

NEWS BY TELEGRAPH.

EUROPEAN.

LONDON, Oct. 30.

It is announced that Earl Bessborough has joined the Land League. He holds 35,000 acres of land, is brother-in-law to the Duke of Richmond, and has held high offices.

NEW YORK, Oct. 31.

A cable special of the 30th says: Greatest anxiety is felt over the issue of the two political events in Ireland to-morrow and Monday. Should they pass off without serious violence it will be more than the government has reason to expect in the present temper of the people. Sunday afternoon there will be an immense agrarian demonstration at Bantry, County Cork and on Monday another in the same town, when Healy and Walsh, Land Leaguers who have been arrested will be granted a preliminary hearing by Magistrates. The participants in meeting will remain until legal proceedings are terminated. Justin McCarthy says "Prosecutions in Ireland will be a total failure. The Government has nothing to bring up. I do not believe Parnell will be convicted by a Middlesex jury. We do not think Parnell said anything, or intended to convey any meaning for which he may be prosecuted."

LONDON, Oct. 30.

It is reported that two hundred vessels are ashore on the Lincolnshire coast.

The crew of a Swedish brig perished at Sutton, as the life-boat could not reach them.

The American bark J. R. Brown, of Portland, was wrecked at the Island of Lewis, one of the Hebrides. The crew landed at Greenock.

A life-boat capsized at Norfolk, and only two of the crew were saved.

CHICAGO, Oct. 30.

During the great storm, October 16th, on the lakes, upwards of \$500,000 damage was done to vessels and cargoes, and ninety-three persons perished. There were seventeen total wrecks, involving a loss of \$153,900; and in all sixty six vessels were damaged to a greater or less extent.

LONDON, Oct. 29.

I have before me over one hundred telegraphic reports from all parts of England, Ireland and Scotland, giving details of shipwrecks, floods, disasters, drowning, and a terrible loss of property. Telegraphic communication has been interrupted between London and Scotland, France and Germany. A great number of the lines are down. Although the storm has subsided in Ireland, it there raged most severely during the past twenty-four hours. Our Dublin correspondent telegraphs to-night that the storm continued to rage all last night. When it reached its highest force there was a great destruction of property. In the neighborhood of Dublin the roads and houses in all the low lying localities were flooded, many persons having to take refuge in the second stories. Several cattle in the fields perished. Fully fifty families about the city have been left houseless. A ship went ashore at Dollymount. It is not yet known whether any lives were lost. Another wreck is reported from Dalkey. A house was blown down at Dingle, three persons being killed. The bodies of a man, woman and child were washed ashore at Bray. The railways in various parts of the country are flooded, but traffic is not seriously interfered with. The dam of the Clonliffe distillery burst yesterday and destroyed £2,000 worth of property. Horses, carts and barrels were swept away by the flood. A tax cart, with a dead horse in the shafts, was swept away to sea from Clonliffe. It is feared that the driver is drowned. At Lucan the rising river flooded out several houses, the furniture in many cases floating out of the doors. At noon to-day a wooden bridge thirty feet long floated under the O'Connell Bridge, Dublin, toward the sea. A land slip occurred at Dalkey this morning, by which some houses were destroyed. Intelligence was brought to-day to the Fire Brigade office that a number of people living in houses at Rowerstown, off the old Kilmunham road, were in imminent danger of drowning. Five men, with engine and two ladders, proceeded to the place, and found the water four feet high. They rescued seven people out of the first house and nine out of the second. Many horses, cattle and poultry were drowned. Similar reports have been received from many places. It is simply impossible to give a connected narrative of the storm's ravages in England. A terrific storm still prevails over the whole of the islands and channel. On the east coast of Scotland a heavy north-east gale prevails, accompanied by snow and hail. A heavy sea is breaking over the entrance to the Tay, so that no vessel can enter or leave that river. At Jersey the hurricane did considerable damage in the country. At the shipbuilding yards the whole roofing of the sheds was torn off. The gale raged with fearful violence in the Channel and along the French coasts. The mail packets plying between Southampton and France were prevented from leaving their wharves in consequence of the severe gale and high sea. A dreadful storm raged at Middlesboro, the wind blowing from the northeast, and registering by the anemograph at the rate of over forty miles per hour. Two ships are reported as having gone on the Redcar Rocks. A steamer drifted from her moorings at Eaton and drove through the slag wall on to the sand bank. Berwick and neighborhood was visited by a terrible storm. Several ships in the harbor broke from their moorings and sustained considerable damage. At Kinderminster many portions of the town are inundated. The main streets are under water and the carpet factories have been compelled to stop work. Precautions are being taken to save the stocks. At Sunderland the sea is higher than has been known for many years. The brigantine Amelie

while making the harbor was driven ashore and became a total wreck. The crew was saved by the fire brigade. At Tamworth the water is rushing through the houses with the force of a river. People are removing their furniture to the upper stories. They are completely imprisoned, as the streets resemble venetian canals, so great was the flood. On the Yorkshire coast the most disastrous storm that ever was experienced raged over Whitby. The flood swept down the railroad bridge and caused a great deal of damage. Six vessels were driven ashore. The captain of one and eight men were drowned. Five vessels were driven ashore at Scarborough. The gale is raging with unabating violence. Men who have often crossed the Channel say that they have experienced nothing to compare with the gale of to-day for the past twenty-one years.

UNITED STATES.

WASHINGTON, Oct. 31.

The President has proclaimed November 25th as a day of thanksgiving and prayer.

NEW YORK, Oct. 31.

A special from Key West to the World says: Cuban American Democratic procession held here Friday night was the largest ever known in this part of Florida. While the procession was passing an unlighted portion of the street it was assaulted with sticks and stones thrown by Republican negroes. Twenty men and one woman were injured. Attacks were not resented. A number of rioters arrested will be severely dealt with.

ST LOUIS, Oct. 31.

A riot occurred last night during the Republican meeting, caused by some one throwing a brick into a crowd of negroes. The latter made an attack on a saloon from which they supposed the brick was thrown. The police resisted and a terrific fight ensued. The only man killed was a negro named Brown, but perhaps a dozen or more were more or less injured by policemen's clubs, when the latter charged the crowd. Joseph Simmons, a negro, had his skull fractured and will probably die. John Wigman (white) was shot in the hand, and several others were wounded and bruised with clubs and torches. Policeman Slattery, whose upper jaw was shattered, is in a critical condition.

CINCINNATI, Oct. 31.

In a street fight, in which a number of persons were engaged, Charles O'Neill (white) was shot in the abdomen and fatally wounded. Augustus Blackstone (colored) was arrested, charged with having shot him.

Weather Bulletin.

Probabilities for the next 24 hours for the Maritime Provinces.
