

QUEEN'S COUNTY GUARDIAN

Head Offices in New Prowse Block—Charlottetown.

THAT vacant room is a desirable one. It is unprofitable. A few lines in the Classified Columns of The Guardian will rent it.

ARTHUR G. AND Mrs. PEAKS leave shortly on a visit to New York, the home of Mrs. Peak's two sisters, Mrs. Williams and Mrs. Hollis.

PRINCIPAL FRASER in his report of the Halifax School for the Deaf and Dumb, states the total attendance for the year was 110, of whom 87 belonged to Nova Scotia, 9 to Newfoundland, 8 to New Brunswick and 6 to P. E. Island.

This is copied from the Halifax Chronicle "An Ottawa paper says—Comm. P. E. Island and was out of again recently when the two Government steamers a week in the ice. In this part of the country we can hardly imagine the inconvenience that that must cause the people of Cape Breton. If the P. E. I. m. l. s. do not descend upon the editor of the benighted journal and give him a few pointers in geography of THE Island, we don't know them. Cape Breton indeed!

The latest Boston Post to hand contains an illustration of the S. S. Stanley in the ice in the Northumberland Straits. Accompanying the picture is the following story: "Icebound on March 1, three miles off Pictou Island, and in imminent danger of being crushed by the great masses of ice, the steamship Stanley, in the winter service between Pictou and Georgetown, P. E. I. was for several days in a deplorable plight. On the day in question the danger from the grinding floes increased to such a point that at 1.30 in the afternoon all hands were ordered from the ship. There was a lively scramble to safety as shock after shock made the staunch vessel quiver, and in their haste three men of the Jeremiah McAllister stock company of Lynn fell into the water and were rescued with difficulty. Over the ever moving floes a crew and passengers including several women, walked until Pictou was reached. For the next ten days they were forced to stay there. James B. Grandberry, in a letter from Glass Bay, vividly describes the experiences of the fortnight.

The remains of the late Mrs. F. Davidson who died at her home, Montague (P. E. I.) about three weeks ago, arrived at St. John's this morning on their way to Gt. St. John's for interment at Sunny Bank. The train from Pictou missed connection at St. John's this morning, and the remains, which were expected on the 9 o'clock train this morning will not arrive until tonight. Rev. F. D. Davidson having died within the past few months, the circumstances surrounding the death of Mrs. Davidson are indeed very sad. The remains, accompanied by the deceased's son, left Prince Edward Island nearly three weeks ago, but on account of the running ice they were unable to reach the mainland until yesterday, landing at Pictou too late for connections. Mrs. Davidson was the wife of the late Rev. F. D. Davidson, many years pastor of the Broadway United Baptist church at Gt. St. John. Mr. Davidson died last December. His remains were also brought to Gt. St. John, on which occasion almost the same difficulty was met with. Besides Rev. Mr. Davidson there are three children buried at Sunny Bank: The late Mrs. Davidson leaves six children—two sons and four daughters, to mourn their sad loss. The funeral will likely be held tomorrow morning from the Broadway Baptist church. The remains will be laid alongside those of her late husband, Rev. D. H. Simpson will conduct the services. —Frederick Gleason.

The Deputy Minister of Agriculture for New Brunswick gives a description of the Gypsy and Brown Tailed Moths in this issue. The pest is said to be rapidly approaching the borders of the Maritime Provinces. In fact, some specimens have already been found in one or more points in New Brunswick. Every farmer and school boy and girl should be able to distinguish these pests if they appear so that steps could be taken to keep them in check. The mature caterpillar of the Gypsy moth has a dusky or sooty colored body. Along the back, counting from the head, which is marked with yellow, is a double row of blue spots, followed by a double row of red spots. This double row of spots almost invariably may be seen very distinctly on the back of a Gypsy moth caterpillar which has attained a length of one and a half inches or more. There are five pairs of blue spots and six pairs of red spots. Until the caterpillar grows to the length of one and a half inches, however, it does not always show these pairs of spots very distinctly. The mature caterpillar is not infrequently attained a length of three inches. This caterpillar attacks all kinds of trees, both hard and soft woods and if allowed to get a foothold will not only cause great damage to fruit growers, but may cause great damage to the lumbering industry. It is to be hoped that if any reader of The Guardian happens to discover a specimen of this objectionable visitor, the fact will be promptly reported.

WILLIAM B. HICKEY, Prince Edward Island, was in Moncton last week.

The Minto arrived at Georgetown Saturday at 10.3 a.m. and the Stanley got to Pictou at 10.50 a.m.

Miss GERTRUDE HENRIAN returned to Georgetown Saturday from a visit to her brother in New Glasgow N. S.

FRANCY CORTON of Wellington, who has been ill at King's College, Windsor returned home on Saturday being obliged to give up his studies for the present.

The Murry Harbour train reached the city Saturday morning shortly before 11 o'clock and was the first train to reach the city from Murray Harbor since Tuesday.

VENERABLE Archdeacon and Mrs. KAULBOCH, Truro, who have been on a visit to the West Indies, sail from Hamilton, Bermuda, on April 1st, for Halifax. The Archdeacon's health is greatly improved. He has many friends in this Province.

The death occurred at Georgetown on Saturday morning of William Dalziel, aged 81 years, a respected resident of that town. He had been ill for a long time. He leaves two daughters, Mrs. Harry Jenkin of Georgetown, and Miss Jessie Dalziel at home, and one son, John Dalziel of the P. E. I. R., Charlottetown. The funeral takes place today at 2 p.m.

The funeral of the late Cyrus Farquharson of Lot 48, was largely attended. The pall-bearers were Bert Mutch, Leslie MacCallum, H. B. MacLean, James Wood, Fred Carver and Wm. Condy. He was a son of the late George Farquharson and leaves to mourn two sisters, Ada Jane and May, both at home, and two brothers, Seymour at home, and Wallace in the Canadian West. His death at the regrettable early age of 20 years will be mourned with sorrow by many friends.

The following have been appointed delegates for Queen's County to the Provincial Convention of the Boards of Trade of this Province to be held in Charlottetown on Tuesday next to discuss Freight and Passenger Rates Over all Railroads and Steamboats owned by the Federal Government, as well as all subsidized Steamboats: Horace Hazard, N. Robertson, G. E. Full, Hon. G. E. Hughes, S. W. Crabbe, W. H. Aitken, with President W. F. Tidmarsh, a member ex officio.

P. E. Island Foresters will be interested to know that Ornyatekha's will shows that the great chief of the Independent Order of Foresters left behind him an estate valued only at \$75,000. On this \$10,000 is life insurance. The remaining \$65,000 would be easily represented by the investment of savings on his salary. It seems not to have occurred to him that the immense moneys of the Foresters were anything but trust funds. If it had, the opportunity for amassing an immense fortune lay ready to his hand.

SAUNDERS & NEWSOM on Saturday weighed an exceptionally fine lot of cattle, he scales showing the different weights as follows: 1 steer, 1800 lbs, 1 steer, 1220 lbs, and 1 heifer, 1180, fed by Saunders & Newsom; 1 steer, 1195, 1 heifer, 1170, 1 heifer, 1090, 1 heifer, 1125, fed by Frank Bell, Royal; 1 steer, 1040, fed by Jas. Simpson, Bay View; 1 steer, 1016, fed by W. W. Crosby, West River. All were thoroughbred shorthorns and no doubt the finest lot of cattle this firm has brought to Charlottetown. They will be slaughtered for Easter market. The heavy steer, 1850 lbs, was bred by Matthew Smith, the celebrated stock man of Hampton.

LUDLOW JENKINS, manager of the Hazel Brook Dairying factory for the past two years, has been re-engaged for another year. The last year has been one of the most successful, since the inauguration of the factory, the patrons receiving on an average 9 1/2 cents per hundred pounds of milk for the season, after paying all expenses, which were exceptionally high during the past season, owing to extensive repairs having to be made and new vats installed. The company instead of paying a dividend directly to the shareholders during the past few years, have retained the dividend to pay off the mortgage on the plant. The liabilities of the company are reduced to the small sum of \$300. John Smith, president; Charles Myers, vice-president; James Monaghan, treasurer; A. M. McRae, L. McCabe, A. D. Burhoe and Henry Jones.
