## IS DEATH DELIGHTFUL?

**Dr. Roosevelt Says That at Any Rate It is Not a Grim Monster—The Soothing Speculations of a Scientist.**

Familiarity with death is apt to alter one's earlier conceptions of it. Two ideas are very generally accepted which experience shows to be false. One is that the dying usually fear death; and the other, that the act of dying is accompanied by pain. It is well known to all physicians that when death is near its terrors do not seem to be felt by the patient. Unless the imagination is stimulated by the frightful portrayal of the supposed "pangs of death," or of the sufferings which some believe the soul must endure after dissolution, it is rare, indeed, that the last days or hours of life are passed in dread. Oliver Wendell Holmes has recorded his protest against the custom of telling a person who does not actually ask to know that he cannot recover. As that loving observer of mankind asserts so must everyone who knows whereof he speaks assert that people almost always come to understand that recovery is impossible; it is rarely needful to tell anyone that this is the case. When nature gives the warning death appears to be as little feared as sleep. Most sick persons are very, very tired; sleep—long, quiet sleep—is what they want. I have seen many people die. I have never seen one who seemed to fear death, except when it was, or seemed to be, rather far away. Even those who are constantly haunted while strong and well with a dread of the end of life forget their fear when that end is at hand.

As for the act of dying—the final passage from life to death—it is absolutely without evidence that the oft-repeated assertions of its painfulness are made. Most people are unconscious for some hours before they die; and in the rare cases where consciousness is retained unimpaired until a few minutes before the end the last sensation must be of perfect calm and rest. It is worse than cruel to add to the natural dread of death which oppresses the majority of us while in good health the dread of dying.—October Scribner.

**Telegraphic Abbreviations.**

Soon after the advent of typewriting machines in telegraph offices, about five years ago, senders of news messages began to abbreviate, and the manager of one of the news associations invented a code of abbreviations which is almost as intricate as the sign code itself. For instance, the sender telegraphs "hag" and the receiver writes it on his typewriting machine "in consequence of." Likewise "pes" means principles, "ay4" means anywhere, "auhey," authenticity; "sum," sales unimportant; "sbpun," small business, prices unchanged; "fpabnd," full price asked, but no demand; "xr," exercise; "wam," with amendment. "utc," under the circumstances; "twy," to-morrow afternoon; "pep," presented a petition; "ogt," on the ground that; "scotus," Supreme Court of the United States; "kaw," adjourned sine die; "ehv," either of which; "ckx," committed suicide; "cbi," covered by insurance.—New York Press.

**To Identify the Tramp.**

A plan for distinguishing between genuine seekers for work who go on the road through necessity and the tramp by trade has been devised in England. Its object is to enable police officers and poor law administrators to identify each class, that the unfortunate workman may be aided in his search for work and the tramp be compelled to find it for a time whether he will or no. It is proposed to give workingmen cards upon which their last employer shall endorse a certificate of character, and on which shall be printed instructions where to go in every town and city in the United Kingdom for shelter and food. The possession of such a card is to give the tramping workman a right to this aid, while the tramp who does not have it is to be set at work in the workhouse or for public benefit somewhere.

**England's Submarine Cable System**

The war in Corea has just brought out prominently the control which England has over the submarine cable system of the world. English companies own lines having a length of more than 150,000 miles, which cost over £30,000,000 and produce a revenue of more than £4,000,000. The government has done everything in its power to facilitate the laying of these cables by subvention and patronage, and the preliminary surveys have been nearly all made by the naval authorities. In return the companies are obliged to give priority to the despatches of the imperial and colonial governments over all others, to employ no foreigners and to allow no wire to be under the control of foreign governments, and, in case of war, to replace their servants by government officials when required.

**GENERALLY PRESCRIBED.**

**The Idea that Bright's Disease cannot be cured Proven to be a Fallacy.**

QUEBEC, Nov. 5—Local physicians are much gratified over the letter of Dr. A. G. McCormick, of Richmond, this province, testifying to his cure of Bright's Disease, by the use of Dodd's Kidney Pills. Since the introduction of the remedy in this city, many physicians have not hesitated to prescribe the pills, and numerous cures have been the result. This latest testimony, coming from so well known a medical man, proves that the local men were right in changing the old-time remedies for Dodd's Kidney Pills. Hence their jubilation.

DR. G. C. OSGOOD,

Castoria.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Cause and effect; constipation is the cause of a host of diseases. Hawker's liver pills cure constipation, thereby preventing its consequent ills.

The war was over. The victorious Japanese troops marched proudly through the streets of Pekin. Li Hung Chang, "the Bismarck of the East," sat alone in his palace wrapped in thought.

Just simply wrapped in thought. That was all.

The oil of the Norwegian Cod Liver is nature's great restorative, and is only found in its entirety and purity in Miller's Emulsion, "the kind that cures" colds, coughs, bronchitis and all affections of the throat and lungs. Catarrh is an unhealthy disease and is often followed by consumption.
