First Automatic Baby Car On Way

LONDON (Reuters) — Britain may soon be producing the world's first all-automatic baby car, The Sunday Dispatch says.

The newspaper says that production of such a car could be the outcome of the current bid by the Canadian Massey-Harris-Ferguson group to take over the Standard Motor Company of Coventry.

The paper also says: "Most favored is a plan which would give the eight horsepower and ten horsepower cars fully automatic transmission.

"This plan would give Britain a tremendous lead in the new 'battle of the babies' which now is being stepped up by German and Italian firms."

TOO MANY PEACHES

SACRAMENTO, Calif. (AP) — California cling peach processors are destroying about 37,800 tons of fruit this year instead of canning it, says the state agriculture department. Dr. E. W. Billy Graham Is Big Attraction

NEW YORK (AP) — Evangelist Billy Graham, with Vice-President Richard Nixon as his guest of honor, Saturday night drew the largest crowd ever to attend any event at Yankee Stadium.

The crowd admitted inside the ball park was estimated at 100,000 persons. In addition, police said, 20,000 persons were turned away after the 67,000 seats had been filled and 33,000 more packed into all available standing room, including the entire outfield.

The meeting was the largest ever held by Graham in the United States.

Because of the pressure of the crowd, the usual invitation to "come forward and accept Christ" was not made. Instead, Graham asked those who wished to "accept Christ" to stand. An estimated 2,500 did so.

Clyde Beatty Circus Gives Crowd Pleasing Performance

With a litheness which at times surpassed that of the fierce jungle cats which he has trained for almost 30 years, Clyde Beatty on Saturday afternoon and evening gave a superb exhibition of animal handling at both showings of the Clyde Beatty Circus which was here for the weekend sponsored by the Charlottetown Kinsmen Club.

Surrounded by nine huge lions and several tigers, the intrepid veteran of the circus ring and movie lions left his audience breathless by the confidence with which he approached the snarling beasts and the amazing manner in which these denizens of the jungle obeyed his every command. Never has such a wild animal act been seen here.

FINE ENTERTAINMENT

From the mirth provoking clowns to the acrobatic and balancing acts of highly skilled artists, the show was most enjoyable both for the old and the young.

The culmination of years of strenuous practice was seen in an amazing act of the Carmanas. The young lady in this act with the cooperation of her partner performed almost unbelievable headstands on the head of the male member of the act. The whole was brought to a climax by a sensational headspin which was accomplished with the seeming ease of a child spinning its new top.

HIGH WIRE ACT

The Mendez troupe performed some breath taking stunts in their high wire act. With no net below them, the Mendez brought their audience to their feet on several occasions when it would appear that their act was about to be interrupted by a fall.

Death defying antics on the flying trapeze featured the act of the Sabre-Jets. Led by the talented Juan Rodriguez, split second timing combined with nerves of steel to bring to local circus fans the finest act of its kind seen in Charlottetown.

A very entertaining part of the program was the performance of Attilina, a graceful and beautiful wire walker who reached the acme of her profession when she successfully executed a backward somersault.

The Clyde Beatty Show which is now the largest tent circus in the world travels by motor and after it's one day showing on Prince Edward Island left for New Glasgow, N.S. where they will show today. The show must go on.

W. WOOD ISLANDS W.I.

The regular monthly meet of Wood Islands West Women's Institute was held at the home of Mrs. Benj. E. Bears on July 2nd with thirteen members and one visitor present.

The school and sick committees were heard from and new ones appointed. It was decided to hold a bazaar sale of ice-cream and cake on July 19th in the school. Next meeting is to be held at Mrs. Robert Cook's.

Entertainment committee will be Mrs. Flora MacKay and Mrs. Martin MacKay. Meeting closed by singing the National Anthem, followed by a delicious lunch served by the hostess and committee in charge. A pleasant social hour followed.

Rising Prices Britain's Top Political Problem

By RANALD MacLURKIN

LONDON (Reuters) — Rising prices became Britain's top political problem last week as housewives dug ever deeper into their shrinking purses.

But ironically, while the government urged Britons to spend less, state-owned industries and services announced steep price increases in basic necessities.

The post office gave notice that letter rates will rise a half-penny Oct. 1. Telephones, which are run by the post office, also will cost more.

These increases follow swiftly on upward jumps in other nationally-owned enterprises — coal, gas, electricity and transport.

And these basic service rises will automatically push up prices of nearly everything else.

The government is conferring with all branches of industry — labor, national boards and management — in an attempt to find some way out of the problem.
