MacLeod of MacLeod, the eldest twin by 40 minutes and heir to the clan chieftainship, and Patrick Wolrige-Gordon.

Chief Flora and party were met at Moncton by Mr. Wendall Beaton, President of the Caledonian Club and a member of the City Council. They arrived by Maritime Central Airways plane.

In his brief welcome, Mayor MacDonald said, "The MacLeods play and have played a very prominent part in the life of this City and Province, and I know you will personally meet many of them during your short stay in our midst. I understand that you are the guest of the son of one of the greatest clansmen of the name who, through his life time did much to keep alive traditions of the MacLeods of Dunvegan."

His Worship recalled the ancient derivation of Chief Flora's name. "We have heard of how Lord, son of Olaf the Black, King of Man, acquired your ancient castle of Dunvegan by marrying the heiress of MacRait," he said, "and how, through one of his sons, Tormod, a great inheritance of land and your castle were passed down through many generations of the line of Chieftains, until it is now the home of you, Chief Flora."

"As you know, I am a MacDonald, and your fathers and mine have met on many a field, but now the children of Dunvegan and Dunuluam dwell in peace, not only in the Isle of Skye but in all the wide-countries of the world where the Scottish race is found."

Chief Flora was then presented with a bouquet of roses by City Clerk James A. Fullerton, and fittingly and graciously replied to the Mayor's words of welcome. She expressed her pleasure at the opportunity of visiting Prince Edward Island and smilingly agreed that the MacLeods and MacDonalds, on time deadly foes, were now only dwelling now in peace, but freely intermarrying as well.

Piper Major Albert MacLeod and Piper Harold Saunders played "The Road to the Isles" while the distinguished guest and party signed the visitors' book. They were later piped to the Charlottetown where a reception and dinner was held.

Gardiner Tells Of Plans At Press Conference

OTTAWA, Aug. 3.—(CP)—The government today banned butter imports by private trade and appointed itself sole importing agent with power to buy up to 20,000,000 pounds to avert a possible butter shortage next winter.

It also held out the hope that it may indirectly and temporarily boost the 58-cent-a-pound floor price on butter to entice a few thousand pounds into empty government storehouses.

Agriculture Minister Gardiner told a press conference that a newly-created Agricultural Products Board has been given authority to import 10,000,000 pounds from butter countries at prices to be negotiated.

In addition, it has been given power to obtain options on another 10,000,000 pounds to be purchased in the event that butter production in Canada falls below current estimates.

The National Dairy Council spokesman for the Canadian Dairy Council, expressed gratitude with which Mr. Gardiner had dealt with the problem. W. K. St. John, council secretary, said in an interview that the council had made representations on the possible shortage several weeks ago.

Will Control Price

Mr. Gardiner said the government's butter plan will act as a price control. The butter accumulated by the government, plus storage charges, on the understanding that the butter will be sold to consumers at only a small, fixed margin of profit.

Similar steps were taken last year, but the government's stocks of some 38,000,000 pounds ran out before the winter ended and for a few weeks retail butter prices rose by 15 and 20 cents a pound.

Mr. Gardiner disclosed that Canada is trying to obtain butter from a variety of sources, including New Zealand, Australia and the Netherlands.

Funds to cover payment for the imports, said Mr. Gardiner, likely will be voted by Parliament at the next session opening Oct. 9.

Butter production in Canada now is running about 9,000,000 pounds lower than a year ago.

The new board, created by cabinet this week, replaces three obsolete boards which now go out of existence. They are the Agriculture Department's boards dealing with dairy products, meat and special products. All problems considered by these boards now will be handled by the new organization.

WASHINGTON, Aug. 3.—(AP)—The four-power conference on arms standardization wound up today with unanimous agreement that nothing could be done now but that "as early as practicable" another effort should be made to agree on a standard calibre of rifle ammunition for all North Atlantic Treaty countries.

A statement issued at the end of a two-day conference of representatives of the United States, Britain, France and Canada said: "Co-operation between the countries, particularly relating to the rifle and its rounds (ammunition) were discussed in detail. The requirements of the rifle and other weapons were re-examined and the characteristics of the various types were considered."

"It was unanimously agreed that any decision on the adoption of a new round of small arms ammunition would not affect the immediate situation, and that, in order to permit the arming of N.A.T.O. (North Atlantic Treaty Organization)

- "The advertisement in yesterday's issue with regard to a dance at the Clover Club on Thursday sponsored by the Kingston Branch of the Canadian Legion was inserted by the Guardian in error.

Urges Island Kinsfolk To Form Clan MacLeod Society

Hope that her kinsfolk in Prince Edward Island would join together in a Clan MacLeod Society, or join the parent society in Edinburgh, in order to strengthen the ties which bind all MacLeods together, was voiced last night by Mrs. Flora MacLeod of MacLeod, Clan chieftain, at a dinner tendered in her honour last night by the Caledonia Club.

Unlike other Scottish clans which are not so fortunate in having an ancient castle to draw them together, the MacLeods have Dunvegan Castle, perched on a rocky cliff on the misty Isle of Skye, which has been the ancestral castle perched on its rock, here in the changing world is something that has stood fast; one of the reasons why the MacLeods all over the world are such a great family."

Warmly Welcomed

Many loyal MacLeods from far and near gathered to greet their beloved chieftain when she arrived here last night.

After a civic welcome at the City Hall, Mrs. MacLeod, with her daughter, Mrs. Wolrige-Gordon, and her grandsons, John, heir to

Urges Island Kinsfolk To Form Clan MacLeod Society

the chieftainship and Patrick Wolrige-Gordon, proceeded to the Charlottetown, to the skirl of the pipes.

At a dinner in her honour, President Wendall Beaton of the Caledonia Club introduced Chief Flora as "an ambassador of good will" and Murdoch MacLeod welcomed her on behalf of all the MacLeods, remarking that even as Prince Edward Island is "The Island" of the western Hebrides, he referred to the traditional MacLeod hospitality extended to every MacLeod when visiting Skye, and described his own visit to Dunvegan castle, the ancestral seat of the MacLeod clan.

Mrs. MacLeod thanked her clansmen for their welcome, and spoke of the Island as being unique in its rich beauty.

She said that she had found "the kindest hearts and the loveliest of welcomes" in Canada, and touched the hearts of her clansmen when she introduced the heir to the MacLeod chieftainship, her grandson John MacLeod, and exclaimed her pleasure that when the position, he would find so many friends in Canada.

According to their grandmother, Patrick and John "have already

Dept. Store Sales Higher This Year

OTTAWA, Aug. 3.—(CP)—Sales by department stores during the first six months of the year have been nine per cent higher than in the corresponding period of 1950, the Bureau of Statistics reported today.

The increase was registered despite a declining trend. June sales were up only slightly from a year ago.

June sales for all Canada were valued at \$69,530,000, compared with \$69,170,000 a year earlier. The six-month total was \$410,590,000 this year against \$377,490,000 last year.

90 West Point Cadets Cashiered For Cheating

WASHINGTON, Aug. 3.—(AP)—Ninety West Point cadets, including football stars and other athletes, have been fired for cheating on exams in a scandal which probably will wreck the U. S. Army's powerful gridiron team.

The mass dismissals, announced by the army today, were the result of the discovery of details of the misconduct of its student officers. Byrd reported, however, that Collins said the cheating had been going on for four or five years.

It was reported that the same questions were used for exams given at different times. Men who took them first passed the questions on to cadets scheduled to take later exams.

There will still be football at West Point this fall. Army sources said Maj.-Gen. Frederick Irving, the academy's superintendent, has promised that the team will play out its schedule even if West Point were to lose every game 100-0.

Collins was said to have blamed an over-emphasis on football for the unexpected breakdown in the academy's honor system. Byrd quoted him as saying that the cheating started among the football players, who found it difficult to keep up with their work while spending so much time practising.

West Point has an enrollment of 2,530 cadets.

21-Gun Salute For Queen At Toronto

TORONTO, Aug. 3.—(CP)—A 21-gun salute will be fired in Queen's Park tomorrow in honor of Queen Elizabeth's birthday, it was announced today. The guns will fire in succession at 10-second intervals beginning at noon.

N.A.T.O. To Meet In Ottawa Sept. 15

OTTAWA, Aug. 3.—(CP)—The Council of the North Atlantic Treaty Organization, composed of cabinet ministers from 12 countries, will meet here Sept. 15, it was announced today.

The long-awaited announcement here and in London gave Canada's Capital six weeks to prepare for its most important international gathering in years.

At the meeting and late-October sequel in Rome, the pact's body is expected to make vital decisions to broaden and bolster Western armed might by adding Greek, Turkish and possibly German strength and by making greater demands on the current 12 member nations.

The sessions will be held in the Parliament Buildings Saturday, Sept. 15 and will last about a week.

Royal Couple To Visit U. S.

LONDON, Aug. 3.—(AP)—Princess Elizabeth and the Duke of Edinburgh announced today they will be guests of President and Mrs. Truman in Washington Oct. 24-26. Mrs. Truman expected that their brief American visit may take in New York.

(In Ottawa, it was learned that the royal couple likely will interrupt their visit to Canada to make the side trip to the U. S. They are not expected to have finished by Oct. 24 their Canadian tour scheduled to start at Quebec City Sept. 30.)

Rookie Constable On Murder Charge

MONTREAL, Aug. 3.—(CP)—Bertrand Bergeron, 24-year-old rookie constable in suburban Outremont, today was charged with murdering a woman.

A coroner's jury earlier found him criminally responsible for the fatal shooting Thursday of Anna Czechowski, 23, mother of a seven-month-old child, in an apartment she and Bergeron rented a week ago.

Bergeron went as Judge Eugene Lafontaine set Aug. 9 as the date for his preliminary hearing.

At the coroner's inquest, Mrs. Czechowski's husband testified his wife had been missing from home for about a week. Other testimony was that Bergeron and Mrs. Czechowski, an attractive blonde, lived together in the east-end apartment for about a week.

N.S. Man Burned To Death In Truck

KENTVILLE, N. S., Aug. 3.—(CP)—John Ellsworth West, 47, of Morris-town, N.S., died in his flaming truck today while spectators stood by, unaware anyone was in the vehicle.

West's truck rolled over while making a turn near Coldbrook, a village five miles west of here. Villagers heard the crash but found the truck engulfed in flames on arrival at the scene.

The body was found after the fire went out.

The victim's dog miraculously escaped unharmed from the inferno. It was not known tonight if an inquest would be held.

Will Contest Validity Of Mayoralty Election Order

The challenge to his right to remain in civic office until sworn as a member of the Legislative Assembly to which he was elected last May will be contested in the Supreme Court, Mayor B. Earle MacDonald informed The Guardian yesterday.

The writ commencing Court proceedings, issued on Aug. 1, requires the holding of an election for Mayor on the ground that the office automatically became vacant after Mr. MacDonald's election to the Legislature had been declared by the returning officer.

The Mayoralty election would follow in the event of judgment going by default. By contesting the issue the Mayor and Council will be asking the Court to first give a ruling as to the interpretation of Section 6 of the City Act of Incorporation disqualifying a Mayor or Councillor from membership in the Legislature. It is Mr. MacDonald's contention that he is not actually a member until the customary oath of allegiance is administered.

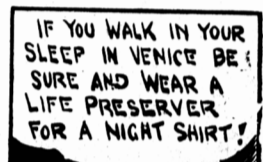

This will not take place until the next session of the Legislature, unless in the meantime he is sworn in as a member of the Government.

It would seem that the Mayor and Council have until September 18 to enter an appearance against the Court order. Further time will be required for filing a defense, reply and other pleadings before the case can come to trial.

This delay is due to the fact that August is vacation month for the Courts. The writ having appeared on August 1, it would appear that the case will go to trial to have the same effect as if issued on August 31. There would then be eight days from that date in ordinary cases, and an additional ten days where the defendant is a corporation, before it is necessary to enter an appearance in the matter.

In case of default by the defendant, the plaintiff—Mr. M. Alban Farmer on whose application the writ was issued—would be entitled to have the Court make a judgment or order requiring the Council to fix a day for the by-election and the City Clerk to give the necessary public notice.

Mayor MacDonald was elected a Liberal representative for the Fifth District of Queen's at the last general provincial election and was declared duly elected on May 4 last.

IF YOU WALK IN YOUR SLEEP IN VENICE BE SURE AND WEAR A LIFE PRESERVER FOR A NIGHT SHIRT!

HALIFAX, Aug. 3.—(CP)—Official forecasts issued by the Dominion Public Weather Office and valid until midnight tomorrow.

Synopsis: The weather is still fine over most of the Maritimes this evening but the clouds are beginning to thicken. There have been showers and thunderstorms in Quebec, caused by a disturbance moving eastward across that province. The showers will move south-eastward across the Maritimes tonight and Saturday morning, followed by generally cloudy weather and somewhat lower temperatures. An area of high pressure is approaching from the Prairies, and will be over this district Sunday, giving fine weather.

Regional forecasts valid until midnight Saturday with an outlook for Sunday:

Prince Edward Island—cloudy with showers during the night. Saturday cloudy with a few clear intervals. Cooler Saturday. South-west winds 15 during the night, northwest 15 Saturday. Low early Saturday morning and high in the afternoon at Charlottetown 60 and 68.

Outlook for Sunday—sunny.

High tide today at 12.25 A. M. and 11.24 A. M.

Sun rises at 5.00 A. M. and sets at 7.36 P. M.

Poles Escape To Sweden In Bullet-Scarred Plane

STOCKHOLM, Aug. 23.—(AP)—A rattler Polish plane, scarred by bullets, limped across the Baltic to a landing in Southern Sweden early today with four young Poles who said they were fed up with Communism. They asked asylum as political refugees.

The four—three youths and a girl of 20—escaped the plane from an airport near Poznan, a plane of a gunfight with Polish military guards who sought to stop them and of pursuit by a Polish warplane which they finally eluded in clouds near the Baltic.

They came down about dawn near Malmoe, Sweden.

The latest of many who have fled since the Communists consolidated control over Poland's Government, they landed less than 24 hours after a Polish navy minesweeper seized by mutineers put into the Swedish port of Ystad, 40 miles southeast of Malmoe, a dozen of the sailors have chosen to remain in Sweden.

Hints of unrest and the urge of these Poles to get out of Iron Cur-

tain territory created speculation concerning a recent statement by Premier Tito of Yugoslavia that a revolt is under way in Poland.

Poland since has placed nine high-ranking army officers on trial for treason. They are accused of spying, committing sabotage and plotting to overthrow the government with British and American help. A 10th officer, Lt.-Gen. Marian Jarek-Spychalski, a former vice-minister of defence, is under arrest.

Despite the makeshift nature of their escape craft and riddled landing gear, the four Poles landed perfectly in Sweden. Police cars whisked them to a camp for political refugees.

Police said the plane bore markings indicating it belonged to an aviation club at Poznan, a city of 265,000 about 180 miles west of Warsaw and 260 miles southeast of Malmoe.

The engine is Polish-made with an American carburetor. The wheels are from a German Messerschmitt. Several other parts are of Swiss origin.
