LET'S EAT

An Afternoon Tea Break Gives Housewife A Lift

By IDA BAILEY ALLEN
"Although it's the end of the day, Madame, you look very rested," the Chef remarked.
"Thanks, Chef," I replied. "It's partly because I've just spent a relaxing half-hour with my daughter-in-law, Claire.
"An afternoon tea break is especially necessary during this season of the Christmas rush," I said, as I poured the freshly brewed tea. "When I was a career gal, I found a ten or fifteen minute break at 3:30 meant the difference between efficiency or an hour and a half more of good work. It's the same now that I'm a homemaker.
"If we home gals would only stop rushing and relax with a cup of tea before the late afternoon fatigue and irritability sets in, we could usually finish the day without a hassle with the children and not only prepare a good dinner for our husbands, but be rested-looking, cheerful dinner companions as well."
A festive box of Anise Slices Viennese makes a welcome Christmas remembrance.
Anise Slices Viennese: Slightly beat 6 eggs; set aside ¼ cupful of the sugar eggs, gradually add ¼ c. beaten egg, already-sifted enriched flour, 1 tsp. baking powder and ¼ tsp. salt. Blend into the egg mixture.
Add 6 drops anise oil (sold at drug stores), and 1 c. melted butter or margarine. Work into a dough; knead until smooth and manageable. Shape into an oblong ½" thick. Arrange in an oiled baking pan. Brush with the reserved beaten egg.
Bake in a moderate oven, 350 degrees F. for 25 min., or until doorway and punch away. A fairly hard pillow offers more resistance.
Thrusting our with dumbbells, or any pushing exercise is helpful. If you have swing-age children, fowling them daily for that push exercise is right in the groove.
One reader reported success with bouncing a rubber ball, using both hands and bouncing the ball vigorously for five minutes twice daily. Well, that's the same motion used in driving a nail, and it does reach those arm muscles.
Ideally, are the standard measurements according to misses dress sizes: Size 10; upper arm 9 5/8; size 12; 10; size 14; 10 7/8; size 16; 11 1/4; size 18; 12; size 20; 13 inches; size 22; 13 1/2.
Average arm measurements in women's dress sizes are just slightly fuller. Size 34; 11; size 36; 12; size 38; 12 1/2; size 40; 13 3/8; size 42; 14 1/4.
The back of the upper arms constitutes one of those muscular "dead" areas, for most tasks are of a lifting nature and only bring into play the muscles on the front of the arms. The size of the arms however, depends largely on the amount of weight you've gained. Fat always tends to aggravate to soft muscle areas.
Along with general reducing measures, special exercises are needed to tone and tighten the triceps muscles. These muscles are extensors of pushing muscles, so the arm beautifying exercises are patterned on pushing, driving and forcible extension.
To get the idea, hold right arm straight out in front of chest and place fingers of left hand on the droopy spot under the right arm. Now, make believe you are vigorously pounding in a nail — pound, pound, pound. You can feel the triceps muscles take the action. Do this same exercise movement with left arm.
PUNCH FORWARD
Loss of the triceps would destroy your ability to extend your elbow in a forcible action. So turn that rule into exercise action — punch forward vigorously. You can punch an imaginary pillow, or a real one if you like.

KEEP IN TRIM

Upper Arm Can Be Shapely

By IDA JEAN KAIN
Whip out the tape, roll up your sleeves and measure the upper arm at the largest area. With heavy arms, you won't need any tape to alert you to the fact that they are too large, but it will help you to have some notion of what this measurement should be ideally.

MARY HAWORTH

Basic Defeat In Marriage

Dear Mary Haworth: I have read your column for quite some time and have learned a lot from it. But now I need some special advice—so please, will you oblige? The problem is my husband—I'll call him Bob. We have been married only eight months and normally should be still in the honeymoon phase. But the whole trouble has never waned! Even on our honeymoon, of less than a week, Bob never acted like a bridegroom or lover. Although disappointed at first, I consoled myself that he was being considerate for my sake. How wrong I was!

Before I go any further, let me say that it isn't the meager sex life that bothers me; rather, I simply long to know that I am loved. I have never refused Bob at any time, but he has refused me, with little remarks about my being "too forward," or about his need for rest, etc.—none of which is really justified. IDEAL MATE
At times I feel actually ill, to think that my life should be run like a time table—so many hours for work, so many hours for sleep; up by the clock, to bed by the clock, meal on schedule, food that is "good" for you (like it or not) and so on.

I can't even argue these matters any more, because I end up saying "I'm sorry," or "I'm sorry," or "I'm sorry," or "I'm sorry." I don't put it to him, I am ready to go. Occasionally I wonder what a real flesh-and-blood husband would be like, and I pray God to give me strength to remain a faithful wife. But how can you be true to an iceberger? In fairness to Bob, he is an ideal husband in other ways. He has faults, but I am beginning to love him just as he is—except that I am growing ashamed to show my feelings; and I am embarrassed about an element of feeling that I had thought was as natural as breathing. Please help me, R.Y.

Dear R.Y.: Well, this is a classic example of what is meant by "incompatibility"—a basic disharmony and defeat in marriage that largely prevents the twain from being (or becoming) "one flesh." In that sense, it repudiates and obstructs the very purpose of marriage: chief of which are loving procreation and generous mutual consolation.

Thus, such incompatibility long has been rated by law-giving bodies as just as sufficient cause for divorce. Especially if the divorce and discharging is regarded as the misfortune—either refusing to concede the existence of a demoralizing factor that cries for remedy; or perhaps imputing the origin of the problem to the normally hungrier spouse.

You ask me to help you. And in fairness to both you and Bob, the only help I can offer is the truth about the nature of the impasse. Bob's overall performance as described—in pursuing a treadmill routine with mechanistic rigidity, while shrinking from sexual investment in marriage—indicative of a acutely psychoneurotic character. PSYCHIATRIC INQUIRY into the meaning of motivation of Bob's time clock design-for-living problem.

HOUSEHOLD HINT

Many spots and stains can be removed from nylon carpets by using a solution of detergent in warm water. Apply the solution sparingly to the spot, then sponge the stained area with a clean cloth, working from the edges toward the center with a rotary motion. Rinse by wiping with clean cloth dampened in clear, warm water. Absorb excess moisture with dry cloths or tissues.

Anniversary Of First Settlers

LONDON (Reuters)—A shivering group of eminent Britons and Americans gathered in the fog at Blackwall dock here Thursday to commemorate the sailing from that port 200 years ago of three Virginia-bound ships headed for settlers who were to found the first permanent English colony in the New World.

Anniversary Of First Settlers

Thick fog swirled about the pier in London's east end and tugboats' fog horns moaned behind the speeches by American Ambassador Winston Churchill, the former British ambassador to Washington Sir Roger Makins, and the minister of state for foreign affairs, the Marquess of Reading.

Anniversary Of First Settlers

The group, including a company of pikemen dressed in medieval crimson suits and wearing armor, that spotted the mayor of London in his gold-encrusted robes and white plumed hat, and Virginia-born Lady Astor in a mink-lined raincoat and galoshes, stood solemnly before the Virginia memorial during the ceremony.

Aldrich told the group that the settlement at Jamestown was the "point of origin of a new nation."
"This country founded that nation, and helped it to grow to greatness, in ways too numerous to recount," he continued.

Anniversary Of First Settlers

"In turn, the people of that nation—the people of the United States of America—have traditionally felt an intimate and unbreakable relationship with the British people. This feeling is almost instinctive. It is the result of a unity too deep and too massive to be shaken seriously or diminished by any passing storm.

"I am sure that the people of this country have the same feeling about the people of the United States."
