

THE DAILY EXAMINER.

JANUARY 16, 1894.

THE STANLEY-SAFE.

The confidence of the community in Captain Finlayson and the picket officers and crew of the Stanley has been justified. Yet, the news which came last evening that she was safe in the ice and not far from Pictou, was received all over the town, with feelings of relief and thankfulness.

BOARD OF TRADE.

That this institution is really valuable to the business community, has been proved by the results of its good offices with the Dominion Government in respect to the Railway time table, the steamship Stanley and other matters. Its influence would be still greater if a larger number of our business men were members of it.

PAY UP, GENTLEMEN.

Proper payment of accounts is the duty of the hour. It is hoped that all those who are easily able to perform this duty will do so at once. If those who have the means at hand but do their duty, they will avoid the means to most of those who have them not.

THE YOUNG MAN IN BUSINESS.

Under this heading the Cosmopolitan for January has an excellent article from the pen of Edward W. Bok. To sum up, Mr. Bok says: "First—That, whatever else he may strive to be, he must, first of all, be absolutely honest."

BOARD OF TRADE.

The adjourned annual meeting of the Charlotetown Board of Trade was held last evening. Several communications were read, after which the President, P. Blake, Esq., presented the annual report. In this allusion was made to the conference which the Board had arranged between Hon. Messrs. Foster and Angers, and representatives of the various trades and industries for which the President received a letter of thanks from Mr. Foster.

IMPROVEMENTS IN KING'S COUNTY.

Notwithstanding the great curtailment in the expenses of the P. E. Island Railway, a good many improvements have been effected during the past summer. Foremost among these is the new steel bridge at Mount Stewart, which has lately been put in position.

P. E. ISLAND RAILWAY.

The railway bridge at Morell also received a most important repair, and the several station buildings between Mount Stewart and Souris have been put in good repair. It is a pity that the station at Bear River has not been reopened, as it would be a great accommodation to the people in that section.

GOOD DAIRY COWS.

A question frequently asked by dairymen is, How can I get a good herd of dairy cows? To answer this to the satisfaction of every one will be a difficult task. There are a few suggestions, however, which might be offered that are a little helpful if systematically carried out.

AN OLD-FASHIONED SNOW STORM. Sir,—Thinking it might be of some interest to your readers of the present day to know something of the past, and what "an old-fashioned snow storm" was like, I enclose an extract from the "Island" newspaper of Friday, March 22nd, 1861.

THE WEATHER. (Islander Office, Friday, March 22, 1861.) A regular old-fashioned snow storm commenced on Tuesday evening, and continued with little abatement for about twenty-four hours.
