

New School. On Saturday evening last, a large and influential meeting of the householders of the eastern section of this town, was held for the purpose of appointing Assessors and a Building Committee, to have a new school house erected.

A good deal of interest was manifested, if we may judge from the speeches made. The Committee were instructed to erect a Building 40 x 25, and of proportional height.

An Emigration scheme has been proposed by the Intercolonial Railway Commissioners, with the view of providing the extra labor which the works of the Intercolonial Railway will require.

On Dr. — That the Rector is preparing a dungeon under the Saints' inscription, to be furnished with the most approved instruments of refined torture.

Why is the Rector of St. Dunstan's like one of the Charlottetown newspapers? Because McEae has proved him "an incompetent Examiner."

The excuse made by the Government — so we are informed — for not establishing in Summerside, a Registry of Deeds and other important offices asked for by nearly the whole population of Prince County, is that there is no proper and secure building here in which to keep them.

We have received four numbers of a magazine called "Once a Month" published by T. S. Arthur & Sons, Philadelphia: 20 cents a number, — one of the most interesting and instructive periodicals of the day.

"SCHOLASTIC ABILITIES."

This is an age of Velocipedes and Cartoons. Last week our contemporary noticed a cartoon on "the situation" of the Rector and Mr. McEae. We notice that Mr. McEae is placed in an analogous position by a new pictorial representation just got up, and photographed again by Mr. Forster.

The Latest Cartoon

Represents two prominent doctors — one political, and the other medical — on the point of departure to "Boston." Beyond a couple of individuals in the distance, there is no one visible to say "Fare-thee-well, and if forever, forever fare-thee-well," except a precocious looking rooster, which, standing on a town pump, pours out his lamentous "Yankee-oodle-doo, Good-bye to you."

We have received no less than three communications on the subject of the appointment of the new Judge. One of them we publish in this issue.

Several schooners laden with oats, are lying at the wharf here, all ready for sea, waiting for the ice to clear out of the harbor and straits.

The House of Assembly was prorogued on Monday last. There was not much done since our last. It was certainly a quiet session, whatever else it may have been.

Some of the Colonial papers censure the Island authorities very much with regard to Dowe's execution. They all express the same opinion as was given by an eminent lawyer in Charlottetown — "that he was only guilty of manslaughter."

The House of Assembly when amending the Election Law, gave Summerside a polling division.

Mr. Editor: As you have given publicity to the Resolves of the Board of Education in your last issue, regarding my letter of the 18th of March last, the public will naturally expect a few words from me.

As to the censuring of the Board — notwithstanding the strong language in which it is couched — I may say I still survive it; that my opinion in reference to the Rector's "scholastic abilities" is firmly the same; and that I believe public opinion is not in the slightest degree changed. Enough now.

A friend of ours who is chief clerk in the Governmental Dispensary, says that no medicine chest is now complete without Johnson's Anodyne Liniment. We always supposed it was prescribed by law; if it is not, it ought to be, for certainly there is nothing in the whole materia medica of so much importance to the soldier and the sailor as Johnson's Anodyne Liniment.
