THE DAILY EXAMINER.

AUGUST 5, 1892.

Notes and Comments.

Official reports from the United States show that the potato crop of this year will be short.

Last year Belgium sent £17,358,776 worth of goods to England, and took only £7,638,912 worth in exchange.

Mail advices from St. Johns, Nfld., say: "The mayor of St. Johns has received a letter from a farmer in the state of Maine. The writer says that he has heard of the fire, and desiring to aid some sufferer, would be glad to give a suitable female a good home with him."

The theory that the Customs duty, under a protective tariff, is added to the price of the domestic product has long been proved only a theory, which is rudely shattered when brought into contact with experience.

The industry of Toronto, says: "To one of conservative instincts, the radical legislation which looms on the horizon of British politics must be little less than appalling."

The stagnation in the London money market continues. The hides of Galloway cattle are being used to make robes in place of the now nearly extinct buffalo.

The Queen has knighted the Lord Mayor of London, conferring upon him the order of St. Michael and St. George.

The Government of Victoria, Australia, has increased the import duty on Oregon pine \$6 55 per 1,000 feet and the duty on canned fruit to 6 cents a pound, and San Francisco people are much excited.

No smoker who has ever used the Myrtle Navy tobacco for, say a month, ever relinquishes it for any other brand. Its flavor is rich and full, and it never burns the tongue or parches the palate.

The Wild-Rose Thicket.

Chas. G. D. Roberts in Harper's Weekly.

Where humming flies frequent, and where Pink petals open to the air,

The wild-rose thicket seems to be The summer in epitome.

Around it, to the sea-rim marsh; The patient levels of the marah;

And o'er it the blue heavens bent, Half sufferance and half content.

Crisp and Casual.

Bright violet is the Turkish mourning color.

Edward B. Stirling, of Trenton, N. J., owns a stamp worth \$1,000, for which he paid nine cents.

Father Ore, a French priest stationed at Jerusalem, recently found a talent of the time of King David in his door yard.

The highest price ever paid for a horse was \$150,000, the amount paid by Senator Stanford to Malcolm Forbes for Artell.

The Women's Christian Temperance Union has established a free milk booth on Franklin Square, Philadelphia, it is well patronized.

The United States has more than 500,000 bearing banana plants, 200,000 bearing lemon trees, 4,000,000 orange trees, and 21,000,000 pineapple trees.

San Francisco has an earthquake-proof hotel. It is constructed of iron and in the form of two hollow squares, one within the other, arranged so as to brace each other.

The three longest rivers in the world are: The Missouri, from its source to the mouth of the lower Mississippi, 4,575 miles; the Amazon, 3,944 miles, and the Nile, 3,500 miles.

Charles Wood, a druggist of Harleston, England, has a brood of white blackbirds, a fact which is vouched for by Land and Water and by several prominent ornithologists and naturalists.

"You bring up your girls," says Ruskin to English mothers, "as if they were meant for sideboard ornaments, and then complain of their frivolity. Give them not only noble teaching but noble teachers, and give them the help which alone has sometimes done more than all other influences—the help of wild and fair nature. You cannot baptize them rightly in inch-deep church fonts unless you baptize them also in the sweet waters which the great Law Giver strikes forth from the rocks of your native land."

World's Fair Notes.

The Government of Mexico will exhibit at the World's Fair a large and valuable collection of Aztec relics.

The architects of the world are to be invited to a congress at Chicago during the World's Fair to discuss architectural subjects and the interests of the profession.

Canada will erect a World's Fair building at Chicago 100 feet long by 44 feet wide, with a ten-foot veranda surrounding it on all sides. Plans have been submitted for approval.

"For more than two years I have suffered from a great nervous ailment, called Liver and Kidney Trouble. Nearly all the time I would have severe pains in my back and side, with a constant dull pain in the region of my liver. My bowels were very constipated. Food did not digest. I was unable to sleep. My heart would palpitate greatly at times, in fact I was well broken up."

For two months I have been taking SKODA'S DISCOVERY and SKODA'S LITTLE TABLETS, and I AM A NEW MAN. Appetite good. Bowels in good condition. Heart palpitation all gone. I feel no trouble with Liver or Kidneys now. I AM WELL. That good Liberal sheet, the Huntingdon Gleaner, discusses the Toronto Globe's proposal that the Opposition party hold a convention, and says: "The proposal seems to be inopportune. The first need of the Liberal party is a change of leaders. At the present time no successors could be named. A delay of two or three years is certain to bring forward men to succeed Laurier and Cartwright. The second crying need of the party is a return to Liberal principles. Would a convention held now place the party on the platform of separation of church and state and of as near an approach to free trade as circumstances would permit? Seeing that the course of policy has been directed of late years by politicians who have been angling for the support of the hierarchy, and have been blowing hot and cold as regards protection, we think not. Then, again, Sir Richard and Mr. Laurier, to be consistent with their course in Parliament, would try to commit the party to Unrestricted Reciprocity, and if successful, an irreparable split would ensue, for an important section of Liberals never have and never will accept any proposal detrimental to imperial interests. Add to these difficulties the certainty that into a convention held now Mercier would intrude, whose presence would prevent self-respecting Liberals from having anything to do with it and it becomes plain that delay in holding the proposed meeting until near the approach of the next general election is advisable. A convention held now would not represent the Liberal sentiment of the country. It would be a gathering of party wirepullers, who would use the name of a great party to further their personal interests." This is about the way the majority of the English-speaking Liberals of the country view the matter.

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat, in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands.
