

Cave Cities of the West. RECENT DISCOVERIES OF PREHISTORIC RELICS IN THE SAN FRANCISCO MOUNTAINS.

James Stevenson, of the Washington Geological Survey, has reported the discovery of several more ruined caves and cliff cities. The most remarkable one is a village of sixty-five underground dwellings near the summit of a volcanic foot hill in the San Juan region of Arizona.

Considerable debris was found in these ancient dwellings, an examination of which led to the discovery of many curious illustrating some of the social and domestic customs of the extinct race. Stone mauls and axes, the implements used in excavating the dwellings; pottery bearing a great variety of ornamentation; bone awls and needles of delicate workmanship; the metate, or family-grinding stone, for grain, its well-worn surface indicating long use; shell and obsidian ornaments and implements of wood were among the trophies.

Alive in Her Coffin.

THE FUNERAL SERVICES ENDED AND THE UNDERTAKER ABOUT TO CLOSE THE LID.

Mrs. Lucinda Neeley of Jeffersonville, Ind., a member of the Order of Knights and Ladies of Honor, and prominent in religious, charitable, and social circles, was taken very suddenly ill on Thursday night, and in two hours was pronounced dead. Heart disease, hastened by acute asthma, was assigned as the cause.

CURRENT NOTES.

Stanley has discovered a river in Central Africa called Kiamelonga. It can not be very far from Lake Nyman-nyun. Life.

The Rev. Thomas E. Green, of Chicago, said in a recent sermon that Noah's dove was the first reporter, and that an "exclusive" one.

"When in society, never talk of yourself." Is the injunction of an authority on etiquette. People in society never do—they run down other people.

Robert Harris, of New York, a director of the Northern Pacific and one of the vice-presidents of the Erie, has been elected to succeed Mr. Villard as president. Mr. Harris was formerly president of the Chicago, Burlington & Quincy.

At Jeffersonville, Ind., preparations were made to bury Mrs. Lucinda Neely, on Monday, when appearances of life were discovered, and the body was removed from the casket and at last accounts efforts were being made to bring her out of the supposed trance.

The wearing of mackintoshes is said to be a fruitful cause of colds. The mackintosh prevents exterior writing, but the clothing under it becomes saturated with moisture from the body, which evaporates when the garment is removed. The Lancet says that when once the mackintosh has been put on it should not be removed until the wearer is in a position to change his clothing.

The immigrants by the steamship Circassian, who arrived at Halifax at ten o'clock on Monday night, and left on the same night for Montreal, according to the report of the Dominion Immigration office here, are still on the road. They are expected to arrive this after-

noon. The long time taken to make the run from Halifax, proves the difficulty of traveling owing to the frost. Montreal Witness, Wednesday.

The Boston Transcript says:—"Any man with seven shilling to spare can have his pedigree traced and his arms painted in heraldic colors by sending money, name and residence to a certain establishment in London; or, by negotiating with a party in Pittsburg, he can obtain the coat-of-arms and use of name of an aristocratic European family, with a record running back to A. D. 1100."

Henry Irving has not amassed any great fortune, though he has earned and still earns large salaries. According to Mr. Joseph Hatton, "he is too devoted a promoter of art, too generous a man, to be very rich. He is simple in his tastes and habits, but enjoys terrapin, canvas-back duck, and a good cigar, and when a hotel proprietor recently tried to palm off on him an ordinary duck for his favorite dish it made him furious."

Efforts are being made to secure the attendance of the British team at the next competition of the Dominion Rifle Association. A letter has been received from the captain of a Scottish team who speaks highly of the idea as well as the pleasure it should give to him and his Scottish friends to visit Ottawa. He states that in his opinion if a formal invitation were extended by the Dominion Rifle Association to the War Office it is very likely that it would be accepted and a small grant would be given for this purpose.

Dartmouth, N. S., has an elopement sensation. The man in the case is named Fraser Allan, a three months widower. He had been recently working in New Glasgow, from which place he, it is alleged, wrote to his *amatorata* for the necessary funds to purchase certain articles of clothing and pay his passage. The woman is Mrs. Guy, whose husband was sentenced five years imprisonment at Dorchester for stealing money from the Halifax banking company. She has two children, and it is said had a considerable amount of cash. They travelled westward by train on Wednesday.

A new device for prompting elopements has been given to the world by a young Cincinnati girl, lately, Miss Iriska Haverfield, now Mrs. W. P. Baird, of Fayetteville, Tenn. In spite of a vigilant mother, she was married to the man of her choice several weeks ago, the license having been readily obtained, although she was under the prescribed age. When asked how she managed it she replied that her witness conscientiously swore that she was "over 18," that number having been placed on the soles of her boots for the special purpose. St. Louis papers will please make the obvious point that Chicago girls have no need to adopt this precaution.

R. V. BARKER, St. John, Wholesale Agent. W. R. WATSON, Charlottetown, P. E. I. J. A. CROSSMAN, Middletown, Lot 27. Oct. 22, 1883—nod wky

Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured.

It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures seborrhea and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the Vigor is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

MR. C. P. BRICHER writes from Kirby, O., July 3, 1882: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWKER, proprietor of the *McArlair* (Ohio) *Register*, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The Vigor is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

MR. ANGELO FAIRBANKS, leader of the celebrated "Fidelity Family" of Scottish Vocalists, writes: "I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public."

Mrs. O. A. PRESCOTT, writing from its *Edin* (Charlottesville, Mass.), April 11, 1882, says: "Ever since my hair began to fall out, I have used AYER'S HAIR VIGOR, and in about a month my hair was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the Vigor, but now use it occasionally as a dressing."

He has hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.
