

By and by these young "Rabbits" and "Corkonians" and "Roschers," having tried the sweet excitement of firing revolvers and muskets through a narrow street, and of smashing a few unfortunate policemen, will perhaps seek higher game.

There were also continual riots and combats in the Eleventh Precinct, and fighting in various parts of the city. Unoffending persons were stabbed by rowdies in several localities.

At night several persons were grotted, and our room would fail if we should attempt to allude to all the horrible scenes which occurred in New York on the Fourth.

At a riot in Brooklyn in the afternoon, at the Mount Prospect Hotel, on Flatbush Avenue an affray occurred in which one man was killed and four wounded, two of the latter fatally.

MORE RIOTING IN NEW YORK.—NEW YORK, July 13.—There was another riot last night; and it is rumored that it is renewed this afternoon, and that the 7th regiment has been called out.

Four o'clock P. M. The riot going on in 7th ward is of a very serious character. A mob of 500 attacked the Metropolitan police with missiles and firearms.

This riot, it is said, was premeditated, but was not to take place until night, when it was intended to commence with an attack upon the 7th ward station-house.

Five hundred and thirty Mormons arrived at Philadelphia on Friday from Liverpool, in the ship Tuscarora, on their way to Salt Lake City. Some of the young women, having read the newspapers, have determined not to leave Philadelphia till they get more light on the subject of Mormonism.

From all accounts, strict discipline on board the ship would have been an object to many of the female passengers. We forbear publishing the result of lengthened conversations which our reporter had with some of these deluded creatures.

INSURRECTION IN KANSAS.

The President received a telegraphic despatch on the 18th, dated at Leavenworth on the previous day, from Governor Walker, stating that a serious insurrection had broken out at Lawrence, and that he had called out the United States troops to suppress it.

The St. Louis Democrat of the 17th has advices from Kansas, stating that Governor Walker has issued a proclamation, declaring the laws must be enforced, ensuring the citizens of Lawrence, and warning them not to organize under the Topeka Constitution.

Rumor says that 700 troops are summoned to march against Lawrence, and that it is the design of Walker to retain the army in Kansas, and to break up the Utah expedition.

Gov. Walker's proclamation to the people of Lawrence had been received at St. Louis. Its issue grew out of the fact that a Committee acting in behalf of the citizens of Lawrence had formed for submission to the popular vote a city charter differing essentially from that granted by the territorial legislature.

Despatches have gone West, directing Gen. Harney to throw the entire Utah expeditionary force upon Kansas, if necessary, to quell the insurrection, and preserve order.

CUBA.

The last accounts from Havana state that the planters and merchants there still remain firm in their hold upon Sugar, and refuse any abatement in price. The high price of Sugar has poured immense wealth into the hands of the sugar planters of Cuba, but as they hold large stocks in the United States and Europe, as well as at home, some of their surplus funds have been used in buying up and storing the Sugars on hand in foreign markets.

The enormous wealth accumulating in Cuba, from the profits of the Sugar trade, has caused an excitement in paper credits and stock speculations, for several months past, which has rivalled the wildest periods of financial excitement in the United States.

Every class has been infected with the mania; and among the other stock speculations, we see that some swindling Yankee, probably, has introduced among the Dons the stock of the Vermont Central Railroad, accompanied with some of the old reports, which set forth the great business and extent of the road, and its brilliant prospects for the future.

If they had been free from the enormous taxes levied on them by Spain, the planters of Cuba would probably have been at the present time the wealthiest community in the world. As it is, the island has to pay for an expensive military government, with high salaries to a swarm of officials, and besides is required to contribute some millions of dollars annually, to the support of the Spanish nation.

HAVANA.—The steamer Black Warrior, from New Orleans, 12th, via Havana 15th, arrived. A Spanish sailor is reported to have been killed in a row with the crew of the American barque Albertina, and the police had taken possession of the vessel.

No one is allowed to go on board except the American Consul and his deputy, who had been examining the crew. The British ship of the line Orion was at Havana, to sail soon for Halifax. Sugars unchanged. Stock 240,000 boxes, and of molasses 75,000 hhds. Freight duli. Havana is free from yellow fever.

The yellow fever was raging at St. Thomas, and it is reported that one of the Royal Mail Steamers had lost twenty-eight men.

The sugar crop had nearly closed. In Bridgetown, June 11th, sugar was quoted at \$8.50 per 100lbs, and molasses at 62c. a gallon.

FIRE IN MONTREAL.—July 14, 1857.—The Douglass Mills in this city were destroyed by fire last night. The loss is about \$30,000.

At the fire a quarrel took place between the Orangemen and Roman Catholics, in which several persons were injured.
