France and Colonizing.
The French cannot colonize, and they know it. Their population is, to put it moderately, stagnant. In 50 years' time the laws of nature will have reduced them to the rank of a second rate power, unless they meanwhile adopt and act upon the device, "Liberte, Egalite, Maternite." Meanwhile they have not a surplus population to be employed in colonization. Their colonies are not even self supporting. Leaving out Algeria, they cost the republic 100,000,000 francs a year.

And concerning Algeria, one of the few Frenchmen who regard these questions in the light of plain facts, G. Garreau, writing in the Siecle a few days ago, makes the painful confession "During well nigh 70 years we have failed to make Algeria pay. Have we even striven to make it? During 20 years we have been pursuing Ahmadon or Samory. What have we done with the Sudan? We have contributed to depopulate it, we have made waste, directly or indirectly, immense territories, on which a rich population formerly lived; we have extended the desert instead of reclaiming it. Our soldiers have labored so well that they successfully thwarted all useful beginnings and blocked the road to the pioneers of our commerce."—Contemporary Review

CARTER'S LITTLE LIVER PILLS

SICK HEADACHE
Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose, Small Price.

Substitution

the fraud of the day.

See you get Carter's,

Ask for Carter's,

Insist and demand

Carter's Little Liver Pills.

More than 2000 Families in Halifax and Dartmouth use Sun-light and Lifebuoy Soaps

exclusively in their homes, and all say they would not have any other kinds.

This information is correct having been gained by competent and trust-worthy advertisers, leaving samples at every house and making careful enquiries.

These families never knew what pure SOAPS meant, until they tried SUNLIGHT and LIFEBOUY.

Why should not others learn and be healthier and happier for the learning.

Price is only 5c for large twin bar.

D. GORDON, Pres. Lib. Con. Assoc, Riding of Kings. Geo'town, Sept 27th, '99 wk 2ins

WANTED

A young man for our Retail Department—must have some experience in the dry goods business and good references. W. WEEKS & Co., The Peoples Store 12 31 eod

He Got the Money.

The youngest son of a distinguished citizen of Chicago went abroad with a liberal amount of money for a boy of his age, not long ago, and after a month in London, he cabled to his father, "Please send £100 quick," and signed his name, Willie Blank.

Mr. Blank took this cable to the office of his eldest son and said, in a puzzled way: "Willie has just cabled for £100. Now, I wonder what the boy wants to do with it."

"Cable and find out," was the suggestion, and Mr. Blank sent to Willie Blank this message, "What do you want money for?"

A few hours later came the reply, "For Willie."—Chicago Inter Ocean.

The Dangers of Mormonism.

Any one who ever lived for any great length of time in Utah when it was a territory knows only too well that the gentiles found it to their interest not to criticize too adversely the autocracy of Brigham Young. Dr. Robinson would not be "consoled" to refrain from censure. One beautiful moonlight night a man came to his house and told him that a man had been kicked by a mule "down on the State road," and that his leg was broken. He was suffering the greatest agony and needed the services of a surgeon. Would the doctor not come to his relief? Mrs. Robinson pleaded with her husband not to go. He laughed at her fears, and went. One block from his house he was assassinated by a blow on the head with some dull instrument and a shot from a pistol. His murderer was never apprehended.—Ruth Everett in Arena.

Grand blue grapes very cheap by the basket at Beer & Goff's. 230 2ins.

10 baskets blue plums received this morning at Beer & Goff's.

Cooking pears for sale by the basket at Beer & Goff's.

HARD WOOD SAWDUST.

Used as Fuel and For Cleaning Furs and Silver.

The fine sawdust of hard woods, that which is produced in sawing veneers, is used for a variety of special purposes, fine mahogany sawdust, for instance, being extensively used in cleaning furs. There are sold 15 or 20 different varieties of fine sawdust from as many different kinds of hard woods, these being gathered from the various mills.

While fine mahogany is the sawdust most largely used in cleaning furs, various other kinds are also employed for that purpose. The use of boxwood sawdust for cleaning jewelry is traditional. Boxwood sawdust is also used in polishing silver. Some sawdusts are used in marquetry work. Some are used in making pressed moldings and ornaments. Sandalwood sawdust is used in scent bags.

The production of coarse sawdust of various hard woods, such as oak and maple, is greater than the demand for it. Such sawdusts may be burned in the mills where they are produced. Coarse mahogany sawdust may be sold for commonplace uses or employed as fuel where it is made, but for the fine sawdusts of all the hard woods there is more or less demand. For many of them there is a ready market. The most costly of fine hard wood sawdust is boxwood, of which the supply is less than the demand.

Fine hard wood sawdusts are shipped from this city to various parts of the United States. They are exported in considerable quantities to Canada, and some are sent to England.—New York Sun.

MEDICAL SCIENCE ADVANCES.

Positive Cure for Asthma Discovered

It has long been recognized by medical scientists throughout the world that nature has supplied all creation with some remedy in the vegetable or mineral kingdom where, with all forms of ailments can be cured, but it was not until the discovery by Stanley of the wonderful Kola plant along the Congo River in Africa that asthma was permanently curable. In fact, it was not until the investigations made by Dr. Clarke some years later that this disease was found curable; he found that by combining the extract of Kola Nut with other vegetable extracts that the compound obtained would permanently cure asthma. Clarke's Kola Compound was then tried on over 100 cases in different hospitals, with the marvellous result that over 95 per cent were permanently cured in less than 60 days treatment. Clarke's Kola Compound is now recognized to be the only permanent cure for this dreaded disease. Sold by all druggists. Free sample bottle sent to any person. Mention this paper. Address The Griffiths & Macpherson Co., 121 Church street, Toronto, or Vancouver, B. C., sole Canadian agents.

Sold by Geo E Hughes.

CHARLOTTETOWN Business College

—AND—
Writing Academy
Will re-open for the Fall and Winter Term
ON AUGUST 29th.

("Let the Searchlight of Practice illuminate the dark places of Theory")

A THOROUGHLY Progressive, Practical Institution, in which young men and women are not only taught Book-keeping (in all its applications to Commerce) both by single and double entry, but are trained how to do business by actual business transactions. The students act as buyers, sellers, traders, bankers, book-keepers and accountants in actual business operations, and the currency issued by the College Bank, and the merchandise issued from the Emporium are used in bona fide business transactions, just the same as in mercantile and banking houses. Book-keeping in itself may be learned at home, but a knowledge of how to transact business cannot be thus acquired. That our course and system of training is eminently practical, we write for testimonials from business men and from students who are now holding lucrative and responsible positions.

SUBJECTS:

Book-keeping by single and double entry (theoretical and practical) Actual Business Practice, Business Penmanship, Business Correspondence, Commercial Arithmetic, Commercial Law, Railroading, Steamboating, Banking (actual practice in the College Bank), Typewriting, Shorthand, and Navigation.

FACULTY:

- J. B. Miller, Principal, Teacher of Book-keeping, Arithmetic, Business Practice, Business Correspondence, Typewriting and Navigation.
- A. McMillan, Vice Principal, Teacher of Railroading, Steamboating, Banking, Accounting and Actual Business Practice.
- J. Harry Williams, teacher of Business Penmanship.
- Wm. Moran [licensed] Teacher of Shorthand.
- George S. Enman, Esq., [Law Firm McDonald & Inman] Lecturer on Commercial Law.

For circulars or full information write or apply to

L. B. MILLER, Principal

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate. PROF. MELVILLE B. BUCKLEY, Instructor Boston Dental College, Boston Mass

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductivity of rubber, and as aluminum is now so cheaply produced, and making as it does a rigid, light, cleanly, unobjectionable plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. F. B. L. D. D. S. Chicago Ill Dental School

The above quotations are from hundreds of eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber. Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a metal plate either of Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate.

We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day, fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work. Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.

See our artificial teeth without plates.
