A CHANGE OF A ...LIFETIME

To secure one of the finest properties in P. E. I.

This farm contains 130 acres of excellent land, 80 acres cleared and in prime condition. There is a fine belt of hard and soft wood (which is very valuable, now that coal is so high) oyster mud within a few rods of the shore, abundance of marsh mud, well watered, two mills near the house, good buildings, basement stable, 6 miles from town, one mile from Pownal village, school next the farm, three churches within a radius of 1 1/2 miles, cheese and butter factory in rear of farm, a large and heavy bearing orchard of best varieties of apples and plum trees, raspberries, strawberries, etc. For location and beauty of scenery this property is unsurpassed by any on the Island. It is a daisy of a place, but there is not a daisy on it. Only reason for selling—going into business in the Northwest with my sons. Sold with or without crop, stock, and implements. Terms on application to my solicitor, A. A. McLean, Barrister, Charlottetown, or to the owner,
A. A. MOORE.

EDUCATIONAL COLUMN.

Edited by Inspector M'Cormac.

NUGGETS.

I. During the month of October no Educational Column appeared for two reasons: 1st, a general election was on and the newspapers wishing to devote extra space to the discussion of political topics little or no space was left for educational items; 2nd, the schools were closed for fall vacation and consequently both teachers and taught were enjoying a rest from school work.

II. Last month the Editor of this Column had the pleasure of visiting many educational institutions in the neighboring provinces as well as in the Eastern states. The information gleaned during those visits will be given in the near future through those columns.

III. Teachers should bear in mind that Inspector M'Cormac offers for competition among the schools of his inspectorate 30 neatly gotten up diplomas for copybook penmanship. Competition closes June 15th, 1901. Prizes are given all grades.

IV. The trustees, ratepayers and teachers should during the next few weeks have the schoolhouses made comfortable for the winter months.

V. Be thorough in your work. Do not attempt too much. Give your primary class the amount of attention due them. Do not spend time on Latin, Geometry &c., to the neglect of the primary branches.

VI. Reorganize the local institutes, Mount Stewart, Montague Murray Harbor and other centres held very successful institutes last fall and winter. Let the teachers of these sections recognize, and let other teachers recognize. We should have at least a dozen local institutes of teachers in the Eastern Inspectorate.

VII. Canada has been unaided the "grand prize" for secondary education at the Paris Exhibition.

VIII. Education in its best sense is self-comprehension and world-comprehension.

WOOD MEASURE.

Wood is measured, and bought and sold by the cord, and fractions of a cord. A cord of wood is a pile 8 feet long, 4 feet wide, and 4 feet high, and therefore contains 128 cubic feet. When the wood is cut 4 feet long, and corded in a pile 4 feet high and 8 feet long, this will be a cord. Hence, divide by 128 to find the number of cords.

Example.—How many cords of wood in a pile 4 feet wide, 3 feet high, and 28 feet 6 inches long?

4 multiplied by 3 equals 12, and 20 multiplied by 28 ft 6 inches or 28 1/2 feet equals 570 cubic feet; 570 cubic feet divided by 128 equals 4 1/2 cords nearly, answer.

MARINER'S MEASURE.

The distance of speed which a ship travels is measured by the number of knots of the log line run off in half a minute.

6 feet make 1 fathom
120 fathoms " 1 cable length
51 ft (nearly) " 1 knot of log line
1 geographic mile makes 1 knot of distance at sea.

SURVEYORS MEASURE.

792 inches make 1 link
25 links " 1 rod
4 rods or 66 ft " 1 chain
10 sq chains " 1 acre
640 acres " 1 sq mile
36sq miles " 1 township

HOW HUMAN LIFE IS SPENT.

According to a French statistician taking the mean of many accounts, a man of 50 years of age has slept 6,000 days, worked 6,500 days, walked

800 days, amused himself 4000 days, was eating 1,500 days, was sick 500 days, &c. He ate 17,000 pounds of bread, 16,000 pounds of meat, 4,600 pounds of vegetables, eggs and fish, and drank 7,000 gallons of liquid.

SIZE OF THE OCEANS.

Pacific, 80,000,000 square miles.
Atlantic, 40,000,000
India, 20,000,000
Antarctic 10,000,000
Arctic 5,000,000

SELECTIONS.

"God be thanked for books! They are the voices of the distant and the dead, and make us heirs of the spiritual life of past ages. No matter how poor I am, if the great writers will enter and take up their abode under my roof I shall not pine for want of companionship, and I may become a cultivated man, though excluded from what is called the best society in the place I live"—Channing.

Upon the whole, the country teacher has the better material on which to work; and, though his remuneration as weighed in dollars and cents may not be so great, yet his reward when unarmaged by the results finally produced by the men and women who grow up strong in body and mind and morals, is far greater. Let not the country teacher be disheartened. He is doing inestimable service for God and humanity—Mississippi School-Journal.

The school demands the best of a teacher's life for ten or twenty of the choicest years. Then it's goodbye, teacher; you are too old. The pay should be sufficient to enable the teacher to lay by a store for rainy days. Besides good pay for skilled labor, the teacher should have at least six per cent on the investment made in securing an education. No competent teacher in this state should be teaching for less than forty dollars per month, and the average should be fifty at the very lowest.—Michigan School Moderator.

A bright little teacher whom I know has a happy way of drilling her small pupils in subtraction. She says, "Now we will play give-away, my turn comes first. If I had four apples and give Nellie two, how many would be left? "All are eager to answer; the one who answers right, asks the next question. Sometimes the teacher says "Let us all give away seven or eight to-day." Then each example has a seven or eight in it. In this way, she strengthens the scholars' weak points.—American Primary Teacher.

Tender and considerate thoughtfulness of others is one of the most valuable of all the Christian graces. Gentleness, gentlemanliness, gentlewomanliness—note how well the two go together. Manliness and gentleness womanliness and gentleness. Gentleness is one of the most manly and manly things in the world.—Ladies' Journal.

Be happy! Be happy in spite of everything! When a person is no happy he is a failure in life. To be happy is to be normal, and the normal people are those who come out on top in the long run. Nature and human-nature detest abnormal things, and unhappy people are certainly abnormal people. Happiness is two things—a good habit and a spiritual state.—Ladies' Journal.

SIX THINGS A BOY SHOULD KNOW.

1. That a quiet voice, courtesy, and kind acts are as essential to a gentleman as to a gentlewoman.
2. That roughness, bustling, and even foolhardiness are not manliness. That most firm and courageous men, have often been the most gentle.
3. That muscular strength is not wealth.
4. That a brain crammed only with facts is not necessarily a wise one.
5. That the labor impossible to a boy of fourteen may be easy to a man of twenty-one.
6. That the best capital for a boy is not money, but a love of work; temperate habits, simple tastes, and a heart loyal to his friends and his God.—South Dakota Educator.

CANADIAN COINS.

The chief coins of Canada (which are minted in England) are the silver dollar, half dollar and minor sub-division as in the United States, accounts also being kept in dollars and cents. By law it is fixed that the sovereign is equal to \$4.86 2/3c, the crown piece \$1.20; the half-crown, 60c; the florin 48c; the shilling 24c; the sixpence, 12c; United States gold is a legal tender, but not much gold is in circulation, bank bills taking its place.

The Wellesley girls say,
As at Vespers they pray:
"Help us good maids to be,
Give us patience to wait,
Till some subsequent date,
World without men—ah me!"

TWENTY YEARS STANDING.

Trouble of a Norwich Farmer who was Relieved by Dodd's Kidney Pills.

NORWICH, Nov. 12.—For twenty years Mr. Wilbert Woodward, of Willow Dell, has suffered with back-ache. He grew so bad that he was confined to his bed two days out of a week. His farm suffered for the lack of the eye of its master, and Mr. Woodward made every effort to find a cure for his trouble.

He says, "I tried every thing I ever heard of, but no cure. Last fall I heard about Dodd's Kidney Pills and I bought three boxes of them from Mr. Bannon, of Norwich, and I am happy to say they have done me more good than all the other medicines put together, that I got from the doctor. My wife takes Dodd's Kidney Pills also, for lame back and rheumatism, and finds them grand. I hope any person suffering as we did will try these remedies. I would willingly pay two dollars a box rather than be without Dodd's Kidney Pills in the house."

"Your honor," said the lawyer, "my client acknowledges that she struck the book agent with a piece of a gas pipe, but she pleads that it was a case of mistaken identity."
"How's that?" asked the judge.
"Well, she thought it was her husband."

An Enormous Sale.

To all who have felt the evil effects of de-ranged kidneys, it is interesting to know that Dr. A. W. Chase's Kidney-Liver Pills are meeting with enormous sale and unparalleled success in this district. Backaches and aching kidneys are fast becoming a thing of the past where Dr. A. W. Chase's Kidney-Liver Pills are known. One cent a dose, 25 cents box 2 at all dealers.

The feather-brained youth cannot expect to show much head-weight.

Minard's Liniment Cures Croup in Cows.

Whatever would we do if we didn't have the weather to talk about?

An Old Theory Exploded

The old-fashioned theory of tearing down disease was entirely changed by the advent of Dr. A. W. Chase's Nerve Food, which cures by creating new rich blood and nerve tissue. Through the medium of the circulation and the nervous system they strengthen and invigorate every organ in the human body.

The best test of a man's temper is the way he behaves before breakfast.

There is something wrong with a woman's conscience when she stops saying her prayers at night.

Mother's Favorite.

Dr. Chase's Syrup of Linseed and Turpentine is mothers favorite remedy for croup, bronchitis, asthma, coughs, colds and sore throat. It has by far the largest sale of any remedy for coughs and colds. It is pleasant to the taste, prompt in action and is an absolute safeguard against consumption and pneumonia. 25 cents a bottle. Family size 60 cents.

To find the doormat lying upside down means that you will not be married for at least a year.

Minard's Liniment Cures Diphtheria.

How One Gets Bilious

A sluggish liver fails to filter the bile from the blood, and when the poisonous matter goes through the body in the circulation, the whole system is tainted and deranged. This is called biliousness, and can be completely cured by Dr. A. W. Chase's Kidney Liver Pills, which act directly on the liver, making it healthy and active. One pill a dose, 25c a box. The cheapest medicine in the world.

More than one girl who gets married begins housekeeping with all sorts of notions as to how she is going to improve on her mother's way of doing things.

Asthma

Mrs. Geo. Badden, Putnamville, Ont., says: "I felt it my duty to recommend Dr. Chase's Syrup of Linseed and Turpentine, as I had the asthma very bad; could get nothing to do me any good. A friend of mine persuaded me to try this remedy, as he had tried it, and it proved successful. I tried it and it cured me. I am thankful today to say I am a well woman through the use of this remedy. 25c a bottle. Family size 60c."
