

THE NOVA SCOTIA DIFFICULTY.—Mr. Howe's mission to England is thus referred to by the London correspondent of the New York Times:—

"I have left myself little space to-day to speak of general matters, I only mention that the difficulty is beginning to plague us a little. The indefatigable Mr. Howe is over here enraging Members of Parliament, when he can lay hold of them, and laying siege to newspaper offices when other resources fail him. Nova Scotia will not join the Confederation—she would go to the United States. Now, if the whole Confederation would transfer itself to the great Union, I think this country would say cheerfully: 'Good-bye, and God bless you.'—but to let detached fragments whirl into space, under the influence of Colonial spite, does not seem to be a rational course. The Spectator, I see, declares, that if necessary, England must use force to keep Nova Scotia to her duty.—We are not going," says the writer, "to surrender the right of the Imperial Parliament in the last resort to legislate for every human being who claims the protection of our flag." The Spectator, as every one knows, does not often press this form of argument.

By LAST NIGHT'S MAIL.—AMERICAN fishing vessels violating the license system of \$2, can be seized for first offence, and Imperial Government will, according to an Ottawa despatch of the 9th, assist the Canadian Government in enforcing the arrangement. An attempt is being made to impeach Justice Drummond of Montreal, before the Dominion Commons. It is said that the Senate will refuse its sanction to reduction of Governor General's Salary. £1,000,000, etc., has passed the Commons to fortify the Dominion.—Lord Brougham died on the 9th inst., in his 90th year.—Geo. F. Train, arrested in Dublin for debt, has been admitted to bail.

An Ottawa paper of late date says it is rumored that Sanford Fleming has expressed the opinion that it will be impossible, or at least too costly, to build the Intercolonial by the Central Route, inasmuch as the grades in some places in the country already surveyed in that district are eighty feet to a mile. If this is true, it thoroughly disposes of the question of route. There is little doubt that the North Shore line will ultimately be adopted, as it is the one favoured by the British Government.

A terrible scene occurred in St. Mary's Church, Chicago, on Good Friday. The church was crowded, and while the Tenets was being chanted, a false cry of fire was raised. A scream immediately arose, and the crowd rushed for the doors, which opened instantly. As a consequence, the pressure of the terrified multitude kept them effectually closed, whilst in the dreadful confusion three women were trampled to death, and four fatally wounded.

New York has two new enterprises of considerable importance on hand. The first is an underground railroad from City Hall to Forty-second street. This has been authorized by the legislature, though there was considerable opposition from many quarters. The railroad is to be completed within three years, and an iron tubular tunnel between New York and Brooklyn is to be begun within a year, and completed within five years.

The Post Office authorities deserve credit for having the English mail forwarded to Charlottetown via Pictou and Georgetown several hours in advance of the time in which it would have been received by steamer. The mail was received on Saturday night, whereas the steamer was not due until Monday evening.

The case of Nova Scotia is receiving considerable attention in the press of England. By reference to our despatches to-day, it will be seen that the Duke of Buckingham promised the Delegates that the subject would receive the earnest consideration of the Imperial Government.

CAPT. THOS. FOLEY, who was in Buenos Ayres all winter, has returned to the Island in good health. We have not yet learned his experience of South America; but it affords us much pleasure to chronicle his safe arrival home.

The Patriot is abusing us. It is an old saying the loss one has to do with a sweep the better; and, acting upon the sound advice therein contained, we shall make no reply to our contemporary's personalities.

The bark Priores, which was frozen in at this Port all winter, sailed for Liverpool on the 5th inst with 40,000 bushels of Oats and 10 barrels of Pork.—by Hon. J. C. Pope.

The Steamer Heather B. Ue has commenced her trips for the season on the route of last year—namely, between this Port, Murray Harbor, Georgetown, Souris and Pictou.

The Hon. B. Davies has resigned his seat in the Government of this Island. We regret this, inasmuch as his services will thereby be lost to the Councils of his Country.

Since our last issue, the Dominion Parliament has reduced the Governor-General's salary from \$50,000 to \$32,000. On the question of fortifications, the Government was sustained by a large majority.

At a Fenian meeting in Chicago, the floor of the Hall in which the meeting was held gave way, precipitating the Brotherhood some twelve feet into the cellar below. There were three killed and forty wounded.

Baptiste Langlin Lacroix is the name of the person who swears he saw Whelan assassinate the Hon. Mr. McGee.

Wednesday and Thursday, the 20th and 21st inst., are set down to hear appeals against the City assessments, in cases where the same are considered too high.

The communication of "Patrick Smyth, Teacher," being of a private nature, cannot be inserted unless as an advertisement.

The Steamer Alhambra from Boston and Halifax arrived at this Port last evening.

A considerable shipment of Fat Cattle to St. John, N. B., has taken place this spring from Summerside.

TO CORRESPONDENTS.—"Sawbones" is out of date. So is "Clown."

Christy's Amateur Minstrels perform in Temperance Hall to-morrow evening. Go and hear them.

The Hon. Mr. McGee's brain weighed 59 ounces. The average weight of the brain in man is 45 ounces.

The Parliament of Canada have adopted resolutions congratulating the Queen on the safety of Prince Alfred. Hon. Mr. Mitchell spoke strongly of the growing audacity of Fenianism and stated that it must be "stamped out."

It will be seen by the telegrams that the Hudson Bay territory is to be re-invested in the Crown. If this should be a fact, the Dominion Government will find it far easier work to deal with the British government than with the Company.

A little girl in New York has just died from eating orange peel. The essential oil in the peel poisoned her. Parents should take warning from the fact.

A cargo of potatoes sold at Auction to-day by Edward Lawson & Sons, realised for potatoes 60 cents, and oats 69 cents per bushel.—H. Express.

We observe by a Montreal paper that the Grand Trunk rates on the transportation of flour have been reduced ten cents per barrel.

Whelan will be tried by a commission immediately. No doubt of his guilt exists in the best informed circles in Ottawa.

Our Ottawa telegrams of Monday last stated that the circulation of the Irish American newspaper has been prohibited. The following extract from the 13th inst. Telegraph throws some light on the cause of its suppression:—

"The last number of the Irish American of New York contains a letter from its Montreal correspondent, in which all the parties arrested on account of the murder of Mr. McGee, are pronounced as innocent as the sun that shines. After this declaration the writer goes on to attribute their arrest to political animosity. The whole cause of their arrest is their voting against and canvassing against McGee at the last election. Moreover, those men arrested up to this date, all belong to the St. Patrick's Society, and voted for the expulsion of McGee."

This correspondent, who significantly signs himself 'Hickory Switch,' says that those outside the Dominion should know how the system of spying is carried on in this city, and then mentions the names of two or three respectable Irish residents of Montreal, who are charged with looking the 'suspects' for jail. His concluding recommendation is as follows:—

"My advice to the Fenians in the United States would be to rally round Gen. O'Neill and the constabulary of Philadelphia, and furnish breech-loaders for 40,000 men, and come this way and wipe out this nest of vipers that pollutes the soil of America with its accursed presence."

This precious epistle is introduced with some editorial remarks in commendation of its contents. It is needless to add that there is much of spouting in the Irish American, and that Gen. O'Neill is apparently still as anxious as ever for an attack on Canada. If he acts upon the information furnished by the Montreal correspondent of the Irish American, he will find his calculations sadly astray."

"VACILLATING."

[From the Patriot of the 7th May.]

"As for the Roman Catholics, the back-bone of the composite party, what great benefit have they gained by the change of Government? True, they have been rather liberally paid off with petty appointments scarcely worth having, but nearly all the fat offices have been reserved for their friends of another faith. As churchmen, they applied for the State endowment of their College and Convent Schools, and were, in our opinion, very properly refused; but as citizens, their claim to the patronage at the disposal of their party, is politically the same as that of other sections of the majority, and ought to be fairly and ungrudgingly recognized. A man's creed should give him no claim to office, neither should it be a barrier to his preferment; and if at the hustings parties can, for the attainment of a common object, overlook all differences of religious belief, surely, when that object is attained, they ought to know among their friends no distinction of creed in the distribution of patronage, nor recognize any claim but efficiency and merit in the applicant. Have the 'able men' acted on this principle? Most assuredly not. The unfortunate Tenant Leaguers have fared even worse than the Roman Catholics."

[From the Patriot of the 9th May.]

"W. H. Pope intimates that the question of denominational schools will be submitted for solution at the next election, and states that, in his opinion, a majority will be found in this Island to approve of it. With the Roman Catholics now in political ascendancy, they could not take a more effective method of raising the religious cry than to bring such an issue as this to the hustings."

ADDRESS

To Mr. Dougal McIsaac, Farmer, Wood Island, on the eve of his leaving the neighborhood.

DEAR SIR:—

We, the undersigned, learn that it is your intention to remove from this neighborhood in a few days; therefore, we hereby beg to express our esteem for you as a consistent and obliging neighbour.

We regret that the impaired state of your health, for the past year, has rendered it imperative on you to sell your farm—one on which your late father has labored for nearly three-quarters of a century—and change your attention to that of trading. We therefore hope that, whatever your future calling may be, health and happiness may be your portion.

With kind regards for yourself, Mrs. McIsaac and family, and best wishes for your future welfare,

We remain,

Yours, &c.,

JOHN McMILLAN, J. P.
DONALD McMILLAN, Miller.
ALEX. CANTLEY,
JOHN CORNISH,
DUNCAN CRAWFORD,
HECTOR C. McMILLAN,
and 20 others.

REPLY:

To Messrs. John McMillan, J. P., Donald McMillan, (Miller), Alexander Cantley, (Merchant), Duncan Crawford, (Teacher), and Capt. H. C. McMillan, and others.

RESPECTED FRIENDS:— I sincerely thank you for the very flattering address which I have received from you. I feel that I have not done anything to merit such a tribute of respect from you. I can truly say that, if I have done anything to merit such from you, I have only done what I considered my duty, and which was duly reciprocated by you heretofore.

It is true that the state of my health has caused me to sell my farm, with the view of leaving Wood Island, and I assure you that, wherever my future lot may be, I shall never forget the friendship and sociability I have, at all times, enjoyed with you, the people of Wood Island.

Thanking you for your kind wishes for Mrs. McIsaac and family, and for our future welfare,

I remain,

Yours truly,

DOUGAL McISAAC.

Wood Islands, Feb. 5, 1868.

PROGRESS OF ALASKA.—Our new Territory of Alaska seems to have caught the spirit of American progress immediately after we have taken possession. A few months ago while it belonged to Russia it was regarded as almost a terra incognita, a country somewhere bordering the North Pole. That portion of our press which has opposed the purchase has, even up to this time, represented Alaska as a hyperborean region of no value. But we hear every day or two of some progress or new developments there. By the latest news we learn that extensive seal fisheries are to be put under way, and that an opposition line of steamships for passengers and freight between that country, California and Vancouver's Island is to be started. An opposition line of steamships to Alaska! Only think of that! What enterprise and progress among our people on the Pacific! It will not be long before American settlements will reach Asia, and the people of these quarters of the globe will meet and shake hands with each other.—New York Herald.

[Alaska is the new name of the Russian Territory in America recently purchased by the Americans from the Russian Government.—Ed. HERALD.]

THE NEW BRUNSWICK LEAGUE.—The following gentlemen are the office-bearers of the League, viz:— Wm. Livingstone, Esq., M. D., President. Arthur McDonald, Esq., 1st Vice President. J. V. Troop, Esq., 2d Vice President. W. P. Doyle, Esq., Corresponding Secretary. A. A. Stockton, Esq., Secretary and Treasurer.

The above named officers, and the following Committee—Messrs. Robert Robertson, (Indiantown) John Berryman, S. P. Osgood, and J. S. Boies De Veber, constitute the Council for the management of the affairs of the League.—St. John Repeal Advocate.

On Sunday morning between 1 and 2 o'clock, Mr. Johnson, of the City Police, was struck on the head with a stone, while endeavoring to arrest some person in York Point.—St. John Repeal Advocate.

BURGLARY.—At Souris West, on Thursday night, the 7th inst., the store of Mr. Lawrence Klockham was entered through the window, and the sum of thirty shillings extracted from a desk in the store. A ten shilling note was found dropped near the desk. The window was raised from without. The thief or thieves must have been in the store on the previous day, as the fastener fastening the window was found, which could not have been done from without. The window was left raised about eighteen inches, and none of the glass broken; in all probability, at least two men committed the daring deed, as from the height of the window one man could not possibly enter without alarming the inmates—the store being in the end of the dwelling house. The thief or thieves seemed only to be in search of money, as no goods were missing, and fortunately there was only forty shillings in the desk at the time. Any person acquainted with the premises would call it an attempt perhaps as daring as almost any that has occurred in large cities. It is to be regretted that the thief escaped without being brought to justice, as it is very likely he will still follow his thievish habits until imprisonment, or perhaps the gallows, closes his or their career.—Cont.

Buckingham fell by the knife of Felton, Percival that of Billingham, Lincoln by the well aimed shot of the ruffian Booth—each of these statesmen were victims to the morbid hatred of men who fancied that "sic semper tyrannis" would free the community from a world of trouble, but their followers learned, when too late, that God in his infinite wisdom never blessed a people who dared to assume His attributes of life and death, and hence the miserable condition of all countries in which assassination is resorted to for political purposes.

A fire occurred this morning in a house on Sheffield Street, occupied by Mr. Keough. The house was totally destroyed. At 1 o'clock another fire occurred at the steamboat warehouse, Reed's Point, but little damage was done. At the same time, another fire was noticed on the roof of a building occupied by Mr. Moore, nail enter, Waterloo Street, it was extinguished without the aid of the Steamers.—St. John Repeal Advocate.

"Why don't you trade with me?" said a close-fisted tradesman to a friend the other day. The reply was characteristic. "You have never asked me sir, I have looked all through the papers for an invitation in the shape of an advertisement, and found none. I never go where I am not invited."

Holloway's Ointment and Pills.—Diseases of the Skin.—No case of disease of the skin, be its nature what it may, has failed to be benefited when these potent remedies have been properly applied. In scrofulous and scorbatic affections they are especially serviceable. Scabby eruptions, which had resisted all other modes of treatment and gradually become worse from year to year, have been completely cured by Holloway's cooling Ointment and purifying Pills, which root out the disease from the blood itself and leave the constitution free from every morbid taint. In the nursery Holloway's Ointment should be ever at hand; it will give ease in sprains, contusions, burns, scalds, and infantile eruptions, and may always safely be applied by any ordinary attendant.

Government Notices. Council Office, MAY 6, 1868.

May 6, 1868.

QUEEN'S COUNTY Volunteer Rifle Association.

AT the Council Meeting of the above Society, held in the Court Room, Colonial Building, Charlottetown, on Thursday last, the following arrangements were decided upon for a Shooting Match, to take place in the beginning of July next. The President, Colonel the Honorable John Hamilton Gray, presiding.

The first regular Shooting Match of the Association, is to commence on

Monday, 6th of July next, 1868,

to be held at the new Rifle Range, Kensington, Charlottetown Royalty.

A SILVER MEDAL is to be forthwith ordered from England, by the Association, and that, together with the sum of \$50 will constitute the first prize. The Medal will be the absolute property of the Winner.

There are fifteen prizes to be competed for, the first five beginning as follows:—

1st Prize, The Association Medal and \$50
2d Prize, 30
3d Prize, 20
4th Prize, 16
5th Prize, 12

The remaining Prizes will be of the same amount, \$10 or \$5 each, according to the amount of funds in hand on the day of competition. At least \$200 will be expended in prizes.

The ranges are 200, 400 and 600 yards. Five shots to be fired at each range, and in case of ties, one shot at the last range to decide.

All competitors must appear in the Uniforms of their respective Companies.

There will be an All-Corner's Match, after the regular match is decided, particulars of which will be made known hereafter.

The Committee, appointed to make all necessary arrangements regarding the shooting, consist of five members, viz:—

Captain J. W. Holman,
" Thomas Morris,
" Samuel McCar, " Albert Hensley,
" Artemas Lord.

It is understood that all subscriptions will be paid to the Treasurer, Captain Artemas Lord, before the 15th June next, to enable the Committee to judge what funds will probably be in hand at the time of competition. All Volunteers wishing to compete, or become members of the Association, will please hand in their names and subscriptions to the Treasurer at an early day.

All further particulars and regulations will be made known by advertisement as soon as possible.

F. S. LONGWORTH, Sec'y. Ch'town, May 1st 1868.
