

Stocks Move Individually Rather Than As Groups

By GORDON GRANT
Canadian Press Staff Writer
Stocks moved individually rather than as groups on major stock exchanges last week with the result that index changes were mainly fractional. Volumes in Toronto averaged slightly less than 4,000,000 shares a day, boosted by the

gradations of a small group of speculative mining issues. The industrial index, an indicator of investors' confidence in stocks, took a small loss on the week although it had slight gains on the last three trading days. Atlantic Sugar climbed \$2 to 26 1/2 and sold as high as 26 1/2 on rumors that it would be the target of a takeover bid. The identity of the bidder and the price varied, but the rumor was strong. B.C. Sugar fell 1/4 to 39 while Canada and Dominion Sugar was up 1/4 to 24 1/2. Massey-Ferguson fell 1/2 to 30 1/2 and was actively traded. The company announced higher earnings for the third quarter. However, nine-month earnings were lower.

TRACTION GAINS
Brazilian Traction traded heavily, gaining 1/2 to 7 1/2. Company President J. Grant Glasco said this issue is a measure of investor confidence in Brazil's economic and political condition. British Columbia Telephone fell 3/4 to 64 1/2. The company issued rights entitling shareholders to buy one additional share of stock at \$57 for each share held. This will enable the company to issue 287,700 new shares which will provide the company with about \$16,000,000 to cover capital financing in the second half of this year and to repay some loans.

CPR was another standout issue, climbing 1 1/2 to 65 in a continuation of its higher trend since the announcement of Canada's huge wheat sale to Russia. Gunnar Mining made a modest gain in fairly active trading as investors await an up-to-date financial report on the company. Shares of the stock fell from \$4.25 to a low of \$1.74 last week when it was learned that Gunnar's construction arm, Memara Corp., was in financial trouble. The extent of the trouble has not been revealed, but under pressure from the Toronto Stock Exchange a statement will be made sometime next week.

DENISON STANDS OUT
In the mining end of the market, two issues stood out, Denison and United Keno Hill. The former advanced 1 1/2 to 33 and sold at a 1965 high of 34 1/2 at one point. The latter, Canada's biggest silver producer, fell \$1.45 to a 1965 low of \$5.95. Earlier in the year it sold as high as \$11.

On index, industrials slipped .55 to 165.15, golds 97 to 168.13, base metals 34 to 78.99 and the TSE index .51 to 155.23. Western oils were up 17 to 69.74. Volume for the week was 19,639,400 shares, down from the 21,016,299 shares last week. Dollar value declined to \$42,314,539 from \$50,013,000.

In Montreal, industrials were off .82 to 140.01, banks 25 to 123.58 and papers 1.78 to 123.53. Utilities climbed .23 to 150.67. Industrial volume was 936,327 shares against 686,022 last week while mines turned over 11,289,589 shares against 7,493,305. The mining total was boosted by Dolcan which climbed from 39 cents Monday and closed at 84 cents Friday. The company said it had encountered gold on a property in Maine.

Just Christians For Acadia U.

WOLFVILLE, N.S. (CP)—A committee of the Atlantic Baptist Convention recommended that only Christians be members of the faculty of Acadia University, a 1,400-student Baptist co-education institution here. University President Dr. J. M. R. Beveridge, asked in an interview to comment on the committee's recommendation, said: "I am confident it will never come about."

The committee on higher education, in a report to the convention's annual meeting, recommended that faculty members be Christians "without any thought of religious or denominational tests but a symbol recognizing that the purpose of the founders and their successors of today can only be achieved within framework of Christian leadership."

The report did not elaborate on the recommendation. Dr. Beveridge said: "I'm not sure that the proper consensus was taken at the convention this morning."

ADOPT REPORT
The convention adopted the committee's report, which also recommended that members of

Opening lead—jack of spades. You have to be a warrior to be a competent declarer. Optimism is undoubtedly an asset at the bridge table, as it is in life, but it has dubious value if the optimism is carried to the point where incipient dangers are ignored. To get the best results you try

to play your cards in a way that will cover not only the expected divisions of the adverse cards, but also the unexpected. This double-gaited approach to the play sounds much more difficult than it is. The one trait required at all times is a willingness to look upon each so-called easy contract as a snare and a delusion, and then go on from there to protect against any unfavorable distribution that might happen to exist.

Here is a case which demonstrates the point. South is in three notrump, which seems to be easy enough to make when dummy appears. With normal breaks, South can expect to make at least ten tricks—three spades, a heart, five diamonds and a club.

But South should be worried from the beginning that the diamonds are not divided 3-2, even though that is the normal expectancy. Furthermore, he should supplement this frightening thought with a plan of action to combat a 4-1 or 5-0 division.

After winning the spade lead he should cash the king of diamonds—instead of first leading a diamond to the ace, which is what is usually done with this combination.

When he then plays another diamond, he should finesse the nine if East follows low; not because he expects the finesse to win, but to insure nine tricks. In the actual case, the safety play would result in making ten tricks. It would not help East to play the ten on the second diamond lead because South could safely take the ten with the Queen and later finesse the nine after West showed out.

Newfoundland Contracts Let

OTTAWA (CP)—Contracts for \$400,000 worth of harbor improvements in the Newfoundland fishing villages of Ochre Pit Cove and Sandy Cove were awarded by the public works department. Glen Construction of St. John's will demolish and rebuild the wharf at Sandy Cove for \$217,858. At Ochre Pit Cove, the same firm will rebuild a wharf and construct a fish-handling building. The jobs will cost a total of \$187,224.
