The point seems to be well taken, but it is hardly new. It is a long time since people began to call Mr. Tarte the master of the administration.

**Halifax Herald**:—It seems that Mr. Andrew Carnegie, since his eleemosynary announcement, has been so pursued by the delegates and letters of donation-asking institutions, that he had to take refuge in his Highland castle and has given public notice that no begging letters will receive any attention. Which persecution, as well as other evil, Andrew might have avoided had he but obeyed the admonition, "When thou doest thine alms, do not sound a trumpet before thee, as the hypocrites do in the synagogues and in the streets, that they may have glory of men"

If you have catarrh, don't dally with local remedies, but purify and enrich your blood with Hood's Sarsaparilla.

**SAD DROWNING ACCIDENT**.—While overhauling herring nets in Richmond Bay on Saturday, a young man named Donald English lost his life. The accidental capsizing of a dory caused the disaster.
