Still Unconsoled

Mr. Pearson has been frustrated in his wish to share the limelight in a televised debate with Prime Minister Diefenbaker...

Nor has Mr. Pearson shown any desire to endorse the contention of Mr. Tommy Douglas...

Losing Our Own A bulletin published by the Economics and Research Branch of the Department of Labor...

It is odd, in the circumstances, that Mr. Diefenbaker should be charged with being arrogant and presumptuous...

Regardless of which party wins in the coming contest, they are all on a par until the electors pass judgment...

The Washington Talks

As Prime Minister Macmillan remarked in London the other day, discussions with Commonwealth countries on the European Common Market question are proceeding in an informal manner...

vague as to details, but it is rumored that the two western governments believe the international situation may actually improve after the American and Russian tests have taken place.

"Russian tests", we say; for there is little doubt as to a Russian decision to carry out additional tests, following the U.S. shots.

President Kennedy and Prime Minister Macmillan wish to avoid a situation which could lead to a spiralling arms race and to an endless cycle of nuclear tests.

The basis of this optimism is the time factor involved in fully absorbing the knowledge gained from the current nuclear tests.

This, unofficially, has leaked out as the real purpose of the Kennedy-Macmillan talks at this time.

The trained people Canada lost to the United States from 1950 to 1960 were, in order of numbers, graduate nurses, teachers and professors...

The reasons for this loss of trained Canadians to the United States are many; but the chief one is no doubt the economic attraction southwards, increased by geographical proximity...

The federal Department of Labor has not been inactive in the face of this problem. Since the academic year 1955-56 it has maintained a directory of Canadian students in the United States.

Rumors are that Prime Minister Diefenbaker may appoint Mayor Whitton, the stormy petrel of Ottawa's civic politics, to the Canadian Senate.

KITE FLYING TIME

OTTAWA REPORT by Patrick Nicholson

The Toronto Scottish Regiment

The glamour of one of Canada's most famous regiments has been highlighted by the revival of the long defunct rank of Honorary Colonel of the Toronto Scottish...

The Toronto Scottish Regiment was first raised early in 1915 by Lieut-Colonel S. G. Beckett - formerly of the Missisquoi Horse - to form part of the Canadian Expeditionary Force.

Between 1915 and 1918, its 900 or more officers and other ranks fought in all the great infantry battles in Flanders Fields and beyond.

FAMED COMRADES In 1923, the Toronto Scottish regiment of militia became affiliated with the British territorial regiment, the London Scottish (Gordon Highlanders).

The Colonel-in-Chief of the regiment, Queen Elizabeth, presented new colours to it during her visit to Canada in May 1939.

Three weeks later Mr. Thomson will also take part in the ceremonies when the Queen Mother, Queen Elizabeth, is officially greeted in Toronto by the regiment.

As Honorary Colonel of the Toronto Scottish Regiment, Mr. Thomson now fills a post which has been vacant for 25 years.

FORMAL MEETING Mr. Thomson will meet the regiment and be received by it on 22nd May. On that occasion he will review it in full dress...

PUBLIC FORUM

This column is open to the discussion by correspondents of questions of public interest. The Guardian does not necessarily endorse the opinions of correspondents.

ROADWORK NEEDED

Sir.—Now that the date is set for the federal election, a set each representative will be calling to solicit votes, let us not forget provincial matters either.

SUNDAY OBSERVANCE

Sir.—An article appearing in The Guardian of recent date, signed "Observer", expressing views on Sunday fishing, is worthy of serious consideration.

TIRE OF THE DUST

In a personal sense, the years of power do not seem to have diminished the energy and vigor of Mr. Khrushchev to any important degree.

Bite-Prone Boy Top Candidate For Cat Fever

By Dr. Theodore R. Van Dellen MORE than 1,000 cases of cat scratch fever have been reported in our medical journals.

Dr. Robert T. S. Jim, of Honolulu, reported this case in the Journal of the American Medical Association. The child had been in contact with cats but had no scratches when he was admitted to the hospital with cat scratch disease.

Many tests were done but the diagnosis was made only when the skin test for cat scratch fever was found to be strongly positive.

The virus does not more harm to the cat than do fleas on a dog. But in humans, the disease is generalized and involves the lymph glands of the body.

Franking Privilege Abused

Arthur Blakely in The Montreal Gazette The 24th Parliament is no more. But the melody lingers on. Credit for having precipitated the first post-dissolution controversy of any consequence must go to Miss Judy LaMarsh, Liberal Member of Parliament for Niagara Falls who accused M.P.'s of scandalous abuse of their franking privilege.

Stalin's Son

New York Herald Tribune

Stalin's son was a shadowy figure during his lifetime, and such is the secretiveness of the Soviet system that we don't know the time or the circumstances of his death, which apparently took place in Kazan, the ancient Tartar city in the interior of Russia.

Vasily Stalin made news in two ways during the war, and as a general he did well afterwards. His father made him a lieutenant-general at the age of twenty-six, nepotism apparently being among the "isms" tolerated in the U.S.S.R., although if half the stories about Vasily were true, he belonged in jail—

Is Time Running Out?

Montreal Gazette

Premier Khrushchev has celebrated his 68th birthday. It is an age at which the undisputed leader of a powerful country might well take stock of what he has done, and of what he can still hope to do.

In a personal sense, the years of power do not seem to have diminished the energy and vigor of Mr. Khrushchev to any important degree.

Mr. Khrushchev's policies have also failed to live up to the promises and boasts of yesterday. How many people remember the Premier's enthusiastic campaign to overtake the United States in the per capita production of meat, milk and butter by 1961?

Mr. Khrushchev's endless boasts about the rockets and missiles of the Soviet Union have become more and more unreal. The mighty force of the World Communist Movement
