

Our Birthday

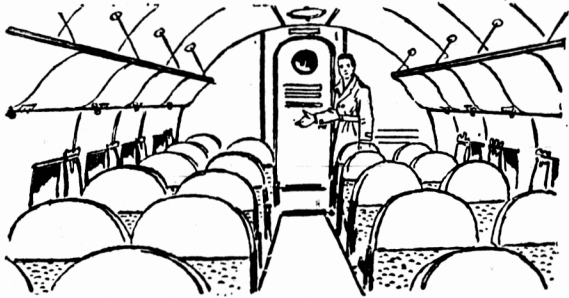

Celebrating 10 Years of Upward Progress

in Serving the Maritimes

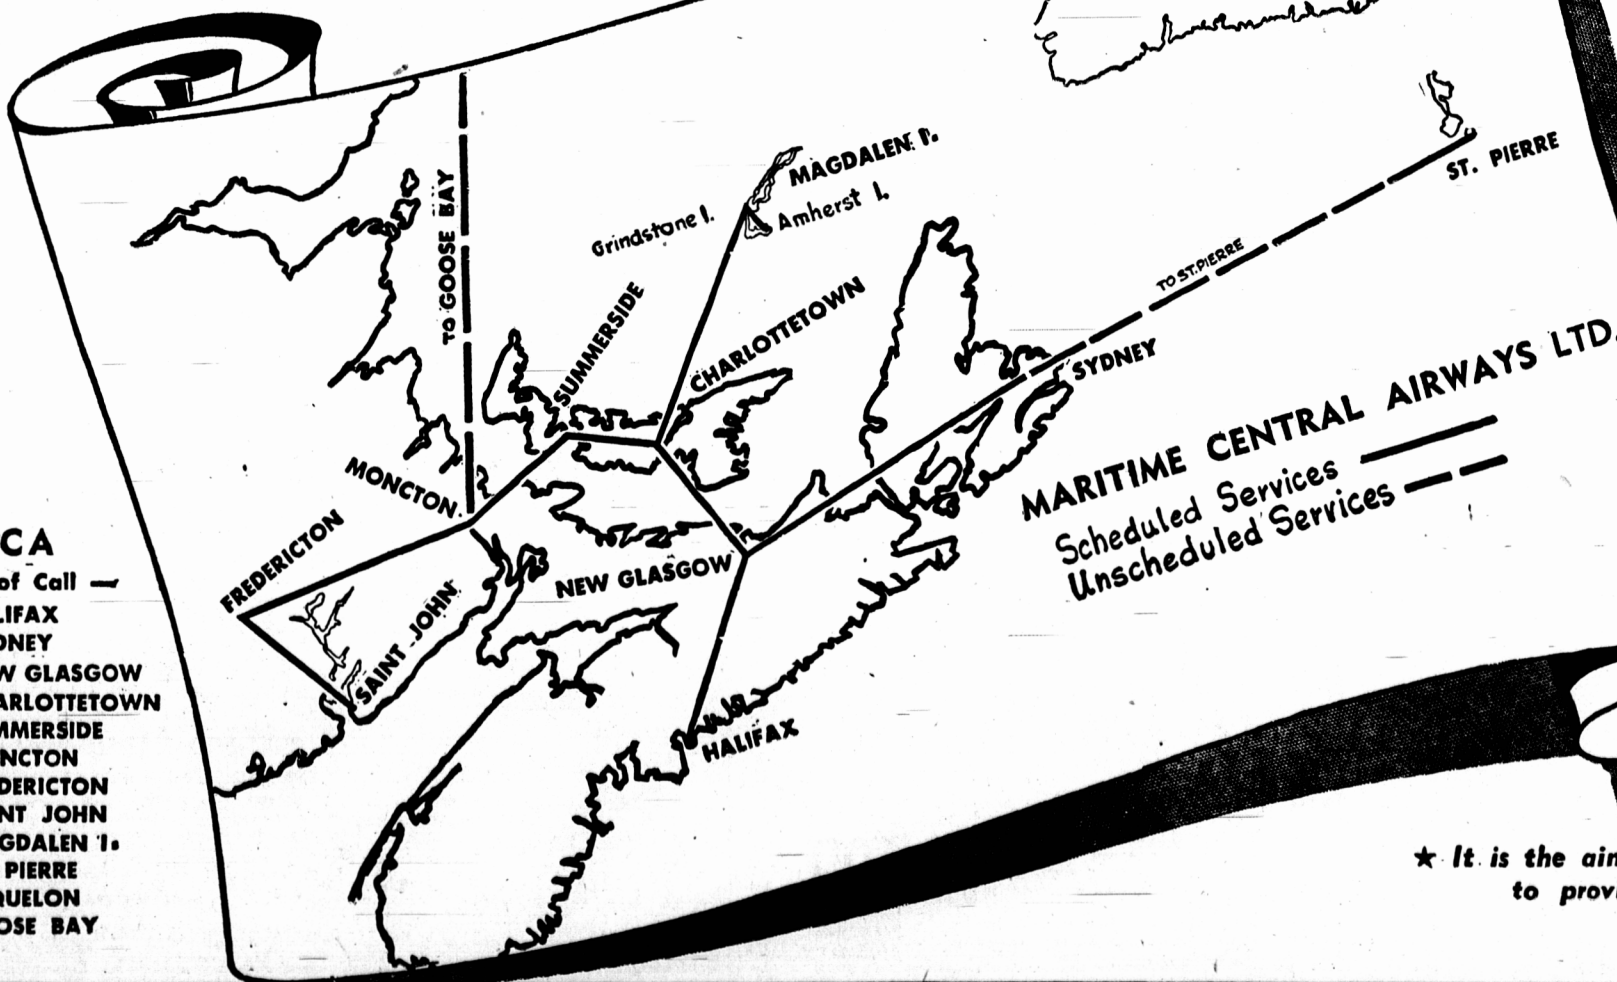

MARITIME CENTRAL AIRWAYS this week marks its tenth anniversary in the service of the public, the government and the business world.

Starting ten years ago with one line between Charlottetown, Summerside, Moncton and Saint John, Maritime Central Airways has grown and enlarged its operational flights to regular service between Eastern New Brunswick, Prince Edward Island, Magdalen Islands, Central and Eastern Nova Scotia, and St. Pierre, Miquelon. During this period the amount and quality of equipment has been constantly expanded in keeping with advances in aircraft engineering and steadily increasing traffic. Today MCA is an integral part of the recognized airlines system of this continent, and has established itself as one of the dependable air services which passengers and shippers alike patronize with complete confidence.

For this, and the fine support which you, the good people of the Maritimes, have accorded us during our ten-year career, we take this opportunity to say a sincere "Thank You". What Maritime Central has achieved is due in great measure to you . . . and to your appreciation of our constant efforts to give the Maritimes a convenient, efficient, ably-staffed, and well-equipped air service. To our personnel, we also take this occasion to publicly express our grateful appreciation for their constant loyalty and co-operation which has done so much to make us all proud of MCA.
