

Pearson Promises Program To Aid Farmers If Elected

CUDWORTH, Sask. (CP)—Les Pearson promised Thursday to launch a multi-million dollar program to aid farmers if the Liberal party is elected March 31. The program would include grants to farmers to cover the cost of storing surplus wheat on farms, boosts in the initial payments on wheat, oats and barley loans, proposals to extend federal price support to rye and flax. Mr. Pearson outlined farm policy in this little community 70 miles northeast of Saskatoon. Cudworth is in the Rosthern riding held by Liberal Walter Tucker who accompanied Mr. Pearson. Mr. Pearson said he was not criticizing Progressive Conservative legislation to provide cash advances on farm-stored grain or measures to improve price supports. "What I do criticize is the gap between what the Conservatives have done and the heaven-on-earth that they held out to the farmers in the last election. It's no wonder that the farm organizations are disappointed."

Ban European Immigrants Entering Canada Via The U.S.

OTTAWA (CP)—An immigration department official said Thursday the department this year will continue to prohibit European immigrants from entering Canada via the United States. The action was taken last October because immigration department ports of entry on the Canada-U.S. border are not equipped to handle large numbers of immigrants. Last July the department wrote shipping companies and airlines expressing concern about the large number of Canada-bound immigrants being landed in the U.S. It said that unless transportation companies acted to reduce the flow the department would be forced to take action. The departmental official said the companies did nothing to reduce the traffic. In fact, he said, some airlines without landing rights in Canada encouraged im-

igrants to travel to Canada via the U.S. He said the department then issued its October directive that European immigrants travelling to Canada must be landed at Canadian ports of entry. Exceptions are made in cases where only one or two immigrants are landed at U.S. ports. The directive means that all Canada-bound immigrants must travel to Canada on boats or aircraft which dock or land at Canadian ports of entry. The main shipping ports of entry are Halifax, Saint John, N.B., Quebec City and Montreal.

HELIPORT IN RIVER

LONDON (Reuters)—A second heliport for London—floating and moored permanently in the River Thames close to the city centre—is planned for operation by late summer. Rotorports Limited announced Tuesday.
